## Second Decade Voyages:

Collection of the Early Voyages, Travels, and Discoveries, of the English Nation Richard Hakluyt, 1812 Empire And Others Professor M Daunton, Rick Halpern, 2020-09-10 Much has been written about the forging of a British identity in the 17th and 18th centuries from the multiple kingdoms of England Scotland and Ireland But the process also ran across the Irish sea and was played out in North America and the Caribbean In the process the indigenous peoples of North America the Caribbean the Cape Australia and New Zealand were forced to redefine their identities This text integrates the history of these areas with British and imperial history With contributions from both sides of the Atlantic each chapter deals with a different aspect of British encounters with indigenous peoples in Colonial America and includes for example sections on Native Americans and Early Modern Concepts of Race and Hunting and the Politics of Masculinity in Cherokee treaty making 1763 1775 This book should be of particular interest to postgraduate students of Colonial American history and early modern British history **Maritime Exploration in the Age of Discovery, 1415-1800** Ronald S. Love, 2006-09-30 Despite earlier naval expeditions undertaken for reasons of diplomacy or trade it wasn't until the early 1400s that European maritime explorers established sea routes through most of the globe's inhabited regions uniting a divided earth into a single system of navigation From the early Portuguese and Spanish quests for gold and glory to later scientific explorations of land and culture this new understanding of the world's geography created global trade built empires defined taste and alliances of power and began the journey toward the cultural political and economic globalization in which we live today Ronald Love's engaging narrative chapters guide the reader from Marco Polo's exploration of the Mongol empire to Ferdinand Magellan's circumnavigation of the globe the search for a Northern Passage Henry Hudson's voyage to Greenland the discovery of Tahiti the perils of scurvy mutiny and warring empires and the eventual extension of Western influence into almost every corner of the globe Biographies and primary documents round out the work **Voyages Out, Voyages Home** Jane de Gay, Marion Dell, 2018-09-15 The Eleventh Annual Conference on Virginia Woolf was the first to be held outside the United States This voyage across the Atlantic was the stimulus for an exploration of themes of voyaging in Woolf's works from her interests in travel and cross cultural encounters to her imaginative voyages between texts and genres and the subsequent voyages her texts have made into the work of others Published nine years after the conference this selection of papers by international scholars fills a gap in the chronicles of the Woolf conference For this reason several papers feature an Afterword outlining developments in research since 2001 and the book also includes a Bibliography of Publications Arising from the Conference facilitating access to research presented at Bangor but published elsewhere Another special feature of the volume is the tribute to one of the keynote speakers Julia Briggs who died in 2007 in which Beth Rigel Daugherty communicates the gratitude of the scholarly community for Julia's many contributions to Woolf studies This welcome publication is a fitting record of our collective voyage as Woolf scholars A Catalogue of Geography, Voyages, Travels, History of America, Africa,
