Gleanings in Bee Culture, 1885 **African Heritage Challenges** Britt Baillie, Marie Louise Stig Sørensen, 2020-11-27 The richness of Africa's heritage at times stands in stark contrast to the economic, health, political, and societal challenges faced. Development is essential but in what forms? For whom? Following whose agendas? At what costs? This book explores how heritage can promote secure or undermine sustainable development, with special focus on sub-Saharan Africa and in turn how this affects conceptions of heritage. The chapters in this volume identify shared challenges, good practices, and failures, and use specific case studies to provide detailed insights into varied forms of heritage and heritage-defining processes on the continent. By critically analysing the often romanticised discourses of heritage, community engagement, and sustainable development, the volume suggests ways of harnessing aspects of heritage to tackle some of the socio-economic and political pressures facing heritage practices on the continent, including the legacies of colonialism.
