**The Girl with the Secret Name** Yael Zoldan, 2025-05-30

We are guardians of a great treasure. We are links in a precious chain. Papa paused and Beatriz felt her heart pounding. This sounded very exciting. Her Papa looked up and his dark eyes caught hers. My daughter, we are Jews. The Girl with the Secret Name tells the inspiring true story of Beatriz de Luna, or Do a Gracia Mendes Nasi, the 16th-century Jewish Portuguese philanthropist who saved the lives of hundreds of conversos across Europe during the Inquisition by establishing an escape network for them. The book recounts almost all of Do a Gracia's remarkable life, beginning in 1522 on the eve of her 12th birthday when she learns that her family are secretly Jewish. It then follows her journey throughout the 1500s as she and her family move from Portugal to the Netherlands and on to Italy and Turkey, trying to escape danger while saving the lives of conversos as they went up to her death in Istanbul in 1569. Highly informative and moving, Yael Zoldan's retelling of Do a Gracia's story will teach young readers about the importance of family, community, and

**Profanations** Giorgio Agamben, 2020-10-20. The Italian philosopher Giorgio Agamben has always been an original reader of texts, understanding their many rich and multiple historical, aesthetic, and political meanings and effects. In *Profanations*, Agamben has assembled for the first time some of his most pivotal essays on photography, the novel, and film. A meditation on memory and oblivion on what is lost and what remains, *Profanations* proves yet again that Agamben is one of the most provocative writers of our times. In ten essays, Agamben rethinks approaches to a series of literary and philosophical problems: the relation between genius, ego, and theories of subjectivity; the

problem of messianic time as explicated in both images and lived experience parody as a literary paradigm the potential of magic to provide an ethical canon The range of topics and themes addressed here attest to the very creativity of Agamben's singular mode of thought and his persistent pursuit to grasp the act of witnessing sometimes futile sometimes earth shattering the talking cricket in Pinocchio helpers in Kafka's novels pictorial representations of the Last Judgment of anonymous female faces and of Orson Wells's infamous object of obsession Rosebud In Praise of Profanity the central essay of this small but dense book confronts the question of profanity as the crucial political task of the moment An act of resistance to every form of separation the concept of profanation as both the return to common usage and sacrifice reorients perceptions of how power consumption and use interweave to produce an urgent political modality and desire to profane the unprofanable In short Agamben provides not only a new and potent theoretical model but also a writerly style that itself forges inescapable links between literature politics and philosophy     [The Mimic Men](#) V.
