Secret Of The Universe:

The Secret of the Universe Nathan R. Wood, 2013-02-04 The Trinity of Father Son and Holy Spirit reflected and expressed in the trinities of space matter and time is the secret of the universe It is the key to the many riddles of the universe It shows why things are as they are and that they did not happen so It shows why space is what it is of three dimensions It shows why matter is what it is of energy motion and phenomena with all their relationships It shows why time is as it is composed of future present and past It shows why man is made as he is It may show the great principle of unity in all things It should illuminate the relationship of space matter and time It may well cast light on the mysterious principles of existence of change and of reality in the universe The being of God as the central fact of the universe may explain these universal things It may make them clear not as we ourselves paradoxically try to make mysteries clear by involved effort and intricacies of thought and abstruse analysis but by the broad self evident fact of the Trinity *The secret of the universe* Nathan Robinson

[The Secret Doorway](#) Paul Hutchins,2008-11 A pictorial drama of the creation of Heaven and Earth based upon the awe inspiring photo images from the Hubble and Spitzer space telescopes Author Paul Hutchins uncovers a grand drama on a universal scale that has been playing out since the invention of the telescope He poses the question is this grand drama merely in response to an ancient invitation recorded in the Book of Isaiah It states in Isaiah 40 26 Look up into the heavens Who created all the stars Through the use of his imagination and the invention of the telescope man has discovered a once secret doorway to a world beyond imagination He has now in this age of cutting edge technology developed flying space telescopes in his quest to know how did we get here What he has found has astounded him Hutchins farther poses the question if it took over 400 years of man s imagination from when the telescope was invented and countless other inventions including the Hubble and Spitzer space telescopes to merely take photo images of the universe then who s imagination is responsible for the reality those photo images represent As we peer through this doorway to the heavens and look upon these heavenly cosmic bodies we find ourselves awed by their grandeur The pressing question becomes too large to ignore Who is responsible for all these things Could it be that we are now peering into the mind of a supreme architect with an imagination far beyond that of mere mortals Could we be peering into the mind of imagination supreme Could it be that we have been brought to this point in history unbeknownst to ourselves and given this technology by the one who extended that ancient invitation recorded by Isaiah 2700 years ago
