Wing Chun - The Brutality of Biu Jee - HSE Mark Beardsell, 2014-08-26 Biu Gee is the third and final hand form of the Wing Chun system and is generally only taught to trusted Wing Chun practitioners. Biu Gee contains advanced techniques and emergency escapes. Biu Gee teaches how to perfect the use of inch energy enabling the practitioner to develop power through very short distances. It also builds on the two way energy developed in Chum Kiu. Biu Gee footwork is known as circle stepping or Huen Ma and is essential to the Wing Chun system. Again this builds on the Chum kiu style thrusting stepping or Biu ma. Huen Ma enables the rapid but safe change of direction enabling the practitioner to avoid an attack and swiftly counter attack. Biu Gee also introduces the practitioner to elbow strikes. The elbow in Cantonese is jaan and Kup Jarn is a downward elbow. Kup jaan can be used to attack at very close distance where punching or palming with the hand is not an option

Wing Chun Kung-fu Volume 2 Joseph Wayne Smith, Dr., 1992-10-15 Not simply a training manual but a combat survival guide. Fighting and Grappling is a challenging book for all students of the martial arts. In this second volume of Wing Chun Kung Fu A Complete Guide the techniques introduced in Basic Forms and Principles are shown in combat situations. The combat applications of Wing Chun's sticky hand, sticky leg and grappling and throwing techniques are shown in detail and are fully illustrated. A chapter on the controversial poison touch dar mak explains the effect of strikes to the weak points of the human body in terms of both acupuncture and modern medical theory. Finally the author argues that the martial arts must evolve and develop new techniques to meet a changing environment. He shows this process of integration in action uniting White Crane kung fu and Thai kickboxing with Wing Chun to produce a complete and devastating new fighting system
