Feminism as Life's Work Mary K. Trigg,2014-06-23 With suffrage secured in 1920 feminists faced the challenge of how to keep their momentum going As the center of the movement shrank a small self appointed vanguard of modern women carried the cause forward in life and work *Feminism as Life's Work* profiles four of these women the author Inez Haynes Irwin the historian Mary Ritter Beard the activist Doris Stevens and Lorine Pruette a psychologist Their life stories told here in full for the first time embody the changes of the first four decades of the twentieth century and complicate what we know of the period Through these women's intertwined stories Mary Trigg traces the changing nature of the women's movement across turbulent decades rent by world war revolution global depression and the rise of fascism Criticizing the standard division of feminist activism as a series of historical waves Trigg exposes how Irwin Beard Stevens and Pruette helped push the U S feminist movement to victory and continued to propel it forward from the 1920s to the 1960s decades not included in the wave model At a time widely viewed as the doldrums of feminism the women in this book were in fact taking the cause to new sites the National Women's Party sexuality and relations with men marriage and work and financial independence In their utopian efforts to reshape work sexual relations and marriage modern feminists ran headlong into the harsh realities of male power the sexual double standard the demands of motherhood and gendered social structures In *Feminism as Life's Work* Irwin Beard Stevens and Pruette emerge as the heirs of the suffrage movement guardians of a long feminist tradition and catalysts of the belief in equality and difference Theirs is a story of courage application and perseverance a story that revisits the bleak and lonely years of the U S women's movement and emerges with a fresh perspective of the history of this pivotal era

Self-Made Women in the 1920s United States Matthew Niven Teorey,2022-05-16 Women of the 1920s led a revolt against the old standards of womanhood that were dominating US culture Flappers and feminists they spoke and acted out inspiring other women to follow This book analyzes the work of eleven important 1920s female authors who chronicled this revolt Anzia Yezierska Anita Loos Mae West Josephine Lovett Nella Larsen Mourning Dove Djuna Barnes Amy Lowell Gertrude Stein Bessie Smith and Dorothy Parker These trailblazers wrote counter narratives to the sexism racism classism and homophobia women faced during the Jazz Age The author brings their novels poems plays film scenarios and blues lyrics into conversation with each other for the first time to show different approaches female readers could take to become autonomous individuals and full citizens The works also encouraged readers to maintain supportive relationships with other progressive women The author argues these works presented female readers with examples of how they could act individually and collectively to attain the political power social status economic independence sexual freedom and artistic recognition they deserved

Modernism Edited Bazin Victoria Bazin,2019-02-20 Examines Marianne Moore's editorship of the modernist magazine the Dial between 1925 and 1929 As editor of the Dial Moore wielded considerable cultural

authority in the world of arts and letters yet cultural histories of modernist magazines have largely overlooked her editorial influence *Modernism Edited* Marianne Moore and the Dial Magazine makes visible Moore's contribution to the production of modernism even as it complicates the concept of editorial agency It explores the public face of the modernist editor the image of highbrow distinction circulated by the Dial and embodied by the figure of Miss Moore It also examines Moore's editorial practice as a form of modernist contractility drawing on her own poetics to understand more fully the motives underpinning her revisions It returns to the well known case of Moore's radical cuts to Hart Crane's poem *The Wine Menagerie* as well as instances of collaborative struggle with Williams Carlos Williams Gertrude Stein Paul Rosenfeld and D H Lawrence In doing so the book conceptualises editorial labour as a form of creative and critical social practice

Key Features Returns to controversial case of Moore's revisions to Hart Crane's *The Wine Menagerie* Uncovers evidence that points to Moore's revisions to the work of other well known modernists Conceptualizes editorial agency Develops methodologies for critically engaging with magazine content Uncovers and analyses Moore's advertisements for the Dial Produces a sustained analysis of Moore's editorial comments for the Dial Draws on Moore's poetics to understand her editorial revisions

The Politics of Irony in American Modernism Matthew Stratton, 2013-11-01 Shortlisted for the 2015 Modernist Studies Association Book Prize This book shows how American literary culture in the first half of the twentieth century saw irony emerge as a term to describe intersections between aesthetic and political practices Against conventional associations of irony with political withdrawal Stratton shows how the term circulated widely in literary and popular culture to describe politically engaged forms of writing It is a critical commonplace to acknowledge the difficulty of defining irony before stipulating a particular definition as a stable point of departure for literary cultural and political analysis This book by contrast is the first to derive definitions of irony inductively showing how writers employed it as a keyword both before and in opposition to the institutionalization of New Criticism It focuses on writers who not only composed ironic texts but talked about irony and satire to situate their work politically Randolph Bourne Benjamin De Casseres Ellen Glasgow John Dos Passos Ralph Ellison and many others

Women Making Modernism Erica Gene Delsandro, 2020-01-06 Challenging the tendency of scholars to view women writers of the modernist era as isolated artists who competed with one another for critical and cultural acceptance *Women Making Modernism* reveals the robust networks women created and maintained that served as platforms and support for women's literary careers This volume shows how women's writing communities interconnected to generate a current of energy innovation and ambition that was central to the modernist movement

Modernist Experiments in Genre, Media, and Transatlantic Print Culture Jennifer Julia Sorensen,2016-12-08 The years from 1890 through 1935 witnessed an explosion of print both in terms of the variety of venues for publication and in the vast circulation figures and the quantity of print forums Arguing that the formal strategies of modernist texts can only be fully understood in the context of the material forms and circuits of print culture through which they were produced and distributed Jennifer Sorensen shows how authors and publishers conceptualized the material text as an object as a body and as an ontological problem She examines works by Henry James Jean Toomer Djuna Barnes Katherine Mansfield and Virginia Woolf showing that they understood acts of reading as materially mediated encounters Sorensen draws on recent textual theory media theory archival materials and paratexts such as advertisements illustrations book designs drafts diaries dust jackets notes and frontispieces to demonstrate how these writers radically redefined literary genres and refashioned the material forms through which their literary experiments reached the public Placing the literary text at the center of inquiry while simultaneously expanding the boundaries of what counts as that Sorensen shows that modernist generic and formal experimentation was deeply engaged with specific print histories that generated competitive media ecologies of competition and hybridization

Dressed for Freedom Einav Rabinovitch-Fox,2021-11-16 Often condemned as a form of oppression fashion could and did allow women to express modern gender identities and promote feminist ideas Einav Rabinovitch Fox examines how clothes empowered women and

particularly women barred from positions of influence due to race or class Moving from 1890s shirtwaists through the miniskirts and unisex styles of the 1970s Rabinovitch Fox shows how the rise of mass media culture made fashion a vehicle for women to assert claims over their bodies femininity and social roles She also highlights how trends in women's sartorial practices expressed ideas of independence and equality As women employed new clothing styles they expanded feminist activism beyond formal organizations and movements and reclaimed fashion as a realm of pleasure power and feminist consciousness A fascinating account of clothing as an everyday feminist practice *Dressed for Freedom* brings fashion into discussions of American feminism during the long twentieth century
