**and Television** Timothy K. Conley, 2016-01-04 Vienna has been the locale for nearly one hundred and fifty films and television productions in English from 1920s through the first years of this century with imaginative representations of Freud Strauss Franz Josef Mozart Beethoven and Klimt mad scientists assassins spies refugees romantics and American professors historical dramas cartoons documentaries and Hitchcock's only musical comedy The City of Dreams has appeared as an imperial court a center of scientific and medical research a Jewish and Catholic homeland a locus of international espionage and domestic crime the destination for innocents abroad the birthplace of the waltz a stage for performances and performers and the site for romantic rendezvous For many in English language audiences such productions have constituted the most significant representations of Vienna a city that historically has been the capital of one of Europe's largest empires one of the most important centers for classical music and opera both a victim and an accomplice of Nazi Germany and the home of international diplomacy Cultural historians and Austrian writers have provided significant commentary on the city but their

influence has seldom reached such an extensive audience as the films and television productions screening Vienna for English language audiences Screening Vienna thus analyzes the representation of Vienna and the Viennese in English language film and television reviews the critical reception of these productions and measures the representations against the cultural and historical contexts and the writings of contemporary Austrian writers The book is unique in its scope over one hundred and fifty productions from the 1920s to 2013 and in its inclusion of leading reviews of many films references to cultural and historical studies of Vienna and references to modern and contemporary Austrian fiction Thus the analysis is more extensive in its coverage and more intensive in its analysis of each film than any previous study with a focus on scene language plot characterization and the reception of these films Scholars and students in American cultural studies film studies Austrian and Viennese history and popular culture will find the book informative and essential for studies of Vienna in the American and British imagination Given the extensive coverage and filmography many libraries should also view the book as a reference work in addition to its status in cultural and film studies The book will also be useful for film studies and American popular culture studies courses at advanced or graduate level Shrink Lawrence R. Washington wartime power Madeleine Albright Beautifully written and thoroughly researched Douglas Brinkley Transforms our understanding of America's wartime decision making Hew Strachan Aside from FDR no American did more to shape World War II than Admiral William D Leahy not Douglas MacArthur not Dwight Eisenhower and not even the legendary George Marshall No man including Harry Hopkins was closer to Roosevelt nor had earned his blind faith like Leahy Through the course of the war constantly at the president's side and advising him on daily decisions Leahy became the second most powerful man in the world In a time of titanic personalities Leahy regularly downplayed his influence preferring the substance of power to the style A stern faced salty sailor his U S Navy career had begun as a cadet aboard a sailing ship Four decades later Admiral Leahy was a trusted friend and advisor to the president and his ambassador to Vichy France until the attack on Pearl Harbor Needing one person who could help him grapple with the enormous strategic consequences of the war both at home and abroad Roosevelt made Leahy the first presidential chief of staff though Leahy's role embodied far more power than the position of today Leahy's profound power was recognized by figures like Stalin and Churchill yet historians have largely overlooked his role In this important biography historian Phillips Payson O'Brien illuminates the admiral's influence on the most crucial and transformative decisions of WWII and the early Cold War From the invasions of North Africa Sicily and France to the allocation of resources to fight Japan O'Brien contends that America's war largely unfolded according to Leahy's vision Among the author's surprising revelations is that while FDR's health failed Leahy became almost a de facto president making decisions while FDR was too ill to work and that much of his influence carried over to Truman's White House

decades the big Hollywood studios have operated classics divisions or specialty labels subsidiaries that originally focused on  
the foreign art house film market while more recently and controversially moving on to the American indie film market This  
is the first book to offer an in depth examination of the phenomenon of the classics divisions by tracing its history since the  
establishment the first specialty label in 1980 United Artists Classics to more contemporary outfits like Focus Features  
Warner Independent and Picturehouse This detailed account of all classics divisions examines their business practices their  
position within the often labyrinthine structure of contemporary entertainment conglomerates and their relationship to their  
parent companies Yannis Tzioumakis examines the impact of those companies on American indie cinema and argues that it  
was companies such as Fox Searchlight and Paramount Classics now Paramount Vantage that turned independent  
filmmaking to an industrial category endorsed by the Hollywood majors as opposed to a mode of filmmaking practised  
outside the conglomerated major players and posed as a sustained alternative to mainstream Hollywood cinema A number of
