Annotation How has California s landscape changed What did now familiar places look like during prior centuries This book explores these questions by taking readers on a dazzling visual tour of Napa Valley from the early 1800s onward a forgotten land of brilliant wildflower fields lush wetlands and grand oak savannas *Take the Slow Road: Scotland 2nd edition* Martin Dorey,2024-11-07 Forget the jet set Come back down to earth There is another way to travel see the world and truly be a part of it Taking the slow road is about turning your back on the fast lane to make time for people places and nature Stopping to take a breath Stopping to let the planet take a breath too And the best way to do it In your own home from home of course the humble camper van or motorhome This book is about the very best driving routes around Scotland But there s more to it than that It s about the best places to stay things to do and places to see and why it s vital that we experience it truly madly responsibly Come with us as we meander around the Highlands Lowlands and Islands of Scotland Everyone will find something between the pages to start writing their own stories in Scotland You don t even have to own a camper van or motorhome full listings of camper and motorhome hire companies in Scotland are here too This second edition has been thoroughly updated throughout and expanded and now contains full coverage of the new official routes including the NC500 the SWC300 and the NE250 Inside lie adventure beautiful photos handy maps and quirky travel writing from serial camper van traveller Martin Dorey Flick through the pages and travel with him to pastures beaches mountains and highways that make you want to turn the key and go go go Let the Water Do the Work Bill Zeedyk,Van Clothier,2014 Let the Water Do the Work is an important contribution to riparian restoration By thinking like a creek one can harness the regenerative power of floods to reshape stream banks and rebuild floodplains along gullied stream channels Induced Meandering is an artful blend of the natural sciences geomorphology hydrology and ecology which govern channel forming processes Induced Meandering directly challenges the dominant paradigm of river and creek stabilization by promoting the intentional erosion of selected banks while fostering deposition of eroded materials on an evolving floodplain

The river self heals as the growth of native riparian vegetation accelerates the meandering process Not all stream channel types are appropriate for Induced Meandering yet the Induced Meandering philosophy of going with the flow can inform all stream restoration projects Induced meandering strives to understand rivers as timeless entities governed by immutable rules serving their watersheds setting their own timetables and coping with their own realities as they carry mountains grain by grain to the sea Anyone with an interest in natural resource management in these uncertain times should read this book and put these ideas to work
