and insightful analysis Mroz reveals new awareness about the impact of women's friendships and how they shape our culture at large. Animal Breeding, Welfare and Society Jacky Turner, 2010-08-12 The determination of when how how often and with whom an animal breeds has moved away from evolutionary pressures towards our own purposes these include the breeding and use of around 50 billion mammals and birds for food production annually the breeding of pedigree dogs cats racing dogs and horses specialized laboratory animal strains and the use of reproductive science to breed endangered species in zoos and to attempt to limit unwanted populations of pests and non native species. This book discusses the methods the motivations and the consequences of human intervention in animal breeding in terms of what we know about animal behavior and well being. It sets out to challenge both our practice and our assumptions those of society as a whole and the many professionals involved in the worldwide animal reproduction business. It explores where we are now and proposes a future where we have more respect for animals as sentient beings and have loosened the reins of reproductive control.

Grass-Fed Nation Graham Harvey, 2016-05-05 For years we ve been told that traditional foods are unhealthy because of their saturated fat content In place of grass fed meat grass fed dairy products and eggs from hens running on pasture we now mostly eat grain fed meat and processed factory foods and we ve witnessed an epidemic of disease from type 2 diabetes to heart disease and cancer Modern agriculture has locked us into an unhealthy vicious circle with degraded foods pouring from an overstretched impoverished landscape There's a simple remedy the grass fed movement. We can make sure that the meat dairy foods and eggs we buy come from animals grazing on or running in pasture as they always used to This will also put life back into our soils and wildlife back onto our farmland Graham Harvey agricultural advisor to BBC Radio 4 s The Archers lays out all the arguments for grass fed food why it's good for us and why it's good for the planet David Robinson Simon, 2013-09-01 Looks at the economics of animal food production through an examination of meat consumption s effects on personal health the environment and animal welfare and the animal food industry s control over legislation and regulation The secret life of Mary Magdalene Olivier Manitara, 2019-10-23 The story of Mary Magdalene is that of a simple woman understanding a secret concentrating all her strength on the divine fire deciding to consecrate her whole life so that her thoughts would be turned to the Father This woman is intelligent she has understood that man is only a passage on earth and that he will spend his life doing things that have no interest and that will turn to dust She then takes care of her eternal soul Following the Master Jesus and surrounding him with his blessings she will consecrate herself to God with intelligence and mastery know the laws and walk on the path of the spiritual masters the divine masters The Restless Coast Roger Morgan-Grenville, 2025-06-05 The island of Britain has over 10 000 miles of coastline steeped in history and constantly shifting changing adapting and providing The Restless Coast is a moving and beautiful account of a journey around it during which the author travels its length to discover its challenges and opportunities and to talk to the people trying to protect it At once delightful travelogue and passionate defence The Restless

Coast shines a powerful spotlight into the thin line that surrounds us and defines our status as islanders Overarching the journey is the extraordinary natural history of the coastline together with the story of how man has imprinted himself on its very geology and shape for countless centuries Into the account Roger Morgan Grenville threads the modern challenges that the shoreline faces and the people who are trying to protect it At once informative angry and funny The Restless Coast is a very personal love letter to our island edge The Palgrave Handbook of Practical Animal Ethics Andrew Linzey, Clair Linzey, 2018-06-26 This handbook provides an in depth examination of the practical and theoretical issues within the emerging field of animal ethics Leading experts from around the globe offer insights into cutting edge topics as diverse as killing for food religious slaughter animal companions aquariums genetic manipulation hunting for sport and bullfighting Including contributions from Lisa Johnson on the themes of human dominance Thomas White on the ethics of captivity Mark Bernstein on the ethics of killing and Kay Peggs on the causation of suffering this handbook offers an authoritative reference work for contemporary applied animal ethics Progressive in approach the authors explore the challenges that animal ethics poses both conceptually and practically to traditional understandings of human animal relations Key Features Structured in four parts to examine the ethics of control the ethics of captivity the ethics of killing and the ethics of causing suffering Interdisciplinary approach including philosophical historical scientific legal anthropological religious psychological and sociological perspectives Focussed treatment of practical issues such as animals in farming zoos and animal experimentation The Palgrave Handbook of Practical Animal Ethics is an essential resource for those with an interest in the ethics of modern day treatment of animals as well as scholars researchers and advanced students in zoology philosophy anthropology religious studies and sociology The Imaginary of Animals Annabelle Dufourcq, 2021-07-30 This book explores the phenomenon of animal imagination and its profound power over the human imagination. It examines the structural and ethical role that the human imagination must play to provide an interface between humans subjectivity and the real cognitive capacities of animals The book offers a systematic study of the increasing importance of the metaphors the virtual and figures in contemporary animal studies It explores human animal and real imaginary dichotomies revealing them to be the source of oppressive cultural structures Through an analysis of creative playful and theatric enactments and mimicry of animal behaviors and communication the book establishes that human imagination is based on animal imagination This helps redefine our traditional knowledge about animals and presents new practices and ethical concerns in regard to the animals The book strongly contends that allowing imagination to play a role in our relation to animals will lead to the development of a more empathetic approach towards them Drawing on works in phenomenology contemporary animal philosophy as well as ethological evidence and biosemiotics this book is the first to rethink the traditional philosophical concepts of imagination images the imaginary and reality in the light of a zoocentric perspective It will appeal to philosophers scholars and students in the field of animal studies as well as anyone interested in human and non human imaginations **Interpreting Meat**

Teddy Duncan, Jr., 2024-12-27 Meat is the essential object dislodged in human animal relations in its commonplace everyday ubiquity and distanced violence it defies the innocuous or protective paternalistic stance that we ordinarily take towards animals Through looking at meat s status as a fundamental and visceral part of human animal relations particularly its commodification and consumption this book exhibits how animals fit into human discursive practices and how this discursive position determines our perspective of animals and subsequently our treatment of them Modernity is a distinct stage of meat production and accordingly the meat commodity must be examined in all its contemporary specificity as an economic linguistic philosophical psychoanalytic and material object Using theoretical prisms that have been largely overlooked in animal studies such as Marxian analysis and Lacanian i ekian psychoanalysis and rejecting popular approaches such as analogical thinking and effacement of human animal difference this book offers new insights into the meat commodity and new ways to orient ourselves towards animal life and death Across a Waking Land Roger Morgan-Grenville, 2023-04-06 A veteran nature writer walks the length of Britain in pursuit of spring and of hope Fed up with bleak headlines of biodiversity loss acclaimed nature writer Roger Morgan Grenville sets out on a 1 000 mile walk through a British spring to see whether there are reasons to be hopeful about the natural world His aim is to match the pace at which the oak leaves emerge roughly 20 miles north each day Fighting illness blizzards and his own ageing body he visits every main habitat between Lymington and Cape Wrath in an epic eight week adventure encountering over and over again the kindness of strangers and the inspiring efforts of those fighting heroically for nature With surprising conclusions throughout what unfolds is both life affirming and life changing
