The book is original in that it presents for the first time a selection of writers hitherto regarded as impossible of access and reduces their epic scope to manageable proportions while preserving their essential meaning Among thewriters treated are Alfred Mombert Theodor D ubler Rudolf Pannwitz Ludwig Derleth Alfred Schuler Ludwig Klages Christian Morgenstern and the members of the Friedrichshagen Circle Furness draws on the most recent scholarship and provides a fascinating account of a lost generation. The book will be of interest to Nietzsche scholars to students of Lebensphilosophie and to those interested in German literature around the turn of the century It will be of special interest to those drawn to the creation of myths and to radical religious thought Raymond Furness is professor and former chair of German at St Andrews University Scotland He has published widely on late nineteenth and early twentieth century German literature Shamanic Secrets for Material Mastery Robert Shapiro, 2001-03-01 This book explores the heart and soul connection between humans and Mother Earth Through that intimacy miracles of healing and expanded awareness can flourish To heal the planet and be healed as well we can lovingly extend our energy selves out to the mountains and rivers and intimately bond with the Earth Gestures and vision can activate our hearts to return us to a healthy caring relationship with the land we live on The character and essence of some of Earth's most powerful features is explored and understood with exercises given to connect us to those places As we project our love and healing energy there we help the Earth to heal from man's destruction of the planet and its atmosphere Dozens of photographs maps and drawings assist the process in 25 chapters that cover the Earth's more critical locations
