view of a golf professional who has not only spent forty six years playing at all levels of the sport from the P G A Tour to the Philadelphia P G A Section but who has also taught the game for thirty two years to over nineteen thousand individual golfers and at over five hundred clinics and camps Some well known teachers have taught the game of golf but they themselves have never competed on a high level Some players have played the tour but have never really been teachers This book has been written from both perspectives It presents educational information that will help golfers at all levels to maximize their opportunity to become better players Most importantly a teacher has to consider each student as an individual It all begins with and depends on the identity of the student How can they be helped to identify who they are as a golfer For this reason Mind Game will neither describe the so called perfect positions in the golf swing nor compare your swing to that of Ernie Els or Fred Couples Understanding how to improve the mechanics of the swing is only a small part or percentage of how to improve a player s game On the other hand what it does present is a multitude of unique insights and secrets into how to play better golf the single most mentally challenging sport in the world The goal is to get inside the players brain and share many aspects and situations that will allow them to manage themselves and make correct decisions both on and off the golf course How do you handle nerves away from the golf course Have you ever spent time at home or in your hotel room with a two shot lead in either your club championship or the state amateur and wondered how to approach the situation Do you utilize visualization and a pre shot routine before each and every shot Are you aware of ball flight laws What foods and drinks should you eat or stay away from before and after playing What should I consider before during and after taking a lesson Is there a difference between warmup and practice How can a player prepare properly for a tournament What does it mean to be in the zone and can I get there Why should I be concerned with ball flight laws What can I learn from brain research Are there benefits in knowing the rules of the game In terms of club fitting what are the benefits of having the correct clubs in your hands Do they match your individual needs concerning factors such as age physical condition and flexibility What about your driver and irons Are your irons adjusted to the correct lies and lofts Have you been matched with the proper shafts in all of your clubs How different are you from the best players in the world in handling matters of insecurity trust happiness and confidence The book is designed to be treated like a journal that can be read and reread many times Important thoughts can either be highlighted or notes can be written down in the margins In this light think of it like a cookbook where the reader can go back numerous times to certain topic recipes and ingredients and remind themselves about newly learned secrets and insights
