The Devil In The Detail Paul Holden, Hennie van Vuuren, 2011-11-02 The South African Arms Deal was never a single event. Rather, it was and still is a series of scandals and outrages all contributing towards a dubious momentum that takes South Africa further away from transparent democratic practice. *The Devil in the Detail*, written by two of South Africa's leading researchers on the subject, takes the reader on a journey of insight. Witness at close hand the breaking open of State secrets with tales of outrageous personal enrichment. Explore how the Arms Deal emerged out of the criminal networks of both the old SADF and the ANC's security apparatus, raising questions as to whether South Africa's remarkable transition was not oiled at key points by criminal intent and collusion. Follow the trail of the various offset deals done after the Arms Deal, cumulatively worth just as much as and discover that corruption continues to impact on defence spending in South Africa. Examine the economics and witness how the Arms Deal was not only economically irrational but virtually suicidal, almost single-handedly derailing the post-apartheid economic project. Finally, read about the rise of the shadow state, the politicisation of prosecutions and the rise of the spooks. The remarkable conclusion of this landmark study is that years after the deal took place, the forces that drove its decisions have only grown in strength, further blighting South Africa's prospects for a future in which all may have a share.
