Born to be Happy Enjoy Life to the full by Prasanna Rao Bandela Prasanna Rao Bandela, We human beings have only one life to live then why not celebrate and enjoy it s all of us are born with valuable gifts to make our lives happy but we hardly make use of their full potential If only we realise this all of us can enjoy life Our domain is the present Let us not allow ourselves to drift into the past nor should we avoid the realities of the moment by thinking about the future We know we cannot change the past but we can ruin the present if we are not careful So let us not squander the precious little lifetime given to us by feeling sorry for the past that never returns or worrying about the future that is uncertain let us try to optimise joy in our lives by focusing on the here and now Joyful moments can make a lifetime of happiness their memories can create a heaven on earth Remember we have only one change to live the happy life of a unique human being and nobody gets a second chance The why not choose to live a joyful life as long as we live

Peak Poker Performance Dr. Patricia Cardner, Jonathan Little, Mike Sexton once asked Chip Reese The guys you play against are tough What separates you from them Chip replied You re right Mike They are tough In fact when they play their A game I m really no better than they are The difference is that they also have a C and D game whereas I don t They become weak players when they steam and just about all of them do My edge is that I don t steam Life s a Gamble D B 2016 If you ve ever wondered if the psychological aspect of poker is important that should provide the answer One of the greatest players of all times is attributing his success to the fact that he has better psychological control over his play than his opponents The good news is that actually there is nothing mysterious about Chip s ability To do the same you simply have to adhere to specific strategies and guidelines This book will tell you what they are and explain why they work These strategies implemented into your everyday routine will substantially increase your performance and improve your mental state Peak Poker Performance will show you how to Create an unbeatable mindset Pursue excellence during downswings Eliminate procrastination Improve your motivation Master your emotions Plus much much more Dr Patricia Cardner has worked with hundreds of poker players at mid stakes and high stakes levels both through private coaching and online training With the help of Jonathan Little Patricia moves on from her first book Positive Poker and uses the very latest research to take you to the next level so you too can achieve better results on the felt and in life

The NeuroGeneration Tan Le, 2020-01-21 Brain science is at the dawn of a new era and the technologies emerging as a result could forever alter what it means to be human Welcome to what tech pioneer and inventor Tan Le calls the NeuroGeneration It will blow your mind The human brain is perhaps the most powerful and mysterious arrangement of matter in the known universe New discoveries that unravel this mystery and let us tap into this power offer almost limitless potential the ability to reshape

ourselves and our thought processes to improve our health and extend our lives and to enhance and augment the ways we interact with the world around us. It may sound like the stuff of science fiction but it is quickly becoming reality. In *The NeuroGeneration*, award-winning inventor Tan Le explores exciting advancements in brain science and neurotechnology that are revolutionizing the way we think, work and heal. Join Le as she crisscrosses the globe introducing the brilliant neurotech innovators and neuroscientists at the frontiers of brain enhancement. Along the way she shares incredible stories from individuals whose lives are already being transformed by their inventions: an endurance racer paralyzed in a fall who now walks thanks to neural stimulation and an exoskeleton; a man who drives a race car with his mind; even a color blind cyborg whose brain implant allows him to hear colors. *The NeuroGeneration* reveals the dizzying array of emerging technologies including cranial stimulation that makes you learn faster; an artificial hippocampus that restores lost memories; and neural implants that aim to help us keep up with or even outpace artificial intelligence that promise to alter the brain in unprecedented ways, unlocking human potential we never dreamed possible. Le also explores how these futuristic innovations will impact our world, disrupt the way we do business, upend healthcare as we know it and remake our lives in wondrous and unexpected ways. As fascinating as it is timely, *The NeuroGeneration* offers a thrilling glimpse of the future of our species and how changing our brains can change human life as we know it.
