Longman Foundation Science Students 2 For Gcse Foundation Science:

Inclusive and Accessible Secondary Science Jane Essex, 2023-07-20 Drawing on extensive professional experience and detailed empirical evidence this resource sets out an insightful highly practical approach to teaching science to secondary aged students with learning difficulties and other special educational or additional support needs SEND ASN The book explores the barriers that the secondary school science curriculum currently presents to those who do not learn in the expected way before providing a wealth of practical strategies to help teachers in both specialist and mainstream settings to make science more accessible Multiple science topics are covered in depth including living and non living matter the periodic table electrical energy the solar system the environment and more Each topic is supported by extensive teachers notes outlining activities that will allow educational practitioners to enact the principles of accessibility in the classroom With rich field notes and practical takeaways included to accompany key insights this accessible book will provide science teachers at the secondary school level as well as support staff and anyone aspiring to teach science to SEN ASN learners with the guidance and resources they need to make science education meaningfully inclusive **GCSE Science** Graham Hill, 1997 Intended for achieving examination success this series replaces the former GCSE Study Guides This book which are part of the new Revise GCSE series offers complete study and reference support for the Science GCSE course as well as being a revision guide for the Science GCSE examinations and Scottish Standard Grade It provides a breakdown of the syllabuses and exam structure for every exam board advice on studying revising coursework and exams topic by topic coverage clearly presented with many examples and diagrams quick tests for every topic to check progress and a bank of recent GCSE exam questions with answers to fine tune exam techniques The School Science Review, 2003 **Quality Research in Literacy and Science Education** Mack C. Shelley, Larry D. Yore, Brian B. Hand, 2008-12-30 Statistical models attempt to describe and quantify relationships between variables In the models presented in this chapter there is a response variable sometimes called dependent variable and at least one predictor variable sometimes called independent or explanatory variable When investigating a possible cause and effect type of relationship the response variable is the putative effect and the predictors are the hypothesized causes Typically there is a main predictor variable of interest other predictors in the model are called covariates Unknown covariates or other independent variables not controlled in an experiment or analysis can affect the dependent or outcome variable and mislead the conclusions made from the inquiry Bock Velleman given the model p is the probability that a relationship is seen by mere chance The smaller the p value the more confident we can be that the pattern seen in the data is not random In the type of models examined here the R measures the proportion of the variation in the response variable that is explained by the predictors specified in the model if R is close to 1 then almost all the variation in the response variable has been explained This measure is also known as the multiple correlation coefficient Statistical studies can be grouped into two types experimental and observational Longman Foundation Science for GCSE
