DONALD PALMER

Looking At Philosophy The Unbearable Heaviness Of Philosophy Made Lighter

Eileen E. Morrison

Looking At Philosophy The Unbearable Heaviness Of Philosophy Made Lighter:

Looking at Philosophy Donald Palmer, 2024 Wittgenstein once said that a whole philosophy book could be written consisting of nothing but jokes This is not that book nor does this book treat the history of philosophy as a joke This book takes philosophy seriously but not gravely As the subtitle indicates the goal of the book is to lighten the load a bit How to do this without simply throwing the cargo overboard First by presenting an overview of Western philosophy from the sixth century B C E into the early twenty first century in a way that introduces the central philosophical ideas of the West and their evolution in a concise readable format without trivializing them but at the same time without pretending to have exhausted them or to have plumbed their depths Second following a time honored medieval tradition by illuminating the margins of the text

Looking At Philosophy: The Unbearable Heaviness of Philosophy Made Lighter Donald Palmer, 2009-06-12 Distilled from Donald Palmer's more than 30 years of teaching experiences this approachable historically organized text exemplifies Dr Palmer's very successful light hearted approach to teaching introduction to philosophy Through the use of humor drawings charts and diagrams serious philosophical topics come alive for the readers without compromising the seriousness of the subject matter The text can be used as a core text or as a supplement to any reader Looking At Philosophy: The Unbearable Heaviness Of Philosophy Made Lighter ISE Donald Palmer, 2023-05-12 *Looking At Philosophy: The Unbearable Heaviness of Philosophy Made Lighter* Donald Palmer, 2005-06-07 Distilled from Donald Palmer's more than 30 years of teaching experiences this approachable text historically organized text exemplifies Dr Palmer's very successful light hearted approach to teaching introduction to philosophy Through the use of humor drawings charts and diagrams serious philosophical topics come alive for the readers without compromising the seriousness of the subject matter The text can be used as a core text or as a supplement to any reader **Looking at Philosophy** PALMER, 2019-03-29

Reconceptualizing Plato's Socrates at the Limit of Education James M. Magrini, 2016-11-25 Bridging the gap between interpretations of Third Way Platonic scholarship and phenomenological ontological scholarship this book argues for a unique ontological hermeneutic interpretation of Plato and Plato's Socrates Reconceptualizing Plato's Socrates at the Limit of Education offers a re-reading of Plato and Plato's Socrates in terms of interpreting the practice of education as care for the soul through the conceptual lenses of phenomenology philosophical hermeneutics and ontological inquiry Magrini contrasts his re-reading with the views of Plato and Plato's Socrates that dominate contemporary education which for the most part emerge through the rigid and reductive categorization of Plato as both a realist and idealist in philosophical foundations texts teacher education programs This view also presents what he terms the questionable Socrates as teacher model which grounds such contemporary educational movements as the Paideia Project which claims to incorporate through a scripted curriculum with Socratic lesson plans the so called Socratic Method into the Common Core State Standards Curriculum as a technical skill that can be taught and learned as part of the students critical thinking skills After a careful reading

incorporating what might be termed a Third Way of reading Plato and Plato's Socrates following scholars from the Continental tradition Magrini concludes that a so called Socratic education would be nearly impossible to achieve and enact in the current educational milieu of standardization or neo Taylorism Social Efficiency However despite this he argues in the affirmative that there is much educators can and must learn from this non doctrinal re reading and re characterization of Plato and Plato's Socrates

Studyguide for Looking at Philosophy: the Unbearable Heaviness of Philosophy Made Lighter by Donald Palmer, ISBN 9780077422233 Cram101 Textbook Reviews,2014-01-01 Never HIGHLIGHT a Book Again Virtually all of the testable terms concepts persons places and events from the textbook are included Cram101 Just the FACTS101 studyguides give all of the outlines highlights notes and quizzes for your textbook with optional online comprehensive practice tests Only Cram101 is Textbook Specific Accompanys 9780077422233 9780073407487 **A Sneetch is a Sneetch and Other Philosophical Discoveries** Thomas E. Wartenberg,2013-02-28 Taking Picture Books Seriously What can we learn about philosophy through children's books This warm and charming volume casts a spell on adult readers as it unveils the surprisingly profound philosophical wisdom contained in children's picture books from Dr Seuss's Sneetches to William Steig's Shrek With a light touch and good humor Wartenberg discusses the philosophical ideas in these classic stories and provides parents with a practical starting point for discussing philosophical issues with their children Accessible and multi layered it answers questions like Is it okay for adults to deceive kids What's the difference between saying the Mona Lisa is a great painting and vanilla is your favorite flavor Each chapter includes illustrations commissioned especially for this book

[The Complete Idiot's Guide to Understanding Ethics](#) David Ingram,Jennifer A. Parks,2002 A comprehensive reference to the business of right and wrong this book should help the reader define a personal philosophy of life covering virtually every aspect of applied ethics and behaviour including gender racial workplace and home ethics

The Writer's Book of Memory Janine Rider,2013-11-05 Memory has long been ignored by rhetoricians because the written word has made memorization virtually obsolete Recently however as part of a revival of interest in classical rhetoric scholars have begun to realize that memory offers vast possibilities for today's writers Synthesizing research from rhetoric psychology philosophy and literary and composition studies this volume brings together many historical and contemporary theories of memory Yet its focus is clear memory is a generator of knowledge and a creative force which deserves attention at the beginning of and throughout the writing process This volume emphasizes the importance of recognizing memory's powers in an age in which mass media influence us all and electronic communication changes the way we think and write It also addresses the importance of the individual memory and voice in an age which promotes conformity Written in a strong lively personal manner the book covers a great deal of scholarly material It is never overbearing and the extensive bibliography offers rich vistas for further study

[Lessons from Shakespeare's Classroom](#) Robin Lithgow,2022-12-30 This volume explores the relationship between the emphasis on performance in Elizabethan humanist education and the

flourishing of literary brilliance around the turn of the sixteenth century This study asks us what lessons we can learn today from Shakespeare's Latin grammar school What were the cognitive benefits of an education so deeply rooted in what Demosthenes and Quintilian called *actio* acting Because of the vast difference between educational practice then and now we have not often followed one essential thread the focus on performance This study examines the connections relevant to the education offered in schools today This book will be of great interest to teachers scholars and administrators in performing arts and education

Thoughtful Images Thomas E. Wartenberg, 2023-01-17 Thoughtful Images demonstrates that there is a rich tradition of illustrations of philosophy that originated in Ancient Greece spread throughout Europe thrived in twentieth century America and continues to this day Illustration is not generally regarded as a genuine art form on a par with painting and sculpture and many believe that the abstract claims made by philosophers are not amenable to being rendered in visual images Wartenberg shows that the denigration of illustration as an art form is misguided in a number of ways

Ethics in Health Administration: A Practical Approach for Decision Makers Eileen E. Morrison, 2019-01-29 Given the many advances in technology as well as the ongoing discussion of health care reform post Affordable Care Act today's healthcare administrators require a strong foundation in practice based ethics to confront the challenges of the current healthcare landscape Ethics in Health Administration Fourth Edition focuses on the application of ethics to the critical issues faced by today's healthcare administrators After establishing a foundation in the theory and principles of ethics the text encourages students to apply ethics to such areas change regulation technology and fiscal responsibility Thoroughly updated the Fourth Edition includes 12 new contemporary case studies that encourage students to apply ethics A new chapter on the Ethics in the Epoch of Change stresses major changes in healthcare including the digital revolution population health ethics temptations and ethic resilience Other chapters have been revised to include new cases and more

The Complete Home Learning Sourcebook Rebecca Rupp, 1998 Lists all the resources needed to create a balanced curriculum for homeschooling from preschool to high school level

Kierkegaard Bibliography Peter Šajda, Jon Bartley Stewart, 2016

Andrei Codrescu and the Myth of America Kirby Olson, 2014-09-17 This is one of those times a time choked in the weeds of academic and civilian formalism To put it mildly most of what we see in print in North America is unbearably trivial and singularly devoid of courage Andrei Codrescu The Disappearance of the Outside Known to the general public as a radio commentator on National Public Radio Romanian born essayist and poet Andrei Codrescu has developed a variety of voices throughout his career Transylvanian humorist on NPR surrealist poet in his many volumes of poetry academic essayist in his philosophical writings and historical novelist Taking seemingly everyday events in seemingly mundane places Codrescu is able to link the random details into a larger whole leading his readers and listeners to conclusions very different from those they first imagined This work explores Codrescu's writings and how they are a part of the surrealist tradition It examines the ways in which his poetry essays and novels are influenced by his upbringing in Communist Romania and the liberal attitudes

he encountered upon moving to the United States and draws comparisons between Codrescu and other surrealists An interview with the author is also included **America's Forgotten Poet-Philosopher** Michael A. Flannery,2023-12-01 This book examines the ideas and influences of a nearly forgotten Swedish American philosopher John Elov Boodin 1869 1950 A friend and student of William James and prot g of Josiah Royce at Harvard Boodin combined Jamesian pragmatism and Roycean idealism in developing original scholarship nearly sixty articles and eight books from 1900 to 1947 in addition to a volume of posthumous papers published in 1957 Although he is seldom remembered today the enduring importance of pragmatism and the rising influence of process theology today suggests that his close reading of early to mid twentieth century science and vast grasp of philosophical issues warrants a renewed interest in his work that can be a valuable antidote to the sterile and constricting effects of reductionism and dogmatic materialism prevalent today in both those fields

Information Resources in the Humanities and the Arts Anna H. Perrault Ph.D.,Elizabeth S. Aversa,Sonia Ramírez Wohlmuth,Cynthia J. Miller,Cynthia F. Miller,2012-12-10 This familiar guide to information resources in the humanities and the arts organized by subjects and emphasizing electronic resources enables librarians teachers and students to quickly find the best resources for their diverse needs Authoritative trusted and timely Information Resources in the Humanities and the Arts Sixth Edition introduces new librarians to the breadth of humanities collections experienced librarians to the nature of humanities scholarship and the scholars themselves to a wealth of information they might otherwise have missed This new version of a classic resource the first update in over a decade has been refreshed to account for the myriad of digital resources that have rewritten the rules of the reference and research world and been expanded to include significantly increased coverage of world literature and languages This book is invaluable for a wide variety of users librarians in academic public school and special library settings researchers in religion philosophy literature and the performing and visual arts graduate students in library and information science and teachers and students in humanities the arts and interdisciplinary degree programs **Ethics for Nurses: Theory and Practice** Pam Cranmer,Jean

Nhemachena,2013-04-16 Ethics underpin all aspects of nursing activity but the concepts can often seem remote or inaccessible This refreshing new book will help nurses explore and explain key aspects of ethical nursing practice in a practical and engaging way Using plentiful examples and case studies this book focuses on showing readers how to apply ethical principles to everyday nursing practice and deliver excellent care as a result The book explores and helps answer questions such as What are rights What is dignity How are nurses accountable How does the law relate to ethics What is a dignified death The authors have created a set of fictional characters who experience various healthcare dilemmas and scenarios and appear throughout the book These characters help illustrate different aspects of ethics in healthcare and bring ethical concepts and decision making to life This book is essential reading for nurses preparing to qualify or those already qualified and doing further study This is an ideal introductory text for students of nursing and other allied health professions

because it is written in an accessible style The authors discuss key ethical theories and principles but make them meaningful by applying them to contemporary scenarios in healthcare They encourage the reader to examine their own beliefs and values and consider how these can impact on their own professional judgment and decision making Melanie Fisher LLM Medical Law Senior Lecturer and Programme Leader Faculty of Health and Life Sciences Northumbria University UK This is a very readable textbook that deals with the fundamentals of healthcare ethics for nurses Starting with an introduction to the issues underpinning ethical knowledge such as values and beliefs it then leads into ethical concepts such as rights dignity and accountability and concludes with specific areas of practice such as dignified death and research As such it would be useful reading to support an undergraduate programme introducing students to ethical theory The use of think boxes and short exercises is particularly useful in ensuring that theory can be contextualised and made sense of by the student in real life scenarios Academic staff may find these useful as activities to use in workshops with students Deborah C Casey Senior Lecturer in Nursing Leeds Metropolitan University UK I believe strongly that there needs to be much greater understanding of moral nursing practice particularly at a time when there has been much negative press regarding poor and undignified patient care along with a failure by nurses to advocate for the frail and vulnerable Education requires appropriate materials to enable those learning about nursing and health care This text succeeds in providing clear explanations of ethics for nurses in relatively plain English that will enable the essentials of moral caring behaviour The reader is encouraged to engage with ethical concepts and principles through think boxes points for consideration and the residents of Oak Avenue that facilitate linking theory to practice Overall the reader is guided from one subject to the next through each chapter in a logical manner that gives a useful perspective to understanding the essentials for moral nursing practice Linnette King Principal Lecturer Faculty of Health and Social Science University of Brighton UK

Paulo Freire: Teaching for Freedom and Transformation
John Dale, Emery J. Hyslop-Margison, 2010-09-22 The primary mission of this text is clarifying many of the misconceptions about Paulo Freire's theories concepts and his implications for education It revisits his ideas and explains more fully the philosophical influences that shaped concepts such as problem posing conscientization and praxis The fundamental thesis then is that the present absence of in depth philosophical analysis leaves an unacceptable void in the literature addressing Freire's work while also promoting frequent misconceptions and superficial understandings about his relationship to contemporary education Indeed the philosophical assumptions contributing to Freire's critical pedagogy require identification unravelling and ultimately evaluation on the basis of their epistemic and moral tenability Most existing applications of Freire's pedagogy are unfortunately superficial because they simply sloganize terms such as banking education conscientization praxis and humanization A slogan in education popularizes a concept or idea in a positive way but offers very little in terms of critical reflection or analysis In order to understand these terms and their origin and apply them as Freire intended a far richer and more in depth examination of Freire is desperately needed This text will provide precisely

that type of examination
