Andrew Marvell, Sexual Orientation, and Seventeenth-Century Poetry George Klawitter, 2017-09-01 Andrew Marvell Sexual Orientation and Seventeenth Century Poetry examines the important Interregnum Restoration poet Andrew Marvell against a background of his contemporary lyric poets His major works from the early elegies to the later political pieces are discussed with a view to unmasking the poet s own sexuality and his reflection of prevailing sexual attitudes Popular poems like the Mower poems and The Nymph Complaining for the Death of her Fawn are explicated in depth as well as lesser known poems like The Unfortunate Lover and The Gallery Marvell often described as a chameleon has teased readers for hundreds of years This new book will help both new readers as well as established Marvellians to understand cryptic sexual meanings and references in the verses Poems are explicated against current heteronormative theory as well as recent work on homoeroticism autoeroticism and celibacy George Klawitter has devoted much of his recent scholarly life to a study of Marvell s lyric pieces and brings to this new book fresh insights into the suggestive intent of the poet s works

The Cambridge Companion to English Poetry, Donne to Marvell Thomas N. Corns, 1993-11-18 English poetry in the first half of the seventeenth century is an outstandingly rich and varied body of verse which can be understood and appreciated more fully when set in its cultural and ideological context This student Companion consisting of fourteen new introductory essays by scholars of international standing informs and illuminates the poetry by providing close reading of texts and an exploration of their background There are individual studies of Donne Jonson Herrick Herbert Carew Suckling Lovelace Milton Crashaw Vaughan and Marvell More general essays describe the political and religious context of the poetry explore its gender politics explain the material circumstances of its production and circulation trace its larger role in the development of genre and tradition and relate it to contemporary rhetorical expectation Overall the Companion provides an indispensable guide to the texts and contexts of early seventeenth century

English poetry **Mystical Love in the German Baroque** Isabella van Elferen, 2009 *Mystical Love in the German Baroque* Theology Poetry Music identifies the cultural and devotional conventions underlying expressions of mystical love in poetry and music of the German baroque It sheds new light on the seemingly erotic overtones in settings of the Song of Songs and dialogues between Christ and the faithful soul in late 17th and early 18th century cantatas by Heinrich Schütz Dieterich Buxtehude and Johann Sebastian Bach While these compositions have been interpreted solely as a secularizing tendency within devotional music of the baroque period Isabella van Elferen demonstrates that they need to be viewed instead as intensifications of the sacred Based on a wide selection of previously unedited or translated 17th and 18th century sources van Elferen describes the history and development of baroque poetic and musical love discourses from Schütz's early works through Buxtehude's cantatas and Bach's cantatas and Passions This long and multilayered discursive history of these compositions considers the love poetry of Petrarch European reception of petrarchan imagery and traditions its effect on the madrigal in Germany and the role of Catholic medieval mystics in baroque Lutheranism Van Elferen shows that Bach's compositional technique based on the emotional characteristics of text and music rather than on the depiction of single words allows the musical expression of mystical love to correspond closely to contemporary literary and theological conceptions of this affect Primitive Love and Love-stories Henry T. Finck, 1899 **Poetry of Contemplation** Arthur L. Clements, 1990-01-01 This is the first systematic and thorough study of mysticism or contemplation in these three seventeenth century poets and in three modern writers It not only clarifies the very confused issue of mysticism in seventeenth century poetry but also connects seventeenth century poets with modern literature and science through the contemplative tradition from the Bible and Plato and Church fathers and important mystics of the Middle Ages through Renaissance and modern contemplatives The transformative and redemptive power of contemplative poetry or holy writing regardless of genre or discipline is prominent throughout the book and the relevance indeed the vital necessity of such poetry and of the living contemplative tradition to our apocalyptic modern world is discussed in the last chapter In this chapter attention is given to modern science especially to the new physics and to philosophical and mystical writings of eminent scientists **MUSES IV** Z J GALOS, 2024-01-23 In *MUSES IV* Magic Unisons as the title indicates the word magic explains best those moments when during the process of composing word sequences that gradually become verses and stanzas and could lead to a whole cycle of compositions like in the Chants of a Traveling Bard For love in Magic Unisons transferred into many shades of enjoyment and happy feelings one's Muses certainly stimulate the poet with their sensual impulses This cannot be stored like goods but the traces of those happy moments are still embedded in the poet's soul and the souls of all people engaged in creative work Fascinating are the times one spends looking through one's creative output of one year that usually happens at the end of it when the mood is influenced by dark ominous cloud formations snowfall that reflects the dusky light fine stringing rain unexpected storms and foggy mystical mornings Indeed magical unisons are

human potential in Shakespearean and other dramatic characters the nihilism of Marlowe or the secular rationalism of Bacon and Hobbes Milton is central to this complex web of belief and rejection piety and atheism acceptance of predestination and determination to accept fate that characterises the period Finally Sinfield shows how this protestantism disintegrated under the strain of internal contradictions and external pressures and in the process helped to stimulate secularism In this original and clearly written book scholarship is deployed unobtrusively to place many major works in an unaccustomed and stimulating perspective
