Complex Emotions and Grammatical Mismatches

Katarzyna Dziwirek, Barbara Lewandowska-Tomaszczyk, 2010-07-30 Nominated for the Best contribution to Slavic Linguistics AATSEEL book award 2011 The concept of complex emotions is obviously polysemous On the one hand we can interpret it as a non basic non prototypical or culture specific notion on the other and this is the interpretation we propose in this work a complex emotion concept can be looked upon as a concept whose complexity emerges in interaction due to the complex nature of its object Our interpretation is thus construction based one in which meaning is not to be found exclusively in the lexical semantics of the term but also in the clearly meaning laden grammatical construction e.g. a complement clause expressing the object or cause of the emotion The construal of a scene mapped on the form of a complex sentence involves the emotion that is unambiguously complex and not necessarily universal or prototypical We argue throughout this book that cross linguistic grammatical mismatches are a visible sign of conceptual and categorizational distinctions between the conceptualization of emotion in different languages and cultures They also signal differences in what individual speakers consider salient in a portrayed scene We offer a contrastive corpus based study of Polish and English emotion concepts and the linguistic patterns they enter Our theoretical approach combines lexical semantics and cognitive linguistics and proposes a cognitive corpus linguistics methodology It is a cognitive linguistic endeavor in which we analyze grammatical category mismatches and provide detailed semantic analyses of different complement choices of emotion predicates We also discuss insights into Polish and English cultural values gleaned from the different underlying categorizations of emotions Combining theoretical analyses with pedagogical theory and classroom applications this work breaks new ground and will reach audiences of linguists teachers and students of Polish teachers and students of English translators and other language researchers and practitioners **Wild Colonial Girl** Lisa Colletta, Maureen O'Connor, 2006-08-15 Since the 1960 publication of her first novel The Country Girls award winning Irish writer Edna O'Brien has been both celebrated and maligned Praised for her lyrical prose and vivid female characters and attacked for her frank treatment of sexuality and alleged sensationalism O'Brien and her work seem always to spawn controversy including the past banning in Ireland of

several of her works O'Brien's attention to women's concerns such as sex romance marriage and childbirth has often relegated her to critical neglect at best and at worst outright contempt This essay collection promises to be a long overdue critical reevaluation and exciting rediscovery of her oeuvre Wild Colonial Girl situates O'Brien in Irish contexts that allow for an appraisal of her significant contribution to a specifically Irish women's literary tradition while attesting to the potency of writing against patriarchal conventions Each chapter's clear and detailed readings of O'Brien's fiction build a convincing case for her literary political and cultural importance providing an invaluable critical guide for an enriched appreciation of O'Brien and her work
