In 2004, Jacques Derrida gave one of his final interviews prior to his death. Regarding the future of his work, Derrida advanced two contradictory hypotheses: "I will not be read" and "despite a handful of good readers, I am yet to be read." This book is an homage to the spirit of Derrida and seeks to grasp the significance of his death.

The Power of Love - The Three Ross J. Kinnaird,2024-08-23 If I had possessed my brother s magic I would have known how a soul could enchant a God magnetize his will Instead I faced the discovery alone against the odds risking the fate of the entire universe One soul Daniel s soul drove me insane His heart his dreams his connections with the ones he loved whispered of an unbreakable bond There at the turning of the tide at the tipping point between existence and demise his soul saved me saved us all Once again Daniel Anita and Noah stand on the precipice of destiny their hopes shattered by an unforeseen tragedy that threatens to engulf them in despair As the darkness looms ever closer their resolve burns brighter than ever before With each step forward they confront trials that test their strength courage and bonds of friendship But as they march towards the ultimate showdown they must grapple with their own inner demons and confront the harsh realities of sacrifice and loss For in this final battle between light and darkness the fate of every world hangs in the balance and the stakes could not be higher

Love's Knowledge Martha C. Nussbaum, 1990 This volume brings together Nussbaum's published papers on the relationship between literature and philosophy especially moral philosophy The papers many of them previously inaccessible to non specialist readers deal with such fundamental issues as the relationship between style and content in the exploration of ethical issues the nature of ethical attention and ethical knowledge and their relationship to written forms and styles and the role of the emotions in deliberation and self knowledge Nussbaum investigates and defends a conception of ethical understanding which involves emotional as well as intellectual activity and which gives a certain type of priority to the perception of particular people and situations rather than to abstract rules She argues that this ethical conception cannot be completely and appropriately stated without turning to forms of writing usually considered literary rather than philosophical It is consequently necessary to broaden our conception of moral philosophy in order to include these forms Featuring two new essays and revised versions of several previously published essays this collection attempts to articulate the relationship within such a broader ethical inquiry between literary and more abstractly theoretical elements

Secrecy and Disclosure in Victorian Fiction Leila Silvana May, 2016-07-15 Why were the Victorians more

fascinated with secrecy than people of other periods What is the function of secrets in Victorian fiction and in the society depicted how does it differ from that of other periods and how did readers of Victorian fiction respond to the secrecy they encountered These are some of the questions Leila May poses in her study of the dynamics of secrecy and disclosure in fiction from Queen Victoria's coronation to the century's end May argues that the works of writers such as Charlotte Brontë William Makepeace Thackeray Mary Elizabeth Braddon Edward Bulwer Lytton and Arthur Conan Doyle reflect a distinctly Victorian obsession with the veiling and unveiling of information She argues that there are two opposing vectors in Victorian culture concerning secrecy and subjectivity one presupposing a form of radical Cartesian selfhood always remaining a secret to other selves and another showing that nothing can be hidden from the trained eye May calls the relation between these clashing tendencies the dialectics of secrecy and disclosure May's theories of secrecy and disclosure are informed by the work of twentieth century social scientists She emphasizes Georg Simmel's thesis that sociality and subjectivity are impossible without secrecy and Erving Goffman's claim that sociality can be understood in terms of performativity the presentation of the self in everyday life and his revelation that performance always involves disguise hence secrecy May's study offers convincing evidence that secrecy and duplicity in contrast to the Victorian period's emphasis on honesty and earnestness emerged in response to the social pressures of class gender monarchy and empire and were key factors in producing both the subjectivity and the sociality that we now recognize as Victorian
