Love Other Near Death Experiences:

Love and Other Near-Death Experiences Mil Millington, 2006-02-14 Hello My name is Robert and I haven't been dead for sixty three days now If he hadn't bought those crummy towels Rob would be six feet under But his poor shopping sense accidentally set off a convoluted chain of events that meant he lived when all those others died in the pub explosion Okay maybe it wasn't the ugly towels that saved his life Perhaps it was some other random action some other small movement that was the utterly trivial yet vitally important factor And that's the real problem Now with his wedding fast approaching Rob suddenly finds himself paralyzed with indecision about Every Little Thing He just can't be sure which seemingly innocuous choice will mean the difference between life and death Should he wash the fork or the knife first Should he step out of the shower with his left leg or his right leg Red sweater or blue One thing is certain His fiancée Jo is at her wits end To save his relationship and his sanity Rob embarks on a quest to find out why he's still breathing When he meets up with others who have had similar lifesaving near misses he figures the answer must be close But fate may just catch them yet for Rob's search to understand why he's still alive might well turn out to be the very thing that kills them all Filled with the barbed and sparkling dialogue that made *Things My Girlfriend and I Have Argued About* a cult hit Mil Millington's *Love and Other Near Death Experiences* is a hilarious existential romantic comedy about second guesses and second chances

INTRO The first couple chapters of this novel might as well have been called *Libby Ross and the Terrible Horrible No Good Very Bad Day* Within a matter of hours Libby learns that she has aggressive cancer and that her beloved husband Tom is gay Having lost her own mother to cancer at the age of ten Libby is well acquainted with the realities of such a diagnosis Facing three to six months of loneliness and pain followed by death she goes a little off the rails Unable to bear the thought of breaking the news to her twin brother Paul her father or her now estranged husband and unwilling to subject herself to the horrors of chemotherapy Libby packs her bags and jet sets off to the remote island town of Vieques in Puerto Rico She plans to spend her time there sealed away from the world wrapping her head around her impending doom and enjoying life's little pleasures while she still has the time Except that it's true what they say about best laid plans and life has plenty more surprises in store for Libby A new adventure begins when she meets Shiloh an enigmatic pilot who pays no attention to the walls Libby tries to put up around herself As their relationship develops Libby is forced to take a step back and reconsider the snap decisions she has made about her sickness and the effects those decisions will have on the people she loves and who love her *Life and Other Near Death Experiences* is a quick read that nonetheless manages to pack an emotional punch As a protagonist Libby is occasionally insufferable and sometimes even downright cruel to those around her but that's what makes the book so refreshingly honest As stated on the very first

Nothing More Important Than Others Kevin R Williams,2019-06-07 Nothing is more important than other people Near death experiences affirms this fact Why Because God is manifest within other people and how we treat other people is how we treat God Loving other people unconditionally is the goal for every human being because God is love and love is God How we treat other people will determine exactly which afterlife realm we will inhabit after death Those people who love others the most will inhabit the highest heaven In other words the afterlife is about deeds not creeds and loving others unconditionally is where God is manifest the most Giving and receiving love is what produces heaven it s the only thing we can take with us after death Loving others is heaven And love is joy The more love we have for other people the more joy we have in our lives And there are a multitude of heavens of varying degree of love and joy so that no one goes where they are unwelcome or do not fit in Birds of a feather flock together This book reveals the importance of loving others Three exceptional near death experiences are provided to make this point The author s research conclusions includes topics such as the Earth as the School of Hard Knocks the problem of war and evil the death process the soul as an orb the homecoming experienced by NDErs the intense emotions experienced in NDEs forgotten knowledge people receive during their NDE and a description of some of the afterlife realms This book also includes articles from the author s website showing how love is supreme when it comes to NDEs

Near-Death Experiences John Martin Fischer,Benjamin Mitchell-Yellin,2016-05-02 Near death experiences offer a glimpse not only into the nature of death but also into the meaning of life They are not only useful tools to aid in the human quest to understand death but are also deeply meaningful transformative experiences for the people who have them In a unique contribution to the growing and popular literature on the subject philosophers John Martin Fischer and Benjamin Mitchell Yellin examine prominent near death experiences such as those of Pam Reynolds Eben Alexander and Colton Burpo They combine their investigations with critiques of the narratives analysis by those who take them to show that our minds are immaterial and heaven is for real In contrast the authors provide a blueprint for a science based explanation Focusing on the question of whether near death experiences provide evidence that consciousness is separable from our brains and bodies Fischer and Mitchell Yellin give a naturalistic account of the profound meaning and transformative effects that these experiences engender in many This book takes the reality of near death experiences seriously But it also shows that understanding them through the tools of science is completely compatible with acknowledging their profound meaning

Science and the Near-Death Experience Chris Carter,2010-08-23
The scientific evidence for life after death Explains why near death experiences NDEs offer evidence of an afterlife and discredits the psychological and physiological explanations for them Challenges materialist arguments against consciousness surviving death Examines ancient and modern accounts of NDEs from around the world including China India and many from tribal societies such as the Native American and the Maori Predating all organized religion the belief in an afterlife is fundamental to the human experience and dates back at least to the Neanderthals By the mid 19th century however spurred by the progress of science many people began to question the existence of an afterlife and the doctrine of materialism which believes that consciousness is a creation of the brain began to spread Now using scientific evidence Chris Carter challenges materialist arguments against consciousness surviving death and shows how near death experiences NDEs may truly provide a glimpse of an awaiting afterlife Using evidence from scientific studies quantum mechanics and consciousness research Carter reveals how consciousness does not depend on the brain and may in fact survive the death of our bodies Examining ancient and modern accounts of NDEs from around the world including China India and tribal societies such as the Native American and the Maori he explains how NDEs provide evidence of consciousness surviving the death of our bodies He looks at the many psychological and physiological explanations for NDEs raised by skeptics such as stress birth memories or oxygen starvation and clearly shows why each of them fails to truly explain the NDE Exploring the similarities between NDEs and visions experienced during actual death and the intersection of physics and consciousness Carter uncovers the truth about mind matter and life after death

God So Loved the World Robert Spitzer, 2016-03-10 In this volume the brilliant Fr Spitzer probes in detail the major question that if an intelligent Creator God manifest in logical proofs scientific evidence and near death experiences who is the source of our desire for the sacred and the transcendental desires for truth love goodness and beauty would want to reveal himself to us personally and ultimately He then shows this is reasonable not only in light of our interior experience of a transcendent Reality but also that a completely intelligent Reality is completely positive implying its possession of a completely positive virtue namely love defined as agape This leads to the question whether God might be unconditionally loving and if he is whether he would want to make a personal appearance to us in a perfect act of empathy face to face After examining the rational evidence for this he reviews all world religions to see if there is one that reveals

such a God an unconditionally loving God who would want to be with us in perfect empathy This leads us to the extraordinary claim of Jesus Christ who taught that God is Abba the unconditionally loving Father Jesus claims go further saying that He is also unconditional love and that his mission is to give us that love through an act of complete self sacrifice He also claims to be the exclusive Son of the Father sent by God to save the world and the one who possesses divine power and authority The rest of the book does an in depth examination of the evidence for Jesus unconditional love of sinners his teachings his miracles and his rising from the dead As well as the evidence for Jesus gift of the Holy Spirit that enabled his disciples to perform miracles in his name and evidence for the presence of the Holy Spirit today If this strong evidence convinces us to believe that Jesus is our ultimate meaning and destiny and desire His saving presence in our lives that evidence should galvanize the Holy Spirit within us to show that Jesus is Lord and Savior the way the truth and the life And our faith in him will transform everything we think about our nature dignity and destiny and how we live endure suffering contend with evil and treat our neighbor

Near Death Experiences and Sacred Scripture Douglas Charles Hodgson,2024-08-30 Near Death Experiences and Sacred Scripture The Parallel Messaging examines striking similarities and parallels between messaging found in accounts of those who have written about their near death experiences and in accounts contained in the sacred scriptures of the world s great religions This symmetrical and mutually reinforcing messaging is timeless in nature and is arguably more relevant today than in any previous period in human history as humanity continues to face existential threats to its survival In an era of rampant materialism and consumerism armed conflict environmental degradation species extinction global warming as well as an obsessive preoccupation with self rather than others and a devaluation of the life s sanctity It s timely to spark a revived interest in and knowledge of God and the afterlife and in seeking answers to life s larger religious spiritual philosophical and metaphysical questions This book will provide assurance and solace to those who are terminally ill or fear the death of their physical body for those who are suffering a difficult bereavement and for those who feel lost and confused about the meaning and purpose of life and what lies ahead of them
