1990s developed mechanisms for externalizing reflection making it visible and thus explicitly available to help writers Now a third generation of work in reflection is emerging As mapped by the contributors to *A Rhetoric of Reflection* this iteration of research and practice is taking up new questions in new sites of activity and with new theories It comprises attention to transfer of writing knowledge and practice teaching and assessment portfolios linguistic and cultural difference and various media including print and digital It conceptualizes conversation as a primary reflective medium both inside and outside the classroom and for individuals and collectives and articulates the role that different genres play in hosting reflection Perhaps most important in the work of this third generation is the identification and increasing appreciation of the epistemic value of reflection of its ability to help make new meanings and of its rhetorical power for both scholars and students Contributors Anne Beaufort Kara Taczak Liane Robertson Michael Neal Heather Ostman Cathy Leaker Bruce Horner Asao B Inoue Tyler Richmond J Elizabeth Clark Naomi Silver Christina Russell McDonald Pamela Flash Kevin Roozen Jeff Sommers Doug Hesse

*Rubén Darío and the Romantic Search for Unity* Cathy L. Jade, 2014-07-03 Modernism was the major Spanish American

literary movement of the late nineteenth and early twentieth centuries. Leader of that influential movement was Rubén Darío, the Nicaraguan now recognized as one of the most important Hispanic poets of all time. Like the Romantics in England and the Symbolists on the Continent, Darío and other Modernists were strongly influenced by occultist thought. But as the poet Octavio Paz has written, academic criticism has preferred to close its eyes to the stream of occultism that runs throughout Darío's work. This silence damages our comprehension of his poetry. Cathy Login Jade's groundbreaking study corrects this critical oversight. Her work clearly demonstrates that esoteric tradition is central to Modernism and that an understanding of this centrality clarifies both the nature of the movement and its relationship to earlier European literature. After placing Modernism in a broad historical and literary perspective, Jade examines the impact of esoteric beliefs upon Darío's view of the world and the role of poetry in it. Through detailed and insightful analyses of key poems, she explores the poet's quest for solutions to the nineteenth-century crisis of belief. The movement that Rubén Darío headed brought Hispanic poetry into the mainstream of the modern tradition with its sense of fragmentation and alienation and its hope for integration and reconciliation with nature. Rubén Darío and the Romantic Search for Unity enriches our understanding of that movement and the work of its leading poet.
