Liberalism and Social Reform David Gordon, 1996-01-19 This book examines the heroic spirit of French industrial capitalism prior to World War I and the role certain industrialists played in ensuring the success and stability of the country's economic and political order. It focuses in particular on the success of innovative manufacturers in France's chief industrial centers: the Nord, Loire and Lorraine, where failing industrialists were saved through the introduction of new manufacturing techniques. It was only when Socialists abandoned revolutionary aims that they were able to successfully compete against their *Progressive* rivals. Democratic politics forced the evolution of political life away from confrontation between capitalist and anti-capitalist parties.

Torture and the Twilight of Empire Marnia Lazreg, 2016-12-13 *Torture and the Twilight of Empire* looks at the intimate relationship between torture and colonial domination through a close examination of the French army's coercive tactics during the Algerian war from 1954 to 1962. By tracing the psychological, cultural and political meanings of torture at the end of the French empire, Marnia Lazreg also sheds new light on the United States and its recourse to torture in Iraq and Afghanistan. This book is nothing less than an anatomy of torture: its methods, justifications, functions and consequences. Drawing extensively from archives, confessions by former torturers, interviews with former soldiers and war diaries as well as writings by Jean Paul Sartre, Albert Camus and others, Lazreg argues that occupying nations justify their systematic use of torture as a regrettable but necessary means of saving Western civilization from those who challenge their rule. She shows how torture was central to *guerre révolutionnaire*, a French theory of modern warfare that called for total war against the subject population and which informed a pacification strategy founded on brutal psychological techniques borrowed from totalitarian movements. Lazreg seeks to understand torture's impact on the Algerian population, especially women, and also on the French troops who became their torturers. She explores the roles Christianity and Islam played in rationalizing these acts and the ways in which torture became not only routine but even acceptable. Written by a preeminent historical sociologist, *Torture and the Twilight of Empire* holds particularly disturbing lessons for us today as we carry out the War on Terror.

Richelieu and Reason of State William Farr Church, 2015-03-08 The problem of the relationship between moral principles and political necessity, of the purposes of power and the justice of means, has always been a central theme in European history. The ministry of Cardinal Richelieu is a focal point for the problem because it existed during a time when the continuing strength of religiously based political ideas and the growth of the modern state converged. In this major study, William F. Church examines Richelieu's policies, his efforts to justify them, and the extensive debates they occasioned. His conclusion, contrary to that of many earlier historians, is that the underlying ideology of the Cardinal's policies was strongly religious and opened the way to secularized reason of state to
