Mom in Daycareland Carlota Lindsay, Marshall Lindsay, 2002-04-15 Letter to the Reader *Mom in Daycareland* is about children but it is addressed both to parents and to providers of child care in the hope that these pages will help them understand each other's needs and the stresses they experience in their respective childrearing and caregiving activities For the children's sake they must see each other not as antagonists but as partners in this most important of all careers molding the future of the human race Today the need for child care is more widely accepted by the general public than it was years ago We used to think that children should be reared at home and that a mother's job was to take care of them Now all this has changed Early every morning millions of mothers and fathers drive their children to child care

providers and leave them there most often without feeling uneasy or guilty What has happened to cause this shift in our attitudes Why have we given up ideas that once seemed sacred and replaced them with a pragmatic way of doing things that would have made our grandmothers frown The authors remember a time when it was expected that Dad would go off to work every morning leaving Mom and the kids at home He had a job outside the home and brought back the paycheck she did the housework and cooking took care of the children Only occasionally were the children entrusted to someone else as when the parents went to a dinner party or a movie and had a local high school student over to sit or drove the kids to Grandmas for the night There were exceptions of course but this was the accepted pattern Today that pattern while still prevalent in some families is rare The social and economic realities of our country have changed radically and the structure of family life has had to adapt There are several reasons for the shift and others will undoubtedly surface at a later date but what seems to be the most important among them are the following Firstly to make ends meet today's parents are obliged more and more to share the burden of earning the wages Both Mom and Dad need full time work if the family is to survive financially or if it is to satisfy the standard of living they are used to In the meantime who takes care of the children while both are at work Secondly another reason that helps explain why Mom works even when there is no pressing financial need for her to do so is the realization that women have an equal right to achieve their potentialities in the world of the professions and of labor Finally and perhaps most importantly an ever increasing number of households are managed by single parents When Mom or Dad is the only provider in the family no one is going to suggest that she or he stay home and watch the children That single job is essential to the survival of a family in an already precarious financial bind Even when the children are sick the single parent has to report to work in order to keep that precious job For these and other reasons the need for child care is a simple reality in our present society and the trend is likely to continue In most communities throughout the country groups of interested people argue that the availability of child care services is insufficient to meet current needs let alone the demands of a growing population We would like to talk about ourselves briefly as authors Both of us have had life careers in higher education In 1980 we devoted ourselves to child care and started a proprietary child care center in the Northwest It began small and then in time grew to a size of 35 preschoolers From the beginning Carlota operated the center from 6 30 a m to 6 00 p m as director teacher public relations person cook and janitor only recently has she begun coming home in the late afternoon Marshall was frequently teacher maintenance person and accountant It was difficult yet rewarding work and it taught us many things The purp **Bowker's Complete Video Directory** ,2000 **New York Magazine** ,1981-02-16 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Life & Loss** Linda

Goldman,2000 With this resource the reader learns to recognize and understand different types of childhood losses while avoiding the stifling cliches that block feeling The reader will also become aware of the myths that hinder the grief process and learn the four psychological tasks for grief The author explains the technique of grief work providing tools ideas and inventories for educators to help kids commemorate loss **Mister Rogers Talks with Parents** Fred Rogers,Barry Head,1985-06 **Family Wisdom** Susan Ginsberg,1996 Encompassing a remarkably rich spectrum of reflections on all aspects of family life Family Wisdom spans centuries and cultures to offer 2 000 of the most perceptive exhilarating helpful and humorous remarks on a subject that concerns just about everyone The first collection of its kind Family Wisdom will open a dialogue among readers of all generations *Teaching with Books that Heal* Patricia L. Kolencik,Carianne Bernadowski,2007-05-31 Help children learn coping skills through literature This book answers the often repeated question Is there a children s book I can read in my classroom to give children insight into significant life events Literature ideas and activities help students cope with real life situations such as bullying that interfere with school This book will assist educators in guiding and nurturing children s special issues and concerns with outstanding ready to go reading and writing lessons This professional resource for K 6 educators and parents uses literature with identifiable characters to help children who are facing challenges in their lives Like bullying peer acceptance peer pressure and being different as well as family situations such as death divorce adoption and sibling rivalry Waiting for Mister Rogers Wysteria Edwards, BA, Ed.M,2023-09-26 Every day children enter classrooms crying out for love and relief Waiting for Mister Rogers reveals a Kindergarten teacher s journey to find answers for the broken children entering her classroom and the wounds in her own heart through the personal notes speeches and writings of Fred Rogers Many moments of adversity violence and suffering can be traced back to broken attachments in childhood These early attachment wounds follow children into adulthood often damaging their interpersonal relationships Where the world offers shallow and complex solutions the gentle work of Mister Rogers models simple and deep ways to heal insecure attachment Waiting for Mister Rogers answers questions of personal development and connection for anyone seeking support such as What do children need to be securely attached How can teachers heal their wounds to be fully present intentional and effective with their students Could student be triggering a teacher s childhood trauma Can teachers go deeper while doing less It s time to remember childhood return to the Neighborhood and teach with attachment attunement and intention Mister Rogers was right all along
