No Way To Pick A President:

No Way To Pick A President Jules Witcover, 2025-09-23 A premier political reporter considers our presidential politics and how to improve them an essential book as campaign 2000 gets under way Jules Witcover who has covered every presidential election since 1952 here combines unparalleled anecdotal knowledge about Presidential politics with scintillating wisdom about just what's wrong with those politics He shows us in memorable and dramatic detail how over the years an influx of professional mercenaries with no party loyalties and virtually no political principles has corrupted American public life and formed a new technocracy that dominates every phase of electoral politics Along with this television has changed politics dramatically even destructively which only discourages voter participation and puts off some of our most promising candidates In this lively story filled book Witcover examines the many ways in which politicians have condoned or encouraged these developments and how they have responded to the new demands of a media driven money conscious age He assesses the effect of campaign funds both soft and hard and of a press corps that practices invasive gotcha journalism in its own quest for greater celebrity and financial reward He concludes with sage and experienced recommendations on how to improve our Presidential politics beginning even this year and revive public interest and confidence in American democracy

Reforming the Presidential Nomination Process Steven S. Smith, Melanie J. Springer, 2009-11-01 The 2008 U S presidential campaign has provided a lifetime's worth of surprises Once again however the nomination process highlighted the importance of organization political prowess timing and money And once again it raised many hackles The Democratic contest in particular generated many complaints for example it started too early it was too long and Super Tuesday was overloaded This timely book synthesizes new analysis by premier political scientists into a cohesive look at the presidential nomination process the ways in which it is broken and how it might be fixed The contributors to Reforming the Presidential Nomination Process address different facets of the selection process starting with a brief history of how we got to this point They analyze the importance and perceived unfairness of the earliest primaries and discuss what led to record turnouts in 2008 What roles do media coverage and public endorsements play William Mayer explains the superdelegate phenomenon and the controversy surrounding it James Gibson and Melanie Springer evaluate public perceptions of the current process as well as possible reforms Larry Sabato A More Perfect Constitution calls for a new nomination system installed via constitutional amendment while Tom Mann of Brookings opines on calls for reform that arose in 2008 and Daniel Lowenstein examines the process by which reforms may be adopted or blocked

No Way to Pick a President Jules Witcover, 2014 Never before has so much money poured into a presidential campaign as flowed into the election of 2000 Jules Witcover who has covered every election since 1952 here combines unparalleled knowledge about presidential politics with a scintillating wise analysis of what's wrong with the way American presidents are chosen He shows us in memorable and dramatic detail how professional mercenaries with little party loyalty and diminished political principles driven by skewed priorities and an

insatiable need for money are corrupting American public life At the same time he shows how television dramatically even destructively distorts the election process discouraging voter participation and dissuading some of our most promising public figures from seeking higher office In this lively story filled account Witcover examines the many ways in which politicians themselves have condoned or encouraged these developments and how they are responding to the new demands of a media driven money conscious age He assesses the effects of campaign funds both soft and hard and of a press corps that practices invasive gotcha journalism
