Noah Bruce A. McDowell, 2004 **Origins** Derrick McCarson, 2015-12-10 The creation story has been hijacked The subtle deceptions of the Serpent have caused skeptics and even believers to look upon the opening chapters of Genesis with a cynical eye As a result many believe that Earth is a cosmic accident and that humanity is merely a product of time matter and chance However Derrick McCarson counters the critics of the Bible with powerful new evidence from the world of astronomy microbiology and physics which all point to the undeniable fact that we are here by Divine design In Origins you will be challenged with fascinating information that confirms Genesis 1:1 and following Content Includes Deep space discoveries which reveal the first moments of creation Wonders of the universe which point to a super intelligent Creator The reason why evil and suffering entered the world DNA the language of God The amazing ingenuity of Noah's Ark [Prayer for Tomorrow's World](#) Jim Prestidge, 2022-02-17 Today's world has brought awareness of where we are going and with it anxiety Thinking people advocate looking for a new direction to take Ordinary people feel that their lives could be much better We see need and inequality on our doorstep and everywhere Public conscience is pricked but people feel unable to do anything Politicians struggle to balance conflicting demands and policies Quality of living has gone out of our lives People ask where is God A better question is where are we in relation to God Prayer for tomorrow's world brings out fundamental things to rethink and put right It looks at what the Bible has to say The book stimulates our thoughts as we seek God's way into a future that he can bless **Barnes' Notes on the NT (Barnes)** Albert Barnes, Verse by verse the author covers the entire New Testament carefully and understandably explaining every verse and offering a practical application for Christian living

Pre-Flood Civilizations and Their Sumerian Origins Ryan Moorhen, 2025-08-30 Book 4 Pre Flood Civilizations and the Sumerian Origins plunges readers deep into the oldest myths and memories of humanity where history theology and cosmic mathematics intertwine At its heart stands the Sumerian King List a document that recounts the reigns of antediluvian kings who ruled not for decades but for tens of thousands of years Their extraordinary longevity totaling 432 000 years transforms political history into a cosmic drama an age when kingship itself descended from heaven and human order was bound directly to the divine This volume explores the blurred line between myth and memory From the first city of Eridu seat of the god Enki and the cradle of civilization to Shuruppak and the flood traditions that echo through Mesopotamia the text shows how ancient peoples anchored fragile societies in eternal rhythms It examines how reign lengths were tied to astronomical cycles how myths of Alulim En-men-dur-ana and Ubara-Tutu may conceal dim memories of real rulers and how

the theology of divine kingship legitimized authority while binding it to cosmic law Comparisons with Genesis Hindu yugas and global flood traditions reveal a shared human impulse to structure time through sacred numbers and archetypal rulers Richly weaving archaeology mythology and comparative cosmology this book is more than an analysis of ancient texts it is a meditation on how civilizations conceived of eternity decline catastrophe and renewal It speaks to the weight of time the resilience of kingship and the enduring human need to find meaning in these cycles of history **Christian Baptism** Bruce A.
