England and Spain in the Early Modern Era Óscar Alfredo Ruiz Fernández, 2019-12-12 The early 17th century was a time of great literature the era of Cervantes and Shakespeare but also of international tension and heightened diplomacy This book looks at the relations

between Spain under Philip III and Philip IV and England under James I in the period 1603-1625. It examines the essential issues that established the framework for diplomatic relations between the two states looking not only at questions of war and peace but also of trade and piracy. As Alfredo Ruiz Fernández expertly argues, the diplomatic relationship was vital to the strategic interests of both powers and also played a highly significant role in the domestic agendas of each country. Based on Spanish and English archival sources, *England and Spain in the Early Modern Era* provides for the first time a clear picture of diplomacy between England and Spain in the early modern era.

La migración asiática en el Virreinato de la Nueva España: Déborah Oropeza, 2020. Miles de inmigrantes asiáticos libres y esclavos constituyeron un elemento esencial de la sociedad novohispana entre los años 1565 y 1700. Tras la conquista de las Filipinas en 1565, la Corona española incorporó este archipiélago al virreinato de la Nueva España. Al iniciarse la comunicación transpacífica entre estos territorios, surgió una continua y compleja migración asiática hacia el centro del virreinato en el continente americano. Esta migración fue definitivamente un proceso importante en el desarrollo de la Nueva España, ya que miles de asiáticos de diversa procedencia identificados comúnmente como chinos se integraron como una pieza fundamental de la sociedad del centro del virreinato e influyeron significativamente en su formación económica, social y cultural. En la historiografía relacionada con la Nueva España, ha sido necesario un análisis integral y sistemático de la migración transpacífica de asiáticos y de su integración en la sociedad novohispana, pues si no se considera a los chinos y chinas, nuestra visión de la Nueva España es incompleta. Este es el motivo de esta investigación que comprende un análisis de miles de documentos en diversos archivos de México y España.

Rivalry and Conflict Ernst van Veen, Leonard Blussé, 2005. The rivalry between the Dutch and Portuguese in Asia is one of the classic themes of the early history of European expansion overseas. Yet it is often forgotten that until the end of the sixteenth century the seafarers and traders of Portugal and The Netherlands were the best of friends and close trading partners in Europe. This collection of essays seeks to explain the abrupt change in the relationship by analyzing the European interaction with the maritime world of Monsoon Asia. Portuguese as well as Dutch interests, political, commercial and personal, became closely interwoven with those of the indigenous rulers, merchants and financiers. The final outcome of the conflict in Asia was mainly determined by the different ways in which both parties were able to cope with the intricacies of Asian politics. European Expansion in the Indian Ocean was far from a one-sided affair and its history can only be understood in terms of the interaction of both Europeans and Asians involved.
