Crucible of Freedom Eric Leif Davin, 2012-07-10 This book explores the relation between democracy and industrialization in United States history Over the course of the 1930s the political center almost disappeared as the Democratic New Deal became the litmus test of class with blue collar workers providing its bedrock of support while white collar workers and those in the upper income levels opposed it By 1948 the class cleavage in American politics was as pronounced as in many of the Western European countries such as France Italy Germany or Britain with which we usually associate class politics Working people created a new America in the 1930s and 1940s which was a fundamental departure from the feudalistic and hierarchical America that existed before They won the political rights of American citizenship which had been previously denied them They democratized labor capital relations and gained more economic security than they had ever known They obtained more economic opportunity for them and their children than they had ever known and they created a respect for ethnic workers which had not previously existed In the process class politics re defined the political agenda of America as for the first time in American history the political universe polarized along class lines Eric Leif Davin explores the meaning of the New Deal political mobilization by ordinary people by examining the changes it brought to the local county and state levels in Pittsburgh Allegheny County and Pennsylvania as a

Lavoie, Christine J. Cynn, 2019-11-06 Literary and Visual Representations of HIV AIDS Forty Years Later depicts how film and literature about the HIV AIDS crisis expand upon the issues generated by the epidemic This collection fills an important gap in the

scholarship on HIV AIDS by bringing together essays by both established and junior scholars on visual and literary representations of HIV AIDS Almost forty years after the first reported cases of what would later be defined as AIDS this book looks back across the decades at works of literature and film to discuss how the representation of HIV AIDS has shifted in media This book argues that literature constitutes a very powerful response to AIDS that ripples into film and politics driving the changes in past and contemporary representations of HIV AIDS The book also expands discussion of the issues generated and amplified by the epidemic to consider how HIV AIDS has been portrayed in the United States Western and Southern Africa Western Europe and East Asia

Imagining Home Sidney J. Lemelle, Robin D.G. Kelley, 1994-12-17 This collection of original essays brilliantly interrogates the often ambivalent place of Africa in the imaginations cultures and politics of its New World descendants Combining literary analysis history biography cultural studies critical theory and politics Imagining Home offers a fresh and creative approach to the history of Pan Africanism and diasporic movements A critical part of the book's overall project is an examination of the legal educational and political institutions and structures of domination over Africa and the African diaspora Class and gender are placed at center stage alongside race in the exploration of how the discourses and practices of Pan Africanism have been shaped Other issues raised include the myriad ways in which grassroots religious and cultural movements informed Pan Africanist political organizations the role of African American and Caribbean intellectuals in the formation of Pan African thought including W E B DuBois C L R James and Adelaide Casely Hayford the historical ideological and institutional connections between African Americans and South Africans and the problems and prospects of Pan Africanism as an emancipatory strategy for black people throughout the Atlantic

Sexual Harassment of Working Women Catharine A. MacKinnon, Professor Catharine A MacKinnon, 1979-01-01 A comprehensive legal theory is needed to prevent the persistence of sexual harassment Although requiring sexual favors as a quid pro quo for job retention or advancement clearly is unjust the task of translating that obvious statement into legal theory is difficult To do so one must define sexual harassment and decide what the law's role in addressing harassment claims should be In Sexual Harassment of Working Women Catharine MacKinnon attempts all of this and more In making a strong case that sexual harassment is sex discrimination and that a legal remedy should be available for it the book proposes a new standard for evaluating all practices claimed to be discriminatory on the basis of sex Although MacKinnon's inequality theory is flawed and its implications are not considered sufficiently her formulation of it makes the book a significant contribution to the literature of sex discrimination MacKinnon calls upon the law to eliminate not only sex discrimination but also most instances of sexism from society She uses traditional theories in an admittedly strident manner and relies upon both traditional and radical feminist sources The results of her effort are mixed The book is at times fresh and challenging at times needlessly provocative <https://www.jstor.org> Sep 30 2016

Lessons from the Damned Nancy E. Stoller, 2021-12-16 First published in 1998 Nancy Stoller records how the poor people of color gay men and lesbians drug users and women have

built social movements to fight the impact of AIDS revealing that organizational structure and culture have a greater impact on who is served and how than do public health theories or official organizational goals She draws on ethnographic research and the words of the activists themselves as well as the literature of social movements and theories of bureaucracy In addition to the stories of the organizational strategies the book offers guidelines for dealing with diversity and conflict with both theoretical and practical perspectives on cross community and international organizing Common Preservation Jeremy Brecher, 2021-06-29 As world leaders eschew cooperation to address climate change nuclear proliferation economic meltdown and other threats to our survival more and more people experience a pervasive sense of dread and despair Is there anything we can do What can put us on the course from mutual destruction to common preservation In the past social movements have sometimes made rapid and unexpected changes that countered apparently incurable social problems Jeremy Brecher presents scores of historical examples of people who changed history by adopting strategies of common preservation showing what we can learn from past social movements to better confront today's global threats of climate change war and economic chaos In Common Preservation Brecher shares his experiences and what he has learned that can help ward off mutual destruction and provides a unique heuristic a tool kit for thinkers and activists to understand and create new forms of common preservation **Underground Press Collection**, 1986 **Managerial Prerogative and the Question of Control (Routledge Revivals)** John Storey, 2014-10-10 In both Marxist and non Marxist scholarship there has been a remarkable neglect of the managerial control of labour John Storey's analysis of the modern labour process shows that managerial control is in fact more precarious than has been so far recorded This book first published in 1983 reassesses the Braverman theory of the inexorable degradation of work and demonstrates the need to go beyond not only Braverman but also most of the ensuing attempts to complement or repair his underlying thesis The book will be of interest to students of the social sciences **Rheumatoid Arthritis** Andrew Lemmey, 2012-01-18 The purpose of this book is to provide up to date interesting and thought provoking perspectives on various aspects of research into current and potential treatments for rheumatoid arthritis RA This book features 17 chapters with contributions from numerous countries e.g. UK USA Canada Japan Sweden Turkey Bosnia and Herzegovina Slovakia including chapters from internationally recognized leaders in rheumatology research It is anticipated that Rheumatoid Arthritis Treatment will provide both a useful reference and source of potential areas of investigation for research scientists working in the field of RA and other inflammatory arthropathies

On the Job Craig Heron, Robert H. Storey, 1986 Every day millions of Canadians go out to work They labour in factories offices restaurants and retail stores on ships and deep in mines And every day millions of other Canadians mostly women begin work in their homes performing the many tasks that ensure the well being of their families and ultimately the reproduction of the paid labour force Yet for all its undoubted importance there has been remarkably little systematic research into the past and present dynamics of the world of work in Canada
