Human Rights on Trial Justine Lacroix, Jean-Yves Pranchère, 2018-05-31 The first systematic analysis of the arguments made against human rights from the French Revolution to the present day Through the writings of Edmund Burke Jeremy Bentham Auguste Comte Louis de Bonald Joseph de Maistre Karl Marx Carl Schmitt and Hannah Arendt the authors explore the divergences and convergences between these classical arguments against human rights and the contemporary critiques made both in Anglo American and French political philosophy Human Rights on Trial is unique in its marriage of history of ideas with normative theory and its integration of British North American and continental debates on human rights It offers a powerful rebuttal of the dominant belief in a sharp division between human rights today and the rights of man proclaimed at the end of the eighteenth century It also offers a strong framework for a democratic defence of human rights *More than Don't Let 'em Win* DC Vesser, 2020-01-21 This book attacks a poison that for so very long we have called political correctness Political correctness PC is the act of avoiding expression or language that can perceptively be construed as marginalizing by specific minorities or demographic groups It is often difficult to argue against PC because supporters of PC are likely to claim that contrary to using PC one would instead use expressions or language that offends which is oft what I wind up doing This response is a false conflation of permitting and condoning but the fallaciousness usually doesn't deter those who want to win the argument It's easy to accuse someone of simply seeking justification to use epithets in order to put him on the defensive and into the unenviable position of having to assert that he's not a racist It's also dirty and hateful to do so and that's how such responses should be considered We also review Agenda 21 Document 7277 the Illuminati the Club of Rome and the Committee of 300 in brevity We discuss the New World Order and speculate about megaregions and their locations both in the United States and abroad We take a very long train ride from the most southern tip of South America all the way to New Zealand and we discuss possibilities for a likely location for the capital of the world that may surprise you We even speculate about a location right here in the United States for a habitat for useless eaters We discuss how close we have come in our society to achieve all the goals of the New World Order I really hope you enjoy the read **Encyclopedia of Political Theory** Mark Bevir, 2010-03-18 How do we arrange our collective affairs Why do we live together in the ways we do How ought we to live together All humans think about the world they live in its history and future and the ideals by which they want to live in relation to others How we think today decisively influences the world of tomorrow This encyclopedia attempts to bring greater clarity and understanding to political debate Drawing together a team of international scholars the

Handbook of Citizenship Studies Engin F Isin, Bryan S Turner, 2002-08-16 The contributions of Woodiwiss Lister and Sassen are outstanding but not unrepresentative of the many merits of this excellent collection The British Journal of Sociology From women s rights civil rights and sexual rights for gays and lesbians to disability rights and language rights we have experienced in the past few decades a major trend in Western nation states towards new claims for inclusion This trend has echoed around the world from the Zapatistas to Chechen and Kurdish nationalists social and political movements are framing their struggles in the languages of rights and recognition and hence of citizenship Citizenship has thus become an increasingly important axis in the social sciences Social scientists have been rethinking the role of political agent or subject Not only are the rights and obligations of citizens being redefined but also what it means to be a citizen has become an issue of central concern As the process of globalization produces multiple diasporas we can expect increasingly complex relationships between homeland and host societies that will make the traditional idea of national citizenship problematic As societies are forced to manage cultural difference and associated tensions and conflict there will be changes in the processes by which states allocate citizenship and a differentiation of the category of citizen This book constitutes the most authoritative and comprehensive

Hunter-Bowman, 2022-07-21 This book rooted in the disciplines of theology and peace studies reflects with and on war affected communities in Colombia about transitioning from violence to peace It argues that much that is significant for peace building in situations of war escapes the notice of governments human rights organizations and academics because it is accomplished through a kind of agency they do not recognize This book names that agency as constructive agency under duress and demonstrates its significance for

James Wiley's book takes the next step from criticizing contemporary political theory to showing what a more politics centered political theory would look like by exploring the meaning and value of politics in the writings of Max Weber, Carl Schmitt, Paul Ricoeur, Hannah Arendt, Sheldon Wolin, Claude Lefort and Ernesto Laclau and Chantal Mouffe. These political theorists all use the concept of the political to explain the value of politics and defend it from its detractors. They represent state centered, republic centered and society centered conceptions of politics as well as realist, authoritarian, idealist, republican, populist and radical democratic traditions of political thought. This book compares these theorists and traditions of the political in order to defend politics from its critics and to contribute to the development of a politics centered political theory. *Politics and the Concept of the Political* will be a useful resource to general audiences as well as to specialists in political theory. Being and Freedom John Skorupski, 2021 *Being and Freedom* is a panoramic account of ethics in Europe from the French Revolution to the end of the nineteenth century. John Skorupski explores the interaction of philosophical ideas with social influences across Europe during this period, including Kantian ethics, Hegel's holism and the British utilitarian tradition. **Resisting Ethics** S. Schaffer, 2004-09-03 *Resisting Ethics* is a new contribution to an ongoing debate on how the world can be improved. Starting with the notion that resistance and ethics are theoretically and practically intertwined, Schaffer develops a new socially oriented ethics based on the practical experience of resistance and ethics. Borrowing from and extending the ideas of Sartre, Merleau-Ponty and Bourdieu and using case studies of the Algerian Revolution and the Zapatista rebellion, Schaffer argues that existentialism can give us new insights into how we can and should act ethically in the world. *Resisting Ethics* is a wide ranging work and represents a new kind of intervention into issues of social justice and resistance. **The Policy Sciences of Harold Lasswell** Douglas Torgerson, 2024-01-18 Illuminating and timely, this book explores in depth Harold Lasswell's prominent and controversial 20th century proposal for the policy sciences. With his extraordinary contextual focus, Lasswell stands apart as unique in the policy landscape, advancing a tacit critical dimension that anticipates a radical democratic prospect.
