Radical Desire:

Amorous Acts Frances L. Restuccia, 2006 Amorous Acts uses psychoanalytic concepts to show how queer theory is operating to put in place a non heterosexist social order

Bad Education Lee Edelman, 2022-12-05 Long awaited after No Future and making queer theory controversial again Lee Edelman's Bad Education proposes a queerness without positive identity a queerness understood as a figural name for the void itself unnamable around which the social order takes shape Like Blackness woman incest and sex queerness as Edelman explains it designates the antagonism the structuring negativity preventing that order from achieving coherence But when certain types of persons get read as literalizing queerness the negation of their negativity can seem to resolve the social antagonism and totalize community By translating the nothing of queerness into the something of the queer the order of meaning defends against the senselessness that undoes it thus mirroring Edelman argues education's response to queerness its sublimation of irony into the meaningfulness of a world Putting queerness in relation to Lacan's *ab sens* and in dialogue with feminist and Afropessimist thought Edelman reads works by Shakespeare Jacobs Almod var Lemmons and Haneke among others to show why queer theory's engagement with queerness necessarily results in a bad education that is destined to teach us nothing

Radical Desire Housk Randall, Mark Ramsden, 2000 This highly illustrated work looks at all the radical extremes of sexual practice including tantric sex sex magick occult practice bondage erotic piercing fetishism erotic performance rubber sado masochism and bisexuality

The Black Register Tendayi Sithole, 2020-04-09 How can thinkers grapple with the question of the human when they have been dehumanized How can black thinkers confront and make sense of a world structured by antiblackness a world that militates against the very existence of blacks These are the questions that guide Tendayi Sithole's brilliant analyses of the work of Sylvia Wynter Aim C saire Steve Biko Assata Shakur George Jackson Mabogo P More and a critique of Giorgio Agamben Through his careful interrogation of their writings Sithole shows how the black register represents a uniquely critical perspective from which to confront worlds that are systematically structured to dehumanize The black register is the ways of thinking knowing and doing that emerge from existential struggles against antiblackness and that dwell in the lived experience of being black in an antiblack world The black register is the force of critique that comes from thinkers who are dehumanized and who in turn question define and analyze the reality that they are in in order to reframe it and unmask the forces that inform subjection This book redefines the arc of critical black thought over the last seventy five years and it will be an indispensable text for anyone concerned with the deep and enduring ways in which race structures our world and our thought

Lacanian Left Yannis Stavrakakis, 2007-07-12 In recent years psychoanalysis especially Lacanian theory has been gradually acknowledged as a vital resource in the ongoing re orientation of contemporary political theory and analysis Of particular note is that the work of Jacques Lacan is increasingly being used by major political philosophers associated with the Left This indicates the dynamic emergence of a new theoretico political horizon that of the Lacanian Left However this

has yet to be properly conceived and structured as a field The Lacanian Left is the first book to bring it into academic consciousness and to draw its implications for concrete political analysis in a systematic way It offers An accessible mapping of its main contours A detailed examination of the points of convergence and divergence between the major figures active or at the periphery of this terrain including Slavoj Žižek the central Lacanian notion of enjoyment The Lacanian Left puts forward innovative analyses of political power and authority nationalism European identity consumerism and advertising culture de democratisation and post democracy It will be of value to everyone interested in exploring the potential of psychoanalysis to reinvigorate political theory critical political analysis and democratic politics

The Queerness of Psychoanalysis Vanessa Sinclair, Elisabeth Punzi, Myriam Sauer, 2024-11-29 The Queerness of Psychoanalysis From Freud and Lacan to Laplanche and Beyond is an exploration of psychoanalysis often complicated and fraught history with thinking about queerness as well as its multifaceted heritage Throughout the chapters the contributors write about psychoanalysis relationship with queerness the ways in which queerness is represented in the psychoanalytic archive and how that archive endures in the present and creates various disruptive effects both within and beyond the clinic Each chapter from the global cohort of contributors approaches queerness from a different angle they consider the literary aspects of queerness presence in the analytic world the clinical complexities of working with queer and trans people metapsychological inclusion and exclusion of queerness and many other subjects Taken together these contributions constitute a decisive intervention into the psychoanalytic canon They are an unabashed demand for accepting and furthering the representation and inclusion of queer and in particular trans people within psychoanalysis It is a call for action to utilize and deepen psychoanalysis enormous explicatory powers and bring together voices that have so far been denied a unity of expression while critically reevaluating psychoanalysis historical relationship to queerness Each chapter proposes different ways of thinking and writing psychoanalytically with many of the papers queering the format and forms of expression commonly found in academic writing through their use of dialogues conversations or other experimental forms of writing Written almost exclusively by analysts scholars and activists who identify as trans and or queer this important volume puts theory into practice by centering queer and trans voices

Stages of Desire Michael Kidd, 1999-07-01 Within the rich tradition of Spanish theater lies an unexplored dimension reflecting themes from classical mythology Through close readings of selected plays from early modern and twentieth century Spanish literature with plots or characters derived from the Greco Roman tradition Michael Kidd shows that the concept of desire plays a pivotal role in adapting myth to the stage in each of several historical periods In Stages of Desire Kidd offers a new way of looking at the theater in Spain Reviewing the work of playwrights from Juan del Encina to Luis Riaza he suggests that desire constitutes a central element in a large number of Greco Roman myths and shows how dramatists have exploited this to resituate ancient narratives within their own artistic and ideological horizons Among the works he analyzes are Timoneda's Tragicomedia llamada Filomena Castro's Dido y Eneas and Unamuno's Fedra Kidd explores how seventeenth century

playwrights were constrained by the conventions of the newly formed national theater and how in the twentieth century mythological desire was exploited by playwrights engaged in upsetting the melodramatic conventions of the entrenched bourgeois theater He also examines the role of desire both in the demythification of prominent classical heroes during the Franco regime and in the cultural critique of institutionalized discrimination in the current democratic period *Stages of Desire* is an original and broad ranging study that highlights both change and continuity in Spanish theater By elegantly combining theory literary history and close textual analysis Kidd demonstrates both the resilience of Greco Roman myths and the continuing vitality of the Spanish stage

New Awareness Dominic Arcamone, 2024-02-29 A New Awareness is an endeavor of affection and generosity toward Sebastian Moore The book examines his key theological insights and themes over seventy years and proposes that they are still relevant today for the Christian Community He was a theologian and poet He wrote about many theological topics the significance of Jesus the experiences of the disciples and their meaning for us redemption the Trinity sexuality and ecclesiology and original sin But he is mainly known for being the theologian of desire self love to self gift desire is love trying to happen to be myself for another and the insight that there is no more wonderful reality than to be desired by the one you desire **The Queerness of Childhood** Anna Fishzon, Emma Lieber, 2022-07-21 This book represents a meeting of

queer theorists and psychoanalysts around the figure of the child Its intention is not only to interrogate the discursive work performed on and by the child in these fields but also to provide a stage for examining how psychoanalysis and queer theory

themselves interact with the understanding that the meeting of these discourses is most generative around the queer time and sexualities of childhood From the theoretical perspectives of queer theory psychoanalysis anthropology and gender studies the chapters explore cultural aesthetic and historical forms and phenomena that are aimed at or are about children and that give expression to and make room for the queerness of childhood *Communist Study* Derek R. Ford,2022-01-14 In the second edition of this groundbreaking work Derek R Ford contends that radical politics needs educational theory posing a series of educational questions pertinent to revolutionary movements How can pedagogy bridge the gap between what is and what can be while respecting the gap and its uncertainty and contingency How can pedagogy accommodate ambiguity while remaining faithful to the communist project In answering these questions Ford develops a dynamic pedagogical constellation that radically opens up what education is and what it can mean for revolutionary struggle In charting this constellation Ford takes the reader on a journey that traverses disciplinary boundaries innovatively reading theorists as diverse as Lenin Agamben Marx Lyotard Althusser and Butler Demonstrating how learning underpins capitalism and democracy Ford articulates a theory of communist study as an alternative and oppositional logic that perhaps paradoxically demands the revolutionary reclamation of testing Poetic performative and provocative *Communist Study* is oriented toward what Ford calls the sublime feeling of being in common which as he insists is always a commonness against **Woman in Lars von Trier's Cinema, 1996-2014** Ahmed Elbeshlawy,2016-10-11 This book discusses the figure of Woman in Lars von Trier s distinctive cinematic productions from 1996 to 2014 It takes the notorious legacy of violence against women in von Trier s cinema beyond the perceived gender division elevating the director s image above being a mere provocateur By raising fundamental questions about woman sexuality and desire Elbeshlawy shows that Trier s cinematic Woman is an attempt at creating an image of a genderless subject that is not inhibited by the confines of ideology and culture But this attempt is perennially ill fated And it is this failure that not only fosters viewing enjoyment but also gives the films their political importance elevating them above both commendations and condemnations of feminist discourse **Lacan in Italy** Luca Di Gregorio,2025-06-25 This book provides the first analysis of the reception and development of Lacanian psychoanalysis in Italy offering a comprehensive account of the relevance and contributions of Italian Lacanians It examines Italian Lacanianism through its distinctive engagement with clinical practice sociopolitical analysis and aesthetics highlighting the work of influential figures such as Sergio Benvenuto and Massimo Recalcati Lacan in Italy proposes a nuanced understanding of how Italian Lacanians reinterpret Lacan s legacy advancing an affirmative approach to the notion of the real often conceptualised in negative terms as traumatic impossible unrepresentable and unsymbolisable by emphasising its generative life affirming potential The book also fosters dialogue with Lacanian receptions across different countries and languages *Ethics, Aesthetics, and the Beyond of Language* Robert Hughes,2010-08-02 This book explores the relationship between literature and ethics showing how literature and art work to open up a part of ethics that resists

traditional philosophy Focusing on three American Romantic texts *Wieland* *The Legend of Sleepy Hollow* and *The Marble Faun* Robert Hughes demonstrates how each dramatizes the ethical psychological and existential imperative to put the experience of our own traumatic limits death mortality and being into poetic language To develop the theoretical stakes of these literary readings Hughes also draws on four twentieth century continental thinkers Jacques Lacan Martin Heidegger Emmanuel Levinas and Alain Badiou each of whom in his own way proposed aesthetics or art as an approach to this dimension of ethics The book also points to an overlooked common lineage descending from German Romanticism between American Romanticism and contemporary post Romantic continental thought a shared supposition about the limits of reason as a mode of presenting the essence of art and ethics and a shared faith in the promise of literature to speak to or open up this subjective space of foundational ethics
