## **Radical Feminism Writing Critical Agen:**

Radical Feminism, Writing, and Critical Agency Jacqueline Rhodes, 2012-02-01 This book traces the intersection of radical feminism composition and print culture in order to address a curious gap in feminist composition studies the manifesto writing collaborative action taking radical feminists of the 1960s and 1970s Long before contemporary debates over essentialism radical feminist groups questioned both what it was to be a woman and to perform womanhood and a key part of that questioning took the form of very public very contentious texts by such writers and groups as Shulamith Firestone the Redstockings and WITCH the Women s International Terrorist Conspiracy from Hell Rhodes explores how these radical women s texts have been silenced in contemporary rhetoric and composition and compares their work to that of contemporary online activists finding that both point to a network literacy that blends ever shifting identities with ever changing technologies in order to take action Ultimately Rhodes argues the articulation of radical feminist textuality can benefit both scholarship and classroom as it situates writers as rhetorical agents who can write resist and finally act within a network of discourses and identifications

Gruwell, 2022-04-15 Craft is a process oriented practice that takes seriously the relationships between bodies both human and nonhuman and makes apparent how these relationships are mired in and informed by power structures Making Matters introduces craft agency a feminist vision of new materialist rhetorics that enables scholars to identify how power circulates and sometimes stagnates within assemblages of actors and provides tools to rectify that uneven distribution To recast new materialist rhetorics as inherently crafty Leigh Gruwell historicizes and locates the concept of craft both within rhetorical history as well as in the disciplinary history of writing studies Her investigation centers on three specific case studies craftivism the fibercraft website Ravelry and the 2017 Women's March These instances all highlight how a material ecological understanding of rhetorical agency can enact political change Craft agency models how we humans might work with and alongside things nonhuman sometimes digital sometimes material to create more equitable relationships Making Matters argues that craft is a useful starting point for addressing criticisms of new materialist rhetorics not only because doing so places rhetorical action as a product of complex relationships between a network of human and nonhuman actors but also because it does so with an explicitly activist agenda that positions the body itself as a material interface

*Rhetorical Feminism and This Thing Called Hope* Cheryl Glenn, 2018-09-04 Rhetoric and feminism have yet to coalesce into a singular recognizable field In this book author Cheryl Glenn advances the feminist rhetorical project by introducing a new theory of rhetorical feminism Clarifying how feminist rhetorical practices have given rise to this innovative approach Rhetorical Feminism and This Thing Called Hope equips the field with tools for a more expansive and productive dialogue Glenn's rhetorical feminism offers an alternative to hegemonic rhetorical histories theories and practices articulated in Western culture This alternative theory engages addresses and supports feminist rhetorical practices that include openness authentic dialogue and deliberation interrogation of the status quo collaboration respect and progress Rhetorical feminists establish greater representation and inclusivity of everyday rhetors disidentification with traditional rhetorical practices and greater appreciation for alternative means of delivery including silence and listening These tenets are supported by a cogent reconceptualization of the traditional rhetorical appeals situating logos alongside dialogue and understanding ethos alongside experience and pathos alongside valued emotion Threaded throughout the book are discussions of the key features

of rhetorical feminism that can be used to negotiate cross boundary mis understandings inform rhetorical theories advance feminist rhetorical research methods and methodologies and energize feminist practices within the university Glenn discusses the power of rhetorical feminism when applied in classrooms the specific ways it inspires and sustains mentoring and the ways it supports administrators especially directors of writing programs Thus the innovative theory of rhetorical feminism a theory rich with tactics and potentially broad applications opens up a new field of research theory and practice at the intersection of rhetoric and feminism      **The Cultural and Historical Heritage of Colonialism** Kenneth

Usongo,2022-02-17 In the time since most African countries achieved independence from European colonial powers it is unfortunate that these nations are still politically economically and culturally reordered by their former colonisers This book argues that these nations often slavishly emulate Western values to the detriment of indigenous ones It challenges the postcolony to ground itself in local experience and then nativise external values which entails delicately sifting through both the domestic and foreign worlds to build a decent and humane society      Valerie Solanas Breanne Fahs,2014-04-15 The authoritative biography of the 60s countercultural icon who wrote SCUM Manifesto shot Andy Warhol and made an unforgettable mark on feminist history Valerie Solanas is one of the most polarizing figures of 1960s counterculture A cult hero to some and vehemently denounced by others she has been dismissed but never forgotten Known for shooting Andy Warhol in 1968 and for writing the infamous SCUM Manifesto Solanas became one of the most famous women of her era But she was also diagnosed with paranoid schizophrenia and spent much of her life homeless or in mental hospitals Solanas s SCUM Manifesto a sui generis vision of radical gender dystopia predicted ATMs test tube babies the Internet and artificial insemination long before they existed It has sold more copies and been translated into more languages than nearly all other feminist texts of its time And yet shockingly little work has investigated the life of its author This book is the first biography about Solanas including original interviews with family friends and enemies and numerous living Warhol associates It reveals surprising details about Solanas s life the children nearly no one knew she had her drive for control over her own writing and her elusive personal and professional relationships Valerie Solanas reveals the tragic remarkable life of an iconic figure It is not only a remarkable biographical feat but also a delicate navigation of an unwieldy demanding and complex life story

**Voice in Qualitative Inquiry** Alecia Y Jackson, Lisa A Mazzei, 2008-09-02 Voice in Qualitative Inquiry is a critical response to conventional interpretive and critical conceptions of voice in qualitative inquiry A select group of contributors focus collectively on the question What does it mean to work the limits of voice from theoretical methodological and interpretative positions and the result is an innovative challenge to traditional notions of voice The thought provoking book will shift qualitative inquiry away from upproblematically engaging in practices and interpretations that limit what counts as voice and therefore data The loss and betrayal of comfort and authority when qualitative researchers work the limits of voice will lead to new disruptions and irruptions in making meaning from data and in turn will add inventive and critical dialogue to the conversation about voice in qualitative inquiry Toward this end the book will specifically address the following objectives To promote an examination of how voice functions to

communicate in qualitative research To expose the excesses and instabilities of voice in qualitative research To present theoretical methodological and interpretative implications that result in a problematizing of voice To provide working examples of how qualitative methodologists are engaging the multiple layers of voice and meaning To deconstruct the epistemological limits of voice that circumscribe our view of the world and the ways in which we make meaning as researchers This compelling collection will challenge those who conduct qualitative inquiry to think differently about how they collect analyze and represent meaning using the voices of others as well as their own
