Schwantes,1979 **The Communist**

International and US Communism, 1919-1929 Jacob Zumoff,2014-08-21 Since the Cold War most historians have set up an opposition between the American and international aspects of early American Communism This book examines the development of the Communist Party in its first decade from 1919 to 1929 Using the archives of the Communist International this book in contrast to previous studies argues that the International played an important role in the early part of this decade in forcing the party to Americanise Special attention is given to the attempts by the Comintern to orient American Communists on the role of black oppression and to see the struggle for black liberation and the fight for socialism as inextricably linked The later sections of the book provide the most detailed account now available of how the Comintern reflecting the Stalinisation of the Soviet Union intervened in the American party to ensure the Stalinisation of American Communism **The Formation of Labour Movements 1870-1914** Marcel van der Linden,Jurgen Rojahn,2024-01-15 The print edition is available as a set of two volumes 9789004092761 **Working Lives** Craig Heron,2018-11-23 Craig Heron is one of Canada s leading labour historians Drawing together fifteen of Heron s new and previously published essays on working class life in Canada Working Lives covers a wide range of issues including politics culture gender wage earning and union organization A timely contribution to the evolving field of labour studies in Canada this cohesive collection of essays analyzes the daily experiences of people working across Canada over more than two hundred years Honest in its depictions of the historical complexities of daily life Working Lives raises issues in the writing of Canadian working class history especially working class realism and how it is eventually inscribed into Canada s public history Thoughtfully reflecting on the ways in which workers interact with the past Heron discusses the important role historians and museums play in remembering the adversity and milestones experienced by Canada s working class **Rural Democracy** Marilyn P.

Watkins,2019-05-15 What happens to social movements in rural settings when they do not face the divisive issues of race and class Marilyn Watkins examines the stable political climate built by successive waves of Populism socialism the farmer labor movement and the Grange in turn of the century western Washington She shows how all of these movements drew upon the same community base empowered farmers and encouraged them in the belief that democracy independence and prosperity were realizable goals Indeed they were in a setting where agriculture was diversified farmers were debt free and critically women enjoyed equal status as activists in social movements Rural Democracy illuminates the problems that undermined Populism and other forms of rural radicalism in the South and the Midwest by demonstrating the political success of those

movements where such problems were notably absent in Lewis County Washington By so doing Watkins convincingly demonstrates the continuing value of local community studies in understanding the large scale transformations that continue to sweep over rural America

Transnational Indians in the North American West Clarissa Confer, Andrae Marak, Laura Tuennerman, 2015-10-07 This collection of eleven original essays goes beyond traditional border driven studies to place the histories of Native Americans indigenous peoples and First Nation peoples in a larger context than merely that of the dominant nation As Transnational Indians in the North American West shows

transnationalism can be expressed in various ways To some it can be based on dependency so that the history of the indigenous people of the American Southwest can only be understood in the larger context of Mexico and Central America Others focus on the importance of movement between Indian and non Indian worlds as Indians left their reserved lands to work hunt fish gather pursue legal cases or seek out education to name but a few examples Conversely even natives who remained on reserved lands were nonetheless transnational inasmuch as the reserves did not fully belong to them but were administered by a nation state Boundaries that scholars once viewed as impermeable it turns out can be quite porous This book stands to be an important contribution to the scholarship that is increasingly breaking free of old boundaries

When Coal Was King John Hinde, 2011-11-01 The town of Ladysmith was one of the most important coal mining communities on Vancouver Island during the early twentieth century The Ladysmith miners had a reputation for radicalism and militancy and engaged in bitter struggles for union recognition and economic justice most notably the Great Strike of 1912-14 This strike one of the longest and most violent labour disputes in Canadian history marked a watershed in the history of the town and the coal industry This book explains the origins of the 1912-14 strike by examining the development of the coal industry on Vancouver Island the founding of Ladysmith the experience of work and safety in the mines the process of political and

economic mobilization and how these factors contributed to the development of identity and community While the Vancouver Island coal industry and the strike have been the focus of a number of popular histories this book goes beyond to emphasize the importance of class ethnicity gender and community in creating the conditions for the emergence and mobilization of the working class population Informed by current academic debates on the matter and within the discipline this readable history takes into account extensive archival research and will appeal to historians and others interested in the history of Vancouver Island

Workers on the Waterfront Bruce Nelson, 1990 With working lives characterized by exploitation and rootlessness merchant seamen were isolated from mainstream life Yet their contacts with workers in port cities around the world imbued them with a sense of internationalism These factors contributed to a subculture that encouraged militancy spontaneous radicalism and a syndicalist mood Bruce Nelson's award winning book examines the insurgent activity and consciousness of maritime workers during the 1930s As he shows merchant seamen and longshoremen on the Pacific Coast made major institutional gains sustained a lengthy period of activity and expanded their working class consciousness Nelson examines the two major strikes that convulsed the region and caused observers to state that day to day labor relations resembled guerilla warfare He also looks at related activity from increasing political activism to stoppages to defend laborers from penalties refusals to load cargos for Mussolini's war in Ethiopia and forced boardings of German vessels to tear down the swastika

Citizen Docker Andrew Parnaby, 2008-01-01 After the First World War many Canadians were concerned with the possibility of national regeneration Progressive minded politicians academics church leaders and social reformers turned increasingly to the state for solutions Yet as significant as the state was in articulating and instituting a new morality outside actors such as employers were active in pursuing reform agendas as well taking aim at the welfare of the family citizen and nation Citizen Docker considers this trend focusing on the Vancouver waterfront as a case in point After the war waterfront employers embarked on an ambitious program welfare capitalism to ease industrial relations increase the efficiency of the port and ultimately recondition longshoremen themselves Andrew Parnaby considers these reforms as a microcosm of the process of accommodation between labour and capital that affected Canadian society as a whole in the 1920s and 1930s By creating a new sense of entitlement among waterfront workers one that could not be satisfied by employers during the Great Depression welfare capitalism played an important role in the cultural transformation that took place after the Second World War Encompassing labour and gender history aboriginal studies and the study of state formation Citizen Docker examines the deep shift in the aspirations of working people and the implications that shift had on Canadian society in the interwar years and beyond

Anaconda Laurie Mercier, 2001 Mercier depicts the vibrant life of the smelter city at full steam incorporating the candid sometimes wry commentary of the locals the company furnished three pair of leather gloves and all the arsenic dust you could eat She documents the early history of the town and the distinctive culture of cooperation and activism that residents fostered in the 1930s and 1940s Ultimately their solidarity and discontent

with the company converged in the successful 1934 strike and sustained five decades of devoted unionism During the cold war years Anacondans held to their communal values and to unions in the face of antilabor and anticommunist pressures embracing an alternative Americanism that championed improved living standards for working people rather than unlimited corporate power as the best defense against communism Mercier chronicles the bitter struggle between two rival unions the anticommunist United Steelworkers of America and the red tainted International Union of Mine Mill and Smelter Workers that undercut the town s labor solidarity in the postwar years She also explores how gender definitions especially the male breadwinner ideology and the limits placed on women s political economic and social roles shaped the nature and outcome of labor struggles Mercier carries her investigation through the closing of the smelter in 1980 covering debates over the environment and the community s transformation into a deindustrialized nonunion town Underscoring the role of the community in molding working class consciousness Anaconda offers important insights about the changing nature of working class culture and the real potential for collective action under the midday sun of American industrial capitalism

The Reverend Mark Matthews Dale E. Soden,2013-11-21 When the Reverend Mark Allison Matthews died in February 1940 thousands of mourners gathered at a Seattle church to pay their final respects The Southern born Presbyterian came to Seattle in 1902 He quickly established himself as a city leader and began building a congregation that was eventually among the nation s largest with nearly 10 000 members Throughout his career he advocated Social Christianity a blend of progressive reform and Christian values as a blueprint for building a morally righteous community In telling Matthews s story Dale Soden presents Matthews s multiple facets a Southern born fundamentalist proponent of the Social Gospel a national leader during the tumultuous years of schism within the American Presbyterian church a social reformer who established day care centers kindergartens night classes and soup kitchens a colorful figure who engaged in highly public and heated disputes with elected officials Much of the controversy that surrounded Matthews centered on the proper relationship between church and state an issue that is still hotly debated

Infidels and the Damn Churches Lynne Marks,2017-06-09 British Columbia is at the forefront of a secularizing movement in the English speaking world Nearly half its residents claim no religious affiliation and the province has the highest rate of unbelief or religious indifference in Canada *Infidels and the Damn Churches* explores the historical roots of this phenomenon from the 1880s to the First World War Lynne Marks reveals that class and racial tensions fuelled irreligion in a world populated by embattled ministers militant atheists turn of the century New Agers rough living miners Asian immigrants and church going settler women White working class men often arrived in the province alone and identified the church with their exploitative employers At the same time BC s anti Asian and anti Indigenous racism meant that their whiteness alone could define them as respectable without the need for church affiliation Consequently although Christianity retained major social power elsewhere many people in BC found the freedom to forgo church attendance or espouse atheist views This nuanced study of mobility gender masculinity and family in

settler BC offers new insights into BC's distinctive culture and into the beginnings of what has become an increasingly dominant secular worldview across Canada

Show Town Holly George, 2016-10-26 Like many western boomtowns at the turn of the twentieth century Spokane Washington enjoyed a lively theatrical scene ranging from plays concerts and operas to salacious variety and vaudeville shows Yet even as Spokaneites took pride in their city's reputation as a good show town the more genteel among them worried about its Wild West atmosphere In *Show Town* historian Holly George correlates the clash of tastes and sensibilities among Spokane's theater patrons with a larger shift in values occurring throughout the Inland West and the nation during a period of rapid social change George begins this multifaceted story in 1890 when two Spokane developers built the lavish Auditorium Theater as a kind of advertisement for the young city The new venue catered to a class of people made wealthy by speculation railroads and mining Yet the refined entertainment the Auditorium offered conflicted with the rollicking shows that played in the town's variety theaters designed to draw in the migratory workers primarily single men who provided labor for the same industries that made the fortunes of Spokane's elite As well to do Spokaneites attempted to clamp down on the variety theaters performances at even the city's more respectable legitimate playhouses began to reflect a movement away from Victorian sensibilities to a more modern desire for self fulfillment particularly among women Theaters joined the debate over modern femininity by presenting plays on issues ranging from woman's suffrage to shifting marital expectations At the same time national theater monopolies transmitted to the people of Spokane new styles and tastes that mirrored larger cultural trends Lucidly written and meticulously researched *Show Town* is a groundbreaking work of cultural history By examining one city's theatrical scene in all its complex dimensions this book expands our understanding of the forces that shaped the urban American West

Skid Road Josephine Ensign, 2021-08-03 A compelling look at the historical roots of poverty and homelessness the worthy and unworthy poor and the role of charity health care and public policy in the United States Home to over 730 000 people with close to four million people living in the metropolitan area Seattle has the third highest homeless population in the United States In 2018 an estimated 8 600 homeless people lived in the city a figure that does not include the significant number of hidden homeless people doubled up with friends or living in and out of cheap hotels In *Skid Road* Josephine Ensign digs through layers of Seattle history past its leaders and prominent citizens respectable or not to reveal the stories of overlooked and long silenced people who live on the margins of society The sometimes fragmentary tales of these people their lives and deaths are not included in official histories of a place How

Ensign asks how a large socially progressive city like Seattle responded to the health needs of people marginalized by poverty, mental illness, addiction, racial/ethnic sexual identities, and homelessness. Drawing on interviews and extensive research, Ensign shares a diversity of voices within contemporary health care and public policy debates. Informed by her own lived experience of homelessness as well as over three decades of work as a family nurse practitioner providing primary health care to homeless people, Ensign is uniquely situated to explore the tensions between caregiving and oppression as well as charity and solidarity that polarize perspectives on homelessness throughout the country. A timely story in light of the ongoing health care reform debate, the affordable housing crisis, and the COVID-19 pandemic, the stories from Skid Road illuminate issues surrounding poverty and homelessness throughout America.
