Fathers and Children Michael Paul Rogin, 2017-07-28 Rogin shows us a Jackson who saw the Indians as a menace to the new nation and its citizens This volatile synthesis of liberal egalitarianism and an assault on the American Indians is the source of continuing interest in the sobering and important book

[Savoring Alternative Food](#) Jessica Hayes-Conroy, 2014-09-19 Advocates of the alternative food movement often insist that food is our common ground that through the very basic human need to eat we all become entwined in a network of mutual solidarity In this challenging book the author explores the contradictions and shortcomings of alternative food activism by examining specific endeavours of the movement through various lenses of social difference including class race gender and age While the solidarity adage has inspired many it is shown that this has also had the unfortunate effect of promoting sameness over difference eschewing inequities in an effort to focus on being together at the table The author explores questions of who belongs at the table of alternative food and who gets to decide what is eaten there and what is at stake when alternative food practices become the model for what is right to eat Case studies are presented based on fieldwork in two distinct loci of alternative food organizing school gardens and slow food movements in

Berkeley California and rural Nova Scotia The stories take social difference as a starting point but they also focus specifically on the complexities of sensory experience how material bodies take up social difference both confirming and disrupting it in the visceral processes of eating Overall the book demonstrates the importance of moving beyond a promotion of universal shoulds of eating and towards a practice of food activism that is more sensitive to issues of social and material difference

Postsocial History Miguel A. Cabrera,2004-01-01 In Postsocial History An Introduction historian Miguel A Cabrera points to the crisis of modernity as a locus for the collapse of social historical models Previously established theories of social change and social relations are proving insufficient calling for the emergence of a new social historical theory By arguing convincingly for the inclusion of language in that model Cabrera awakens a revolutionary new approach to historiography The book will prove indispensable to historians and to social scientists in general who are dissatisfied with the old paradigms and seek new ways of addressing the challenges of social research

Harvest Of Fear John Murphy,2019-03-13 How did fears of the Cold War shape Australian images of Asia What was the nature of the Vietnamese revolution which some 50 000 Australian troops failed to reverse in the 1960s How did a small and marginal peace movement grow into the powerful Moratorium and did it have any impact on the course of the War Harvest of Fear is a beautifully crafted

Gender and the Politics of History Joan Wallach Scott,1999 An interrogation of the uses of gender as a tool for cultural and historical analysis The revised edition reassesses the book's fundamental topic the category of gender In arguing that gender no longer serves to destabilize our understanding of sexual difference the new preface and new chapter open a critical dialogue with the original book From publisher description

After The History of Sexuality Scott Spector,Helmut Puff,Dagmar Herzog,2012-07-01 Michel Foucault's seminal The History of Sexuality 1976 1984 has since its publication provided a context for the emergence of critical historical studies of sexuality This collection reassesses the state of the historiography on sexuality a field in which the German case has been traditionally central In many diverse ways the Foucauldian intervention has governed the formation of questions in the field as well as the assumptions about how some of these questions should be answered It can be argued however that some of these revolutionary insights have ossified into dogmas or truisms within the field Yet as these contributions meticulously reveal those very truisms when revisited with a fresh eye can lead to new unexpected insights into the history of sexuality necessitating a return to and reinterpretation of Foucault's richly complex work This volume will be necessary reading for students of historical sexuality as well as for those readers in German history and German studies generally who have an interest in the history of sexuality

Ekurhuleni Phil Bonner, Noor Nieftagodien, 2012-11-01 The first academic work to provide an historical account and explanation of the development of this extended region to the east of Johannesburg since its origins at the end of the nineteenth century From the time of the discovery of gold and coal until the turn of the twenty first century the region comprised a number of distinctive towns all with their own histories In 2000 these towns were amalgamated into a single metropolitan area but unlike its counterparts across the country it does not cohere around a single identity Drawing on a significant body of academic work as well as original research by the authors the book traces and

examines some of the salient historical strands that constituted what was formerly known as the East Rand and suggests that notwithstanding important differences between towns and the racial fragmentation generated by apartheid the region's history contains significant common features Arguably its centrality as a major mining area and then as the country's engineering heartland gave Ekurhuleni an overarching distinctive economic character
