Charles Mahoney

Radical Culture Discourse Resistance And Surveillance 1790 1829:

A Companion to Romantic Poetry Charles Mahoney, 2010-12-21 Through a series of 34 essays by leading and emerging scholars *A Companion to Romantic Poetry* reveals the rich diversity of Romantic poetry and shows why it continues to hold such a vital and indispensable place in the history of English literature Breaking free from the boundaries of the traditionally studied authors the collection takes a revitalized approach to the field and brings together some of the most exciting work being done at the present time Emphasizes poetic form and technique rather than a biographical approach Features essays on production and distribution and the different schools and movements of Romantic Poetry Introduces contemporary contexts and perspectives as well as the issues and debates that continue to drive scholarship in the field Presents the most comprehensive and compelling collection of essays on British Romantic poetry currently available

British Romanticism and the Catholic Question M. Tomko, 2010-11-17 The debate over extending full civil rights to British and Irish Catholics not only preoccupied British politics but also informed the romantic period's most prominent literary works This book offers the first comprehensive interdisciplinary study of Catholic Emancipation one of the romantic period's most contentious issues **Britain in the Hanoverian Age, 1714-1837** Gerald Newman, Leslie Ellen Brown, 1997 In 1714 king George I ushered in a remarkable 123 year period of energy that changed the face of Britain and ultimately had a profound effect on the modern era The pioneers of modern capitalism industry democracy literature and even architecture flourished during this time and their innovations and influence spread throughout the British empire including the United States Now this rich cultural period in Britain is effectively surveyed and summarized for quick reference in a first of its kind encyclopedia which contains entries by British Canadian American and Australian scholars specializing in everything from finance and the fine arts to politics and patent law More than 380 illustrations mostly rare engravings enhance the coverage which runs the whole gamut of political economic literary intellectual artistic commercial and social life and spotlights some 600 prominent individuals and families **Bard of Liberty** Geraint H. Jenkins, 2012-07-15 This is the first full scale study of the political radicalism of Iolo Morganwg the renowned Welsh romantic whose colourful life as a Glamorgan stonemason poet writer political activist and humanitarian made him one of the founders of modern Wales This path breaking volume offers a vivid portrait of a natural contrarian who tilted against the forces of the establishment for the whole of his adult life Known as the Bard of Liberty or the little republican bard he moved in highly politicized circles embraced republicanism founded the Gorsedd of the Bards of the Isle of Britain threw in his lot with Unitarians promoted a sense of cultural nationalism and supported the anti slave trade campaign and the anti war movement during years of war oppression and cruelty

Phantom Terror Adam Zamoyski, 2015-02-10 For the ruling and propertied classes of the late eighteenth century the years following the French Revolution were characterized by intense anxiety Monarchs and their courtiers lived in constant fear of rebellion convinced that their power and their heads were at risk Driven by paranoia they chose to fight back against

every threat and insurgency whether real or merely perceived repressing their populaces through surveillance networks and violent secretive police action Europe and the world had entered a new era In Phantom Terror award winning historian Adam Zamoyski argues that the stringent measures designed to prevent unrest had disastrous and far reaching consequences inciting the very rebellions they had hoped to quash The newly established culture of state control halted economic development in Austria and birthed a rebellious youth culture in Russia that would require even harsher methods to suppress By the end of the era the first stirrings of terrorist movements had become evident across the continent making the previously unfounded fears of European monarchs a reality Phantom Terror explores this troubled fascinating period when politicians and cultural leaders from Edmund Burke to Mary Shelley were forced to choose sides and either support or resist the counterrevolutionary spirit embodied in the newly omnipotent central states The turbulent political situation that coalesced during this era would lead directly to the revolutions of 1848 and to the collapse of order in World War I We still live with the legacy of this era of paranoia which prefigured not only the modern totalitarian state but also the now preeminent contest between society's haves and have nots These tempestuous years of suspicion and suppression were the crux upon which the rest of European history would turn In this magisterial history Zamoyski chronicles the moment when desperate monarchs took the world down the path of revolution terror and world war

Bardic Circles Cathryn Charnell-White, 2007 Bardism was the idiosyncratic vision of the Romantic forger Iolo Morganwg a radical Druid revival that asserted Welsh identity and downplayed the influence of Christianity It furnished the Welsh nation with a pantheon of heroes asserted liberty equality freedom of speech and opposition to war and repudiated the tired contemporary stereotype of the barbarous Celt Bardic Circles discusses the national religious and personal identities made explicit in Bardism and its relation to Iolo's self definition Romantic forgeries and contemporary Welsh self image
