Radical Enlightenment Philosophy And The Making Of Modernity 1650 1750:

Radical Enlightenment Jonathan Irvine Israel, 2001 Readership Readers with an interest in the European Enlightenment intellectual and cultural historians scholars and students of philosophy Radical Enlightenment Jonathan Irvine Israel, 2001 This is a study of the origins and rise of the Radical Enlightenment The book analyses the enlightenment's role in the demolition of traditional structures of authority scientific thought and belief Radical Enlightenment Jonathan Irvine Israel, 2001 The Radical Enlightenment was a revolutionary set of ideas which helped lay the foundations of the modern world on the basis of equality democracy secular values and universality This controversial and original study by the internationally renowned cultural historian Jonathan I Israel shows how Spinoza and his thought set the intellectual current towards the intellectual and political revolutions of the later eighteenth century **Kant's Rational Religion and the Radical Enlightenment** Anna Tomaszewska, 2022-07-28 Kant's defence of religion and attempts to reconcile faith with reason position him as a moderate Enlightenment thinker in existing scholarship Challenging this view and reconceptualising Kant's religion along rationalist lines Anna Tomaszewska sheds light on its affinities with the ideas of the radical Enlightenment originating in the work of Baruch Spinoza and understood as a critique of divine revelation Distinguishing the epistemological ethical and political aspects of such a critique Tomaszewska shows how Kant's defence of religion consists of rationalizing its core tenets and establishing morality as the essence of religious faith She aligns him with other early modern rationalists and German Spinozists and reveals the significance for contemporary political philosophy Providing reasons for prioritizing freedom of thought and hence religious criticism over an unqualified freedom of belief Kant's theology approximates the secularising tendency of the radical Enlightenment Here is an understanding of how the shift towards a secular outlook in Western culture was shaped by attempts to rationalize rather than uproot Christianity *Islam in Education in European Countries. Pedagogical Concepts and Empirical Findings* Aurora Alvarez Veinguer, Gunther Dietz, Dan-Paul Jozsa, Thorsten Knauth, 2009 Relations between Muslims and the public education systems of Europe are often characterised by tensions There is often still a perceived incompatibility between the claims of individual Muslims or Muslim communities on the one hand and the aims of public education in Europe on the other The relatively recent presence of Islam in much of Europe the internal diversity of Muslim communities the lack of a centralized hierarchical church like structure different arguments are used to justify such a discriminatory treatment of one of the largest faith communities in Europe Nevertheless as this book aims to illustrate there are already rich and diverse experiences throughout Europe of how to integrate Islam into the national and regional school systems particularly in primary but also in secondary education Accordingly this book provides some analyses of the ways in which Islam is integrated in education in certain regions of Spain the Netherlands France and England These analyses are paralleled by empirical findings concerning the role of religion in the life of young Muslims their views concerning religion in school and the impact of religion in education and

society in Spain the Netherlands Norway Germany France and England *Revolutionary Europe 1780-1850* Jonathan Sperber,2017-04-21 Jonathan Sperber's *Revolutionary Europe 1780-1850* is a history of Europe in the age of the French Revolution from the end of the old regime to the outcome of the revolutions of 1848 Fully revised and updated this second edition provides a continent wide history of the key political events and social transformation that took place within this turbulent period extending as far as their effects within the European colonial society of the Caribbean Key features include analyses of the movement from society's old regime of orders to a civil society of property owners the varied consequences of rapid population increase and the spread of market relations in the economy and the upshot of these changes for political life from violent revolutions and warfare to dramatic reforms and peaceful mass movements a lively account of the events of the period and a thorough analysis of the political cultural and socioeconomic transformations that shaped them a look into the lives of ordinary people amidst the social and economic developments of the time a range of maps depicting the developments in Europe's geographic scope between 1789 and 1848 including for the 1820 1830 and 1848 revolutions *Revolutionary Europe 1780-1850* is the perfect introduction for students of the history of the French Revolution and the history of Europe more broadly **Motion and Knowledge in the Changing Early Modern World** Ofer Gal,Yi Zheng,2013-11-08 This volume comprises studies of the early modern drama of motion and transformation of knowledge It is unique in taking its global nature as fundamental and contains studies of the theme of motion and knowledge in China Europe and the Pacific from the 16th to the 18th century People living around the turn of the 17th century were experiencing motion in ways beyond the grasp of anyone less than a century earlier Goods and people were crossing lands and oceans to distances never envisioned and in scales hardly imaginable by their recent predecessors The earth itself has been set in motion and the heavens were populated by a whole new array of moving objects comets moons sun spots Even the motion of terrestrial objects so close at hand and seemingly obvious was being thoroughly reshaped In the two centuries to follow this incessant world changing motion would transform the creation interpretation and dissemination of knowledge and the life and experiences of the people producing it savants artisans pilots collectors **Genealogies of the West** Jaume Aurell,2023-02-14 *Genealogies of the West* presents a new look at the West by tracing the still recognizable footprints of the past and reflecting on the present challenges it faces Through a review of its rich and often controversial history it recalls the genealogies of the plural processes ideas characters and events that structure the West's tradition and identity and their presence nowadays It shows the faces of the Modernity and its most relevant achievements such as the state capitalism science technology ideologies and enlightenments and how they are being revised nowadays by postmodernity This helps readers gain perspective gives clues for understanding the complexities of the past challenges some pre assumed historical inaccuracies identifies its weight and presence in the present and projects these thoughts toward the future **Not in the Heavens** David Biale,2010-10-18 The story of the origins and development of a Jewish form of secularism *Not in the Heavens*

traces the rise of Jewish secularism through the visionary writers and thinkers who led its development. Spanning the rich history of Judaism from the Bible to today, David Biale shows how the secular tradition these visionaries created is a uniquely Jewish one and how the emergence of Jewish secularism was not merely a response to modernity but arose from forces long at play within Judaism itself. Biale explores how ancient Hebrew books like Job, Song of Songs, and Esther downplay or even exclude God altogether and how Spinoza, inspired by medieval Jewish philosophy, recast the biblical God in the role of nature and stripped the Torah of its revelatory status to instead read scripture as a historical and cultural text. Biale examines the influential Jewish thinkers who followed in Spinoza's secularizing footsteps, such as Salomon Maimon, Heinrich Heine, Sigmund Freud, and Albert Einstein. He tells the stories of those who also took their cues from medieval Jewish mysticism in their revolts against tradition, including Hayim Nahman Bialik, Gershom Scholem, and Franz Kafka. And he looks at Zionists like David Ben-Gurion and other secular political thinkers who recast Israel and the Bible in modern terms of race, nationalism, and the state. *Not in the Heavens* demonstrates how these many Jewish paths to secularism were dependent in complex and paradoxical ways on the very religious traditions they were rejecting and examines the legacy and meaning of Jewish secularism today.

Encounters on the Opposite Coast: The Dutch East India Company and the Nayaka State of Madurai in the Seventeenth Century Markus Vink, 2015-10-14 In *Encounters of the Opposite Coast*, Markus Vink provides a narrative of the first half century of cross-cultural interaction between the Dutch East India Company (VOC), one of the great northern European chartered companies, and Madurai, one of the great southern Nayaka and successor states of the Vijayanagara empire in southeast India, c. 1645-1690. A shared interest in trade and at times converging political objectives formed the unstable foundations for a complex relationship fraught with tensions, a mixture of conflict and coexistence typical of the age of contained conflict. Drawing extensively on archival materials, Markus Vink covers a topic neglected by both Company historians and their Indian counterparts and sheds important light on a black hole in South Indian history.

Free Speech Jacob Mchangama, 2022-02-08 The best history of free speech ever written and the best defense of free speech ever made. P. J. O'Rourke hailed it as the first freedom of free speech is the bedrock of democracy. But it is a challenging principle, subject to erosion in times of upheaval. Today, in democracies and authoritarian states around the world, it is on the retreat. In *Free Speech*, Jacob Mchangama traces the riveting legal, political, and cultural history of this idea. Through captivating stories of free speech's many defenders, from the ancient Athenian orator Demosthenes and the ninth-century freethinker Al-Razi to the anti-lynching crusader Ida B. Wells and modern-day digital activists, Mchangama reveals how the free exchange of ideas underlies all intellectual achievement and has enabled the advancement of both freedom and equality worldwide. Yet the desire to restrict speech too is a constant, and he explores how even its champions can be led down this path when the rise of new and contrarian voices challenge power and privilege of all stripes. Meticulously researched and deeply humane, *Free Speech* demonstrates how much we have gained from this principle and how much we

Spinoza's Religion Clare Carlisle, 2021-09-07 A bold reevaluation of Spinoza that reveals his powerful inclusive vision of religion for the modern age Spinoza is widely regarded as either a God forsaking atheist or a God intoxicated pantheist but Clare Carlisle says that he was neither In Spinoza's Religion she sets out a bold interpretation of Spinoza through a lucid new reading of his masterpiece the Ethics Putting the question of religion centre stage but refusing to convert Spinozism to Christianity Carlisle reveals that being in God unites Spinoza's metaphysics and ethics Spinoza's Religion unfolds a powerful inclusive philosophical vision for the modern age one that is grounded in a profound questioning of how to live a joyful fully human life Like Spinoza himself the Ethics doesn't fit into any ready made religious category But Carlisle shows how it wrestles with the question of religion in strikingly original ways responding both critically and constructively to the diverse broadly Christian context in which Spinoza lived and worked Philosophy itself as Spinoza practiced it became a spiritual endeavor that expressed his devotion to a truthful virtuous way of life Offering startling new insights into Spinoza's famously enigmatic ideas about eternal life and the intellectual love of God Carlisle uncovers a Spinozist religion that integrates self knowledge desire practice and embodied ethical life to reach toward our highest happiness to rest in God Seen through Carlisle's eyes the Ethics prompts us to rethink not only Spinoza but also religion itself
