RADICAL INTIMACY, RADICAL LOVE. DAMIAN. WESTFALL, 2021 Radical Intimacy Robert Augustus Masters, 1992 Godsends William Desmond, 2021-11-15 Godsends is William Desmond s newest addition to his masterwork on the borderlines between philosophy and theology For many years William Desmond has been patiently constructing a philosophical project replete with its own terminology idiom grammar dialectic and its metaxological

transformation in an attempt to reopen certain boundaries between metaphysics and phenomenology between philosophy of religion and philosophical theology between the apocalyptic and the speculative and between religious passion and systematic reasoning In Godsend's Desmond's newest addition to his ambitious masterwork he presents an original reflection on what he calls the companioning of philosophy and religion Throughout the book he follows an itinerary that has something of an Augustinian likeness from the exterior to the interior from the inferior to the superior The stations along the way include a grappling with the default atheism prevalent in contemporary intellectual culture an exploration of the middle space the metaxu between the finite and the infinite a dwelling with solitudes as thresholds between selving and the sacred a meditation on idiot wisdom and transcendence in an East West perspective an exploration of the different stresses in the mysticisms of Aurobindo and the Arnhem Mystical Sermons a dream monologue of autonomy a suite of Kantian and post Kantian variations on the story of the prodigal son a meditation on the beatitudes as exceeding virtue in light of Aquinas's understanding and culminating in an exploration of Godsend's as telling us something significant about the surprise of revelation in word idea and story Godsend's is written for thoughtful persons and scholars perplexed about the place of religion in our time and hopeful for some illuminating companionship from relevant philosophers It will also interest students of philosophy and religion especially philosophical theology and philosophical metaphysics

Staying Together Kaushani

Mondal, 2023-12-19 Staying Together Natureculture in a Changing World is about staying together living together and the dynamics and poetics of togetherness It demonstrates through a strong investment in nature studies nonhuman studies and nature culture and cohabitative readings a commitment to interconnectedness The contributors speak of co habitation a kind of co presence that happens for the good of all and has been happening before we realized its prevalence They argue co beingness is deeply founded in difference differentiation and dispersion They explore and investigate this fraught and profound weness at a variety of levels and look at forms of biocentrism and bioegalitarianism where there are opportunities for the affirmation of difference as much as declaration of complexities in co specicism co occurrence and co being The book

answers the following questions How can the complexity of sustainability and survivality lead us to re planetize the planet Are we unworlding an Earth where the meaning and ethos being together demand reinvention and rearticulation

Embodied Spirituality in a Sacred World Michael Washburn, 2012-02-01 Anyone seeking a deeper understanding of human spirituality will find something of value in Michael Washburn's new book Drawing on a rich variety of psychoanalytic Jungian and existential phenomenological sources and on both Western and Asian spiritual texts Embodied Spirituality in a Sacred World provides a theoretical foundation for the idea that human development follows a spiral path Washburn shows that ego development early in life requires us to turn our backs on original sources of our existence and therefore that spiritual development later in life requires us to spiral back to these sources on the way to whole psyche integration He elucidates the underlying causes and pivotal events that set development on its spiral course and traces six major dimensions of experience as they unfold along the spiral path the unconscious the energy system the ego system the perceived other the experiential body and the life world In providing a theoretical foundation for the idea of the spiral path Washburn defends the idea against its critics and helps explain why the idea has been compelling to so many people in diverse traditions

Encountering Dragonfly Brooke Williams, 2025-04-08 A glittering gem of a book Sy Montgomery author of The Soul of an Octopus Following dragonflies into the territory between nature and the human psyche Two decades ago naturalist and environmental writer Brooke Williams had a powerful dream about a dragonfly a dream that cracked open his world by giving rise to a steady stream of dragonfly encounters in his waking life In the years since he has delved deeply into the fascinating biology and natural history of dragonflies and made pilgrimages to see them he now has 38 species on his life list while also exploring their symbolic meaning and cross cultural significance Encountering Dragonfly is his account related in a series of odonate encounters of being drawn into a different kind of relationship with the natural world By opening himself to the personal and mytho poetic meanings of dragonfly and patiently courting an understanding of these creatures that is built upon but also transcends a naturalist's observation Brooke has come to believe in the importance of re enchantment Many scholars believe that for most of human history we lived in an enchanted world in which myth and magic ritual and stories and spirits informed every aspect of our lives The enchantment ended with the Enlightenment and modernity when reason and scientific discovery explained away the magic commencing a commodification of nature that has flourished ever since Brooke's personal re enchantment has required of him a faith that material biological reality isn't the only reality it recognizes symbols and archetypes as remnants of a different understanding which may as perhaps they always have play a role in our long term survival In many cultures the dragonfly carries messages between the inner and outer world For Brooke Williams the message of the dragonfly is to ask questions about synchronicity awe and the collective unconscious and how to engage with a world increasingly out of balance What are the implications of following a path toward greater enchantment In a time where engagement with the political and social realities of climate change and environmental degradation can't

possibly be valued highly enough can we afford to choose such a path Perhaps more to the point can we afford not to

Entangled Things Alison Hulme, 2024-08-22 *Entangled Things* takes the concept of entanglement as its starting point in investigating the relationship between us and the material things we engage with Each chapter illustrates a particular form of entanglement desiring things hoarding things creating things ridding ourselves of things using ethnographic examples and theoretical perspectives Hulme encourages a wider consideration of the place of humans in the world and the kind of choices we enact when influenced by the material things around us She explores our relationships with material objects in light of both personal and planetary space and personal and historical time from the space in our homes storage spaces landfill and oceans to the times in our lives and the times in wider shared histories that things connect us to not to mention our sense of time and our own place in the world In so doing Hulme intentionally places discussions on our entanglement with things squarely back into the context of the Anthropocene with a provocative analysis in which the Anthropocene is posited as a concept which on one hand takes away human agency placing us in the context of immense geological epochs whilst on the other hand pushes agency upon humans blaming us for the extreme challenges of the current era and looking to us to solve those challenges For Hulme material things are instrumental in helping us to grasp our existential place in the world and weave a way through the complications of living in epochal times

On Cuddling Phaniel Antwi, 2023-11-20 An urgent and elegant book excavating the many meanings of cuddling under racial capitalism Lyrical and powerful Sophie K Rosa author of *Radical Intimacy* Will take its place among books by Christina Sharpe Saidiya Hartman and Hazel Carby that investigate the violence of intimacy and the intimacy of violence Jack Halberstam author of *Wild Things* Ranging from the terrifying embrace of the slave ship's hold to the racist encoding of cuddly toys *On Cuddling* is a unique combination of essay and poetry that contends with the way racial violence is enacted through intimacy Informed by Black feminist and queer poetics Phaniel Antwi focuses his lens on the suffering of Black people at the hands of state violence and racial capitalism As radical movements grow to advance Black liberation so too must our ways of understanding how racial capitalism embraces us all Antwi turns to cuddling an act we imagine as devoid of violence and explores it as a tense transfer point of power Through archival documents and multiple genres of writing it becomes clear that the racial violence of the state and economy has always been about the mismanagement of intimacies Phaniel Antwi is Canada Research Chair in Black Arts and Epistemologies He is a curator activist and associate professor at the University of British Columbia

The Amorous Imagination D. Andrew Yost, 2021-08-01 In The Amorous Imagination D Andrew Yost builds upon Jean Luc Marion s phenomenology of love to argue that through the interpretive activities of the imagination the Beloved appears to the lover as this Other not the Other Weaving together insights from Romantic thought and contemporary French philosophy Yost describes the distinctive role the imagination plays in individuating another person so that they appear radically unique special and unsubstitutable This radical uniqueness or haecceitas emerges out of the lovers engagement in an endless hermeneutic an ongoing process of creative and responsive meaning making that grounds the lovers lives in each other and opens them up to new possibilities All of this Yost argues is made possible by the amorous imagination Drawing from the deep well of love poetry mythology philosophy and literature The Amorous Imagination comes to the provocative conclusion that without the productive power of the imagination love itself could not emerge **The Inner Chapel** Becky

Eldredge, 2020-04-07 2021 Illumination Book Awards Gold Medal Spirituality What is the inner chapel The place within where God meets us We can trust God and we can trust in God s promises to us including We are never alone We are loved unconditionally We have a companion in our suffering Each of us has a unique call But how do we experience all that God has given us By going to the inner chapel that sacred place within each person where God waits to love us unconditionally There God gives us all we need to find our way to a life of hope instead of despair peace instead of continued restlessness and joy instead of anxiety Becky Eldredge offers readers down to earth stories prayer experiences to try and enthusiastic encouragement for spiritual growth and a deeper friendship with God The Inner Chapel will inspire individuals but also provide excellent material for small groups and people going on retreat A Political Economy of Attention, Mindfulness and Consumerism Peter Doran, 2017-07-14 The power of capital is the power to target our attention mould market ready identities and reduce the public realm to an endless series of choices This has far reaching implications for our psychological

physical and spiritual well being and ultimately for our global ecology In this consumer age the underlying teachings of Buddhist mindfulness offer more than individual well being and resilience They also offer new sources of critical inquiry into our collective condition and may point in time to regulatory initiatives in the field of well being This book draws together lively debates from the new economics of transition commons and well being consumerism and the emerging role of mindfulness in popular culture Engaged Buddhist practices and teachings correspond closely to insights in contemporary political philosophical investigations into the nature of power notably by Michel Foucault The attention economy can be understood as a new arena of struggle in our age of neoliberal governmentality as the forces of enclosure having colonized forests land and the bodies of workers are now extended to the realm of our minds and subjectivity This poses questions about the recovery of the mindful commons the practices we must cultivate to reclaim our attention time and lives from the forces of capitalization This is a valuable resource for students and scholars of environmental philosophy environmental psychology environmental sociology well being and new economics political economy environmental politics the commons and law as well as Buddhist theory and philosophy
