## **Radio Directing:**

**Radio Directing** Earle McGill,1940      Radio Directing (Classic Reprint) Earle McGill,2015-08-04 Excerpt from Radio Directing The past ten years have witnessed a phenomenal growth in the number of radio courses offered in our colleges and universities Instructors unaware of the differences between a kilocycle and a decibel and vaguely suspicious that radio was the poor relative of the theatre concert hall lecture platform and classroom have had the responsibility for such courses thrust upon them When confronted with both students and a baffling array of gadgets they have searched desperately for a written document that would aid them in meeting their situation During this same period others have become increasingly familiar with the medium and its use As their familiarity has grown the conviction has deepened that to give a radio course solidity a book must be available that would treat the fundamental problems of production sanely and practically Earle McGill has written such a book In it the novice will find practical guidance and counsel The initiate will profit by the same guidance but more importantly he will discover a treatment of the subject that his own experience will tell him derives from the richer experience of a fellow worker It is fortunate that the first serious attempt to treat radio production has been written by one who makes his living in radio Those of us concerned with broadcasting courses in colleges and universities because of the nature of our jobs are seldom able to devote all of our time and energy to radio Hence our knowledge of the medium the variety of programs that it utilizes the many major and minor crises that prematurely age the director and the harsh disciplines that radio imposes on its workers lacks the intimacy and reality of the knowledge of one to whom these matters make the difference between holding and losing a job Within these pages most readers will agree that a structure of practical advice has been reared on the solid base of a sane philosophy about radio Herein one will find no arty nonsense About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      **Circular** Patricia Beall Hamill,1930      Guide for Occupational Exploration United States. Employment and Training Administration,1979      **Play It Again, Sam** Andrew Horton,Stuart Y. McDougal,2024-03-29 This title was originally published in 1998 Play It Again Sam is a timely investigation of a topic that until now has received almost no critical attention in film and cultural studies the cinematic remake As cinema enters its second century more remakes are appearing than ever before and these writers consider the full range Hollywood films that have been recycled by Hollywood such as The Jazz Singer Cape Fear and Robin Hood foreign films including Breathless and Three Men and a Cradle which Hollywood has reworked for American audiences and foreign films based on American works

among them Yugoslav director Emir Kusturica's *Time of the Gypsies* which is a makeover of Coppola's *Godfather* films. As these essays demonstrate, films are remade by other films. Alfred Hitchcock went so far as to remake his own *The Man Who Knew Too Much* and by other media as well. The editors and contributors draw upon narrative film and cultural theories and consider gender, genre and psychological issues, presenting the remake as a special artistic form of repetition with a difference and as a commercial product aimed at profits in the marketplace. The remake flourishes at the crossroads of the old and the new, the known and the unknown. *Play It Again Sam* takes the reader on an eye-opening tour of this hitherto unexplored territory. This title is part of UC Press's *Voices Revived* program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high quality peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1998. **Bulletin** United States. Office of Education, 1952. **Statistics of Land-grant Colleges and Universities** United States. **Sparks** Simon Longman, 2015-12-11. Remember you saying you could speak to anything if you wanted to? Right? Did you say that? Remember that? Said you could speak to the stars? Just had to know how to do it. It's raining in the Midlands. Again. It won't stop. Someone's standing in it. They're shivering. They're cold. They're waiting for someone they haven't seen in a very long time. They've got a rucksack full of alcohol. And a fish. A touching play about abandoned responsibilities, what we choose to remember and what we thought we'd forgotten. This programme text edition was published to coincide with the world premiere at the Old Red Lion theatre, London, on 10 November 2015. Producers on Producing Irv Broughton, 2025-02-21. Imre Horvath, producer of *60 Minutes*, was asked how to get to talk to inaccessible people. People that are busy are scheduled tight: it's at 5:00 and 6:00 that they're back in their office to unwind. There's a kind of resonance or sympathy that springs up. Oh, you're still in your office too. Twenty-two interviews feature the producers or creators of *Mister Rogers*, *Highway Patrol*, *Sea Hunt*, *The Cisco Kid*, *The Tonight Show*, *Rockford Files*, *Falcon Crest*, *Gunsmoke*, *Family Feud* and *Roots*, among others. These people offer opinions on the producer's role, the creation and packaging of different program genres, getting the best from the production team, tips for success and, of course, personalities and personal moments. Honest and intelligent, these interviews give the reader a fascinating view of the industry. Aviation Week, Including Space Technology, 1927.
