**Decolonial Environmentalisms** David J. Vázquez, 2025-07-01 A critical examination of the environmental movement and the Latinx voices that are shifting how to think about a future shaped by climate change In *Decolonial Environmentalisms* David Vázquez argues that the mainstream environmental movement is implicated in racial capitalism not least through its ignorance of environmental justice as it pertains to Latinx people Through close readings of

eco minded novels films visual art and short stories by Chicana Puerto Rican Dominican Cuban American Peruvian and Central American culture makers Viquez surfaces diverse Latinx visions for an equitable and sustainable humanity In the creations of Helena María Viramontes Ester Hernández Salvador Plascencia the printmaking collective Dominican York Proyecto GRAFICA and others Viquez locates a bracing critique of racist elisions and assumptions in hegemonic environmentalist thought At the same time he shows that the roles of Latinx people in the exploitation of the US West and the ruin of Indigenous communities are ripe for self examination in hopes of sparking reform Indeed Decolonial Environmentalisms is a work of guarded optimism finding glimmers of possibility even in dystopic science fiction The overlooked experiences of Latinx people Viquez suggests can inspire environmental movements capable of transformative advocacy

**Chinatown** Jeffrey Scott McIlwain, 2014-10-01 More than a century ago organized criminals were intrinsically involved with the political social and economic life of the Chinese American community In the face of virulent racism and substantial linguistic and cultural differences they also integrated themselves successfully into the extensive underworlds and corrupt urban politics of the Progressive Era United States The process of organizing crime in Chinese American communities can be attributed in part to the larger politics that created opportunities for professional criminals For example the illegal traffic in women laborers and opium was an unintended consequence of yellow peril laws meant to provide social control over Chinese Americans Despite this hostile climate Chinese professional criminals were able to form extensive multiethnic social networks and purchase protection and some semblance of entrepreneurial equality from corrupt politicians police officers and bureaucrats While other Chinese Americans worked diligently to remove racist laws and regulations Chinatown gangsters saw opportunity for profit and power at the expense of their own community Academics the media and the government have claimed that Chinese organized crime is a new and emerging threat to the United States Focusing on events and personalities and drawing on intensive archival research in newspapers police and court documents district attorney papers and municipal reports as well as from contemporary histories and sociological treatments this study tests that claim against the historical record Killer Weed Susan C. Boyd, Connie Carter, 2014-02-05 Since the late 1990s marijuana grow operations have been identified by media and others as a new and dangerous criminal activity of epidemic proportions With Killer Weed Susan C Boyd and Connie Carter use their analysis of fifteen years of newspaper coverage to show how consensus about the dangerous people and practices associated with marijuana cultivation was created and disseminated by numerous spokespeople including police RCMP and the media in Canada The authors focus on the context of media reports in Canada to show how claims about marijuana cultivation have intensified the perception that this activity poses significant dangers to public safety and thus is an appropriate target for Canada's war on drugs Boyd and Carter carefully show how the media draw on the same spokespeople to tell the same story again and again and how a limited number of messages has led to an expanding anti drug campaign that uses not only police but BC Hydro and local municipalities to crack down on drug production Going beyond the newspapers Killer Weed examines how legal political and

civil initiatives that have emerged from the media narrative have troubling consequences for a shrinking Canadian civil society
