*Strategies for the Global Economic System for 2030* Elena G. Popkova,Artem I. Krivtsov,Aleksei V. Bogoviz,2021-07-19 Against the background of continuing crises in the world s economy the question of what future awaits it in the third decade of the 21st century has become urgent According to the paradigm model of long waves the next global economic crisis is expected to transpire somewhere around 2030 This book defines the basic conditions for the development of the modern global economy analyzing future scenarios for its long term development and providing applied recommendations for the

practical implementation of the optimal scenario The book first explores the conceptual vision of the future and the priorities for the strategic development of the global economic system until 2030 It then formulates the requirements for entrepreneurship to achieve the priorities of the strategic development of the global economic system including long term industry solutions for entrepreneurship and markets Third it outlines the guidelines for state regulation of the global economic system in the interest of achieving the priorities of its strategic development in the period up to 2030 **Railway Age** ,1934 **Modern Economic Regulation** Christopher Decker,2023-06-08 Economic regulation affects us all shaping how we access essential services such as water energy and transport as well as how we communicate with one another in the digital world Modern Economic Regulation describes the core insights of economic theory on which regulatory policies are based and connects this with evidence of how regulation is applied It focuses on fundamental questions such as why are certain industries regulated What principles can inform regulation How is regulation implemented Which regulatory policies have been more or less effective in practice All chapters in this second edition are fully updated to reflect the latest research and evidence while five new chapters cover behavioural economics and the regulation of rail aviation payment systems and digital platforms Each chapter contains discussion questions and topical case studies and online materials include over 60 applied exercises that explore real life regulatory problems from around the world Army Service Forces Manual ,1944

Explaining Railway Reform in China Linda Tjia Yin-nor,2015-10-14 Having been state owned for decades the railway reform in China confused many people particularly in terms of its ownership and property rights arrangements Western literature always prescribes that the best model for railway reform is privatization China s leadership has also enunciated the state s determination to re arrange property rights and rejuvenate corporate governance But is China s railway reform really a story of convergence and will the Chinese government follow the western model of railway reform Addressing these questions this book provides a positive explanation of the reform in China s railway sector between 1978 and the dissolution of the Ministry of Railways It bridges the socialist reform and transport policy literature and studies the empirical changes of the property rights arrangements in China s railway system Refuting the convergence theory it concludes that the cyclical reform policies of decentralization and re centralization were actually an exploratory and interactive mechanism of assets discovery and assets recovery This in depth study is based on 21 face to face interviews with railway cadres as well as field trips to collect first hand information in Guangzhou Beijing Shanghai Tianjin and Wuhan As one of the only empirical studies on the reform of the railway sector in China this book will be of interest to students and scholars of China studies Transport studies and Political Economy **Changing Trains** Didier van de Velde,2018-12-17 Published in 1999 The book presents and compares the new relationships between transport authorities and railway companies in a number of countries Great Britain Sweden Japan Germany Switzerland and France It also presents a number of case studies focusing on the role of contracts competition and tendering and presenting the achievements of the new regimes so far This book is aimed at all

transport professionals authorities and academics interested in the increasing use of competition in the passenger railway sector

**Chinese Railways in the Era of High Speed** Zhenhua Chen, Kingsley E. Haynes, 2015-09-07 This book reflects on experiences in other countries and makes recommendations for improving the capability and capacity of institutions and organizations in order to achieve sustainable development of the Chinese high speed railway HSR system

*Competition for Public Transport Services* Arne Beck, 2012-03-23 This book evaluates the successes failures and factors that influence the competition for public bus transport services Using Germany as a case study the author explains the dichotomous system of a market with licenses for commercial services where operators are granted exclusivity and licenses for non commercial services where supplementary direct subsidies are tendered out by public transport authorities The empirical analysis is based on primary data usually not publicly available and supplemented by numerous expert interviews The book aims to provide a basic understanding of the players and their options offer insights into the German model and make policy recommendations for those whose goal is to increase competition
