Inscribed Power Ryan D. Giles, 2017-09-18 In *Inscribed Power* Ryan D. Giles explores the function of amuletic prayers, divine names, and incantation formulas that were inscribed and printed on parchment paper and other media and at the same time inserted into classic literary works in Spain. Giles' insightful analysis of the intersection between amulets and literary texts offers fresh and original interpretations of well-known texts such as the *Poema de m o Cid*, the *Libro de Alexandre*, the *Libro de buen amor*, *Celestina*, *Lazarillo de Tormes*, and the *Busc n*. *Inscribed Power* is a fascinating work that highlights specific amuletic texts that were used to heal, protect, or otherwise provide a blessing or curse to discover how their powers could influence fictional lives at different moments in the development of Spanish literature. **Inscribed Landscapes**

Bruno David, Meredith Wilson, 2002-01-01 Annotation *Inscribed Landscapes* explores the role of inscription in the social construction of place, power, and identity. Bringing together twenty-one scholars across a range of fields—primarily archaeology, anthropology, and geography—it examines how social codes and hegemonic practices have resulted in the production of particular senses of place, exploring the physical and metaphysical marking of place as a means of accessing social history.

Juan Gelman, 2024-12-01 One of Latin America's most important poets of the twentieth century, Juan Gelman (1930–2014) spent much of his life in exile from his native Argentina during the Dirty War. Gelman was a child of Yiddish-speaking Ukrainian immigrants and a significant, seldom-recognized portion of his poetry dealt with Jewish themes. He established a dialogue across time with Santa Teresa de vila and San Juan de la Cruz, the sixteenth-century Spanish mystical poets whose ancestry was also Jewish. He rewrote portions of the Bible, medieval Hebrew poetry, and even taught himself Ladino, the language of Sephardic Jews, and wrote a book of poems in it. In this bilingual volume, celebrated scholar Ilan Stavans retraces Gelman's regard for these poetic ancestors, translating into English his Jewish oeuvre by carefully preserving the Hebrew, Spanish, and Ladino echoes of the originals. The result is historically accurate and artistically exhilarating, repositioning Gelman as a major Jewish writer of the last century.

Thomas Moran Thomas Moran, Anne Morand, 1996 This illustrated catalog of Thomas Moran's field sketches includes an interpretive essay tracing the artist's seventy-year career in the field, a chronological, stylistic, and geographical survey of his fieldwork, an illustrated checklist of the 1080 sketches in public collections. Moran is best known for his work in the American West during the post-Civil War expansion, particularly in what would become Yellowstone, Grand Canyon, and Yosemite National Parks. Yet this virtuoso painter and draftsman also traveled in search of inspiration in Pennsylvania, New York's Long Island, Florida, Wisconsin, Mexico, England, Scotland, Wales, France, and Italy, returning repeatedly to favorite subjects. An almost compulsive desire to

sketch refined his innate skill as one of America's finest landscape artists. Most of Moran's known field sketches are reproduced here. As described in the introduction, their range encompasses summary contour drawings of the spectacular topography of the American West, luminous watercolors that simultaneously fix local color and evoke the artist's rapturous response to the natural world, and fully realized works that nevertheless preserve the intensity of Moran's firsthand experience of his plein air subjects. No serious formal study of Thomas Moran can be made without reference to this volume.

The Moabite Inscription William Wright, 1870 *Fire-heart* C. S. Marks, 2006-07 the Elfhunter has been laid low but he is not yet vanquished. Now there is a new challenge to be faced. Orogond has sworn on the grave of this father that he will find his wayward brother Hallagond and return him to the way of the Light. But Hallagond has been driven forth by shame and believes that he is unworthy of redemption. The Company is now set upon a path that will take them into unfamiliar distant lands filled with strange and intriguing people. Gothic and Renaissance Art in Nuremberg, 1300-1550 Metropolitan Museum of Art (New York, N.Y.), 1986 **Beyond Heaven and Earth** Gabriel Levy, 2022-02-01 An approach to understanding religion that draws on both humanities and natural science but rejects approaches that employ simple monisms and radical dualisms. In *Beyond Heaven and Earth*, Gabriel Levy argues that collective religious narratives and beliefs are part of nature; they are the basis for the formation of the narratives and beliefs of individuals. Religion grows out of the universe, but to make sense of it, we have to recognize the paradox that the universe is both mental and material or neither. We need both humanities and natural science approaches to study religion and religious meaning. Levy contends that we must also recognize the limits of these approaches. First, we must make the dominant metaphysics that undergird the various disciplines of science and humanities more explicit, and second, we must reject those versions of metaphysics that maintain simple monisms and radical dualisms. Bringing Donald Davidson's philosophy, a form of pragmatism known as anomalous monism, to bear on religion, Levy offers a blueprint for one way that the humanities and natural sciences can have a mutually respectful dialogue. Levy argues that in order to understand religions, we have to take their semantic content seriously. We need to rethink such basic concepts as narrative, fiction, information, agency, creativity, technology, and intimacy. In the course of his argument, Levy considers the relation between two closely related semantics: fiction and religion, and outlines a new approach to information. He then applies his theory to discrete cases: ancient texts, modern media, and intimacy. New Monthly Magazine, and Universal Register, 1815 **A Body of Doctrinal Divinity** John Gill, 2016-06-14 In this work, John Gill argues for the existence and characteristics of the triune God. These arguments are all given from a heavily Calvinist perspective, but he uses a lot of scripture to back up his claims. He also argues that the character of God is shown through his work on Earth by the elect, and most importantly through Christ. These characteristics then carry on in the final stages of life when human beings pass away and move on to heaven or hell. **Fire Engineering**, 1927 Fire in the Bay,

The Language of History Audrey Truschke, 2021-01-05 For over five hundred years Muslim dynasties ruled parts of northern and central India starting with the Ghurids in the 1190s through the fracturing of the Mughal Empire in the early eighteenth century Scholars have long drawn upon works written in Persian and Arabic about this epoch yet they have neglected the many histories that India's learned elite wrote about Indo Muslim rule in Sanskrit These works span the Delhi Sultanate and Mughal Empire and discuss Muslim led kingdoms in the Deccan and even as far south as Tamil Nadu They constitute a major archive for understanding significant cultural and political changes that shaped early modern India and the views of those who lived through this crucial period Audrey Truschke offers a groundbreaking analysis of these Sanskrit texts that sheds light on both historical Muslim political leaders on the subcontinent and how premodern Sanskrit intellectuals perceived the Muslim Other She analyzes and theorizes how Sanskrit historians used the tools of their literary tradition to document Muslim governance and later as Muslims became an integral part of Indian cultural and political worlds Indo Muslim rule Truschke demonstrates how this new archive lends insight into formulations and expressions of premodern political social cultural and religious identities By elaborating the languages and identities at play in premodern Sanskrit historical works this book expands our historical and conceptual resources for understanding premodern South Asia Indian intellectual history and the impact of Muslim peoples on non Muslim societies At a time when exclusionary Hindu nationalism which often grounds its claims on fabricated visions of India's premodernity dominates the Indian public sphere *The Language of History* shows the complexity and diversity of the subcontinent's past
