Rain Dancing Sanctions In Canadian And Australian Foreign Policy:

Rain Dancing Kim Richard Nossal, 1994 Nossal contends that because Canada and Australia lack the economic capabilities that give the sanctions of major powers their bite the sanctions of these middle powers accomplish little but make the public feel that something is being done about a serious problem In support of this view Nossal presents six case studies of Canadian and Australian sanctions episodes from the 1970s to the early 1990s against China Indonesia Iraq the former Soviet Union South Africa and Vietnam Annotation copyright by Book News Inc Portland OR

The Politics of Canadian Foreign Policy, Fourth Edition Kim Richard Nossal, Stéphane Roussel, Stéphane Paquin, 2015-12-07 The fourth edition of this widely used text includes updates about the many changes that have occurred in Canadian foreign policy under Stephen Harper and the Conservatives between 2006 and 2015 Subjects discussed include the fading emphasis on internationalism the rise of a new foreign policy agenda that is increasingly shaped by domestic political imperatives and the changing organization of Canada's foreign policy bureaucracy As in previous editions this volume analyzes the deeply political context of how foreign policy is made in Canada Taking a broad historical perspective Kim Nossal St phane Roussel and St phane Paquin provide readers with the key foundations for the study of Canadian foreign policy They argue that foreign policy is forged in the nexus of politics at three levels the global the domestic and the governmental and that to understand how and why Canadian foreign policy looks the way it does one must look at the interplay of all three

A Forgotten Legacy JOHN KENNAIR, 2012-01-04 Have you ever wondered about the Commonwealth or questioned what it has meant to Canada If not you are not alone It has been a sparsely covered subject of Canadian history Yet the Commonwealth was once and can still be an important part of Canadian foreign policy To be so however it is important to understand what role Canada has traditionally played within this association of states This is the purpose of this book to explore how Canada has led within the Commonwealth as it has served its function in Canadian foreign policy More importantly through learning of Canadas role within this organization we might better understand what

future role the Commonwealth might perform for Canada and a legacy will not be forgotten

In Good Faith Renate Pratt, 2006-01-01 In retrospect it is difficult to accept that Western democracies have implicitly supported or at least tolerated the legalized system of white supremacy in South Africa known as apartheid Renate Pratt's new book *In Good Faith* explains why the Christian churches were among the first to publicly protest and why they provided such cogent and determined international support for the struggle against apartheid The

Taskforce on the Churches and Corporate Responsibility is a coalition of Christian churches that for nearly twenty years was one of Canada's leading anti-apartheid advocates. As the first co-ordinator of this Taskforce, Renate Pratt was at the centre of the early anti-apartheid initiatives in Canada and consequently is able to supply a clear and accurate view. The book traces the history of exchanges between the Taskforce and successive ministers and senior civil servants of the Department of External Affairs. It details the reluctant and weak responses offered by the Canadian government and business community right up to the time of Nelson Mandela's release from prison. *In Good Faith* will be of particular interest to Canadian Christians concerned with ecumenical co-operation and with the social and political dimensions of their faith. Equally it will appeal to those interested in the impact of public interest organizations on public policy or the relationship between politics and business interests.

Hong Kong's Reunion with China: The Global Dimensions Gerard A. Postiglione, James Tuck-Hong Tang, 2016-07-01 The issues surrounding Hong Kong's global position and international links grow increasingly complex by the day as the process of Hong Kong's transformation from a British colony to a Chinese Special Administration Region unfolds. This volume addresses a number of questions relating to this process: How international is Hong Kong? What are its global and international dimensions? How important are these dimensions to its continued success? How will these dimensions change, especially beyond the sphere of economics? Is Hong Kong's internationalization defined in terms of its willingness to embrace international values and its capacity to maintain its international presence at risk? These questions are presented as they pertain to the changing situation: relations between mainland China, Taiwan and Hong Kong; the positions of Australia, Canada and the United States on Hong Kong; internalization of international legal values; Americanization vs. Asianization; linkages to the world through Guangdong; strategies to emigrate overseas; cultural internationalization; media internationalization; and universities within the global economy.

Shaping Nations Linda Cardinal, David Headon, 2002-03-01 As questions concerning nationhood and national identity continue to preoccupy both Canada and Australia, *Shaping Nations* brings together the work of Australian and Canadian scholars around five core themes: constitutionalism, colonialism, republicanism, national identity and governance.

Economic Sanctions Reconsidered: Third Edition, *The Regulation of International Trade* Robert Howse, Antonia Eliason, 2005-08-08 The *Regulation of International Trade* 2nd Edition introduces the rules and institutions that govern international trade. The authors base their analysis on aspects of the subject from classic and contemporary literature on trade and political economy. This new edition has been fully updated to take account of the most recent developments in International Trade. New issues covered include trade and competition, trade and labour rights, the Multilateral Agreement on Investment, the Basic Telecoms and Financial Services WTO Agreements, an analysis of the first three years of WTO dispute rulings including those of the Appellate Body. Drawing on the success of the earlier edition, this comprehensive and up-to-date text will be an invaluable guide to students of economics, law, politics and international relations.

Security Communities Emanuel Adler, Michael Barnett, 1998-10-28 This book argues

that community can exist at the international level and that security politics is profoundly shaped by it with states dwelling within an international community having the capacity to develop a pacific disposition By investigating the relationship between international community and the possibility for peaceful change this book revisits the concept first pioneered by Karl Deutsch security communities Leading scholars examine security communities in various historical and regional contexts in places where they exist where they are emerging and where they are hardly detectable Building on constructivist theory the volume is an important contribution to international relations theory and security studies attempting to understand the conjunction of transnational forces state power and international organizations that can produce a security community

Locating Global Order Bruno Charbonneau, Wayne S. Cox, 2010-10-19 While the events of 9 11 provoked countless debates about international politics security and global order one question dominates Should America don the mantle of empire for the sake of world peace or will peace come through world government This volume questions the very assumptions of this debate that the political order is hierarchical with state and international institutions at the top and groups and individuals at the bottom Case studies dealing with Canada's role in the construction and maintenance of global order both domestically and internationally reveal that the location of social and political practices creating global order is no longer certain Rather than taking the state and international system for granted this book demonstrates that global order post 9 11 is not exclusively American allied powers are a key component of its hegemony

Security and Sustainable Development in Myanmar Helen James, 2006-09-27 Helen James considers security in Myanmar Burma She uses the ideas put forward in the United Nations Development Programme's 1994 report of human as opposed to state and security going on to argue that freedom from want and freedom from fear of the regime are in fact mutually supportive ideas and that the security of the people and the security of the state are in fact in a symbiotic relationship with each other Presenting new and significant information of the security concept of Myanmar Burma James original work considers economic development health education environmental issues the drugs trade human rights minority peoples and political social and economic reforms arguing that improved governance the development of civil society and economic development would both strengthen the state and ensure the security and well being of its citizens

International Relations The Key Concepts is an ideal aid for students and newcomers to the field of International Relations

Peacekeeping and Peacemaking Tom Woodhouse, Robert Bruce, Malcolm Dando, 2016-07-27 The fiftieth anniversary of the foundation of the United Nations was commemorated in 1995 with a number of conferences and publications which assessed the history and contemporary role of this paramount international organisation This book is the result of a meeting of scholars and specialists who wished to further understanding of the challenges faced by the United Nations in its efforts to intervene in post cold war conflict In particular the experiences in Bosnia Somalia and in Rwanda where UN peacekeepers seemed powerless to act in the face of acts of genocide gross violations of human rights and the widespread suffering caused by war makes such an analysis timely and important
