Rainbow Conspiracy:

Conspiracy Culture Dr Peter Knight, Peter Knight, 2013-04-15 Conspiracy theories are everywhere in post war American culture From postmodern novels to The X Files and from gangsta rap to feminist polemic there is a widespread suspicion that sinister forces are conspiring to take control of our national destiny our minds and even our bodies Conspiracy explanations can no longer be dismissed as the paranoid delusions of far right crackpots Indeed they have become a necessary response to a risky and increasingly globalized world in which everything is connected but nothing adds up Peter Knight provides an engaging and cogent analysis of the development of conspiracy culture from 1960s countercultural suspicions about the authorities to the 1990s where a paranoid attitude is both routine and ironic Conspiracy Culture analyses conspiracy narratives about familiar topics like the Kennedy assassination alien abduction body horror AIDS crack cocaine the New World Order as well as more unusual ones like the conspiracies of patriarchy and white supremacy Conspiracy Culture shows how Americans have come to distrust not only the narratives of the authorities but even the authority of narrative itself to explain What Is Really Going On From the complexities of Thomas Pynchon s novels to the endless mysteries of The X Files Knight argues that contemporary conspiracy culture is marked by an infinite regress of suspicion Trust no one because we have met the enemy and it is us *THE TRUTH ABOUT FREEMASONS, ILLUMINATI, AND NEW WORLD ORDER* S.D.S C.M.W, 2012-03-19 Two Books In One The New World Order s Letter to Every Citizen of the World warning Resistance is Futile According to this letter addressed to everybody in America it s useless to resist a one world takeover as the program is in its final stages The Very word secrecy is repugnant in a free and open society and we are as people inherently and historically opposed to secret societies to secret oaths and to secret proceedings We decided long ago that the dangers of excessive and unwarranted concealment of pertinent facts far outweighed the dangers which are cited to justify If you have the privilege to know you have the duty to act Conspiracy Nation Peter Knight, 2002-02 An intriguing interrogation of America s long running obsession with conspiracy theories Why are Americans today so fascinated by Area 51 How did rumors that the AIDS virus originated as a weapon of biowarfare emerge Why does the Kennedy assassination provoke heated debate over fifty years after the fact and why did Donald Trump s birther theories only serve to increase his popularity with voters The origins of these ideas reveal important facets of American culture and politics Placing conspiracy thinking at the center of American history and challenging the knee jerk dismissal of conspiratorial thought as deluded and often dangerous Conspiracy Nation provides a wide ranging survey of conspiracy theories in contemporary America In the 19th century inflammatory rhetoric about slave revolts the well publicized specter of the black rapist and the formation of the Ku Klux Klan all worked as conspiracy theories to legitimate an emerging sense of national consciousness based on an ideology of white supremacy one that still persists today In our contemporary world panicked responses to increasing multiculturalism and globalization yield new notions of victimhood and new theories about conspiratorial plans for global

domination Offering up a provocative array of examples ranging from alien abduction to the novels of DeLillo and Pynchon to Tupac Shakur s paranoid style Conspiracy Nation documents and unearths the workings of conspiracy in the contemporary moment Contributors Clare Birchall Jack Bratich Bridget Brown Jodi Dean Ingrid Walker Fields Douglas Kellner Peter Knight Fran Mason John A McClure Timothy Melley Eithne Quinn and Skip Willman **Catalog of Copyright Entries. Splat! Ploof!* Gordana Crnkovic,2003-10-01 Observing European debates about EuroDisney McDonald s Hollywood films and television programs and other vehicles of alleged Americanization one might imagine that Europe was in serious risk of losing its distinct cultural identity in the melting pot of American pop culture The loaded charge of kitsch is a central aspect of the debate with Disney stories for example branded as simplified travesties of authentic European folk tales But the relationship between European and American popular cultures is vastly more complex Reciprocal and interactive it is a relationship in which the European American partnership for example in cinematic ventures has become quite common And again artifacts which have a certain meaning and reception in America may have a completely different meaning and reception in Europe in effect behaving as different artifacts altogether And finally as this book shows
