Sense This First Explorers:

A Cultural History of the Senses in the Renaissance Herman Roodenburg, 2014-10-23 We know the Renaissance as a key period in the history of Europe It saw the development of court and urban cultures witnessed the first global voyages of discovery and gave rise to the Reformation and Counter Reformation It also started with the invention of oil painting linear perspective and moveable type all visual technologies Does that mean as has been suggested that the Renaissance stands for the ascendancy of the eye If so then what happened to the sensory extremes which the famous Dutch historian Johan Huizinga still perceived in the 15th century Did they simply disappear Or is there another history to be told a history of a surprising continuity not only of the sense of hearing but also of the lower senses those of taste smell and touch And was the Renaissance not first and foremost a time of deep sensory anxiety This volume assembling nine outstanding specialists seeks to answer these questions while offering a lively and sensational portrait of the period A Cultural History of the Senses in the Renaissance presents essays on the following topics the social life of the senses urban sensations the senses in the marketplace the senses in religion the senses in philosophy and science medicine and the senses the senses in literature art and the senses and sensory media

The Cambridge Companion to Postcolonial Travel Writing Robert Clarke, 2018-01-11. The Cambridge Companion to Postcolonial Travel Writing offers readers an insight into the scope and range of perspectives that one encounters in this field of writing. Encompassing a diverse range of texts and styles, performances, and forms, postcolonial travel writing recounts journeys undertaken through places, cultures, and communities that are simultaneously living within, through, and after colonialism in its various guises. The Companion is organized into three parts: Part I, Departures, addresses key theoretical issues, topics, and themes; Part II, Performances, examines a range of conventional and emerging travel performances and styles in postcolonial travel writing; Part III, Peripheries, continues to shift the analysis of travel writing from the traditional focus on Eurocentric contexts. This Companion provides a comprehensive overview of developments in the field, appealing to students and teachers of travel writing and postcolonial studies.

With Paul at Sea Linford Stutzman, 2012-04-18. What Jesus began on and around the Sea of Galilee, Paul continued on and around the Mediterranean Sea. With Acts as the stage, the biblical narrative shifts from land to sea. Paul is the central actor in this part of the drama. Luke, the playwright traveling with Paul on portions of his journeys, was deeply impressed by Paul's challenges and his creative engagement with both the pagans and the Jews living in the Roman Empire. In *With Paul at Sea*, Linford Stutzman himself, an accomplished sailor, relates key highlights of his personal experience of sailing Paul's voyages two thousand years later. Including examples of discoveries in the cities and harbors of Acts, combined with historical, archeological, and biblical evidence, Stutzman demonstrates the contribution and relevance of Paul for Christians in the twenty-first century. Portraying the modern world as a sea, the church as a ship, and a life of faith as sailing, *With Paul at Sea* is an invitation for today's Christians to travel with Paul.

[The Senses](#) Fiona Macpherson, 2011-05-09. The senses or sensory modalities constitute the different ways we have of perceiving the world, such

as seeing hearing touching tasting and smelling But how many senses are there How many could there be What makes the senses different What interaction takes place between the senses This book is a guide to thinking about these questions Together with an extensive introduction to the topic the book contains the key classic papers on this subject together with nine newly commissioned essays One reason that these questions are important is that we are receiving a huge influx of new information from the sciences that challenges some traditional philosophical views about the senses This information needs to be incorporated into our view of the senses and perception Can we do this whilst retaining our pre existing concepts of the senses and of perception or do we need to revise our concepts If they need to be revised then in what way should that be done Research in diverse areas such as the nature of human perception varieties of non human animal perception the interaction between different sensory modalities perceptual disorders and possible treatments for them calls into question the platitude that there are five senses as well as the pre supposition that we know what we are counting when we count them as five or more This book will serve as an inspiring introduction to the topic and as a basis from which further new research will grow

The Science of Our Most Neglected Sense Bob Holmes,2017-04-25 A journey into the surprising science behind our flavor

senses Can you describe how the flavor of halibut differs from that of red snapper How the taste of a Fuji apple differs from a Spartan For most of us this is a difficult task flavor remains a vague undeveloped concept that we don't know enough about to describe or appreciate fully In this delightful and compelling exploration of our most neglected sense veteran science reporter Bob Holmes shows us just how much we're missing Considering every angle of flavor from our neurobiology to the science and practice of modern food production Holmes takes readers on a journey to uncover the broad range of factors that can affect our appreciation of a fine meal or an exceptional glass of wine He peers over the shoulders of some of the most fascinating food professionals working today from cutting edge chefs to food engineers to mathematicians investigating the perfect combination of pizza toppings He talks with flavor and olfactory scientists who describe why two people can experience remarkably different sensations from the same morsel of food and how something as seemingly unrelated as cultural heritage can actually impact our sense of smell Along the way even more surprising facts are revealed that cake tastes sweetest on white plates that wine experts' eyes can fool their noses and even that language can affect our sense of taste Flavor expands our curiosity and understanding of one of our most intimate sensations while ultimately revealing how we can all sharpen our senses and our enjoyment of the things we taste Certain to fascinate everyone from gourmands and scientists to home cooks and their guests Flavor will open your mind and palette to a vast exciting sensory world **20**

Greatest Explorers of The World Kalyani Mookherji, 2014-01-01 The urge to explore is an ancient one in the human species The earliest explorations were driven by physical needs like food and shelter But later with greater resources at their disposal human beings became curious about their extended geographical environment and began to venture further from their safe zone Over time mankind began to recognize that with successful exploration came rewards In fact access to virgin natural resources was one of the driving factors behind the Golden Age of Exploration during the 15th and 16th centuries when many significant discoveries were made about the geography of the Earth Again in the eighteenth and nineteenth centuries much of the exploration of Africa and Asia were driven by the need to discover and colonize new markets for goods made by European countries The 20 Greatest Explorers of the World traces these currents in the journey of human exploration by focusing on the most famous explorers in history as well as some lesser known names who are nevertheless responsible for charting new territories Ranging from classical Greece to the mid twentieth century traversing all parts of the globe and indeed beyond it these explorers are testament to the fact that the desire to know and discover has inspired humans across time and space in history **The Lesbian Fantastic** Phyllis M. Betz, 2014-01-10 Science fiction has long

been a haven for lesbian writers allowing them to use the genre to discuss their marginalized status This critical work examines how lesbian authors have used the structures and conventions of science fiction to embody characters relationships and other themes that relate to their experience as the quintessential Other in the broader culture Topics include lesbian gothic fantasy science fiction mixed genre texts and historical background for the works discussed A vital addition to the

scholarship on homosexuality and culture **Life Lessons from Explorers** Felicity Aston, 2021-08-03 Great explorers are known for their hard earned skills and meticulously honed character traits which have made their astonishing endeavours possible Valuable lessons are waiting to be learned from the feats attained by the most revered names in exploration from legendary adventurers such as Christopher Columbus to contemporary figures such as Wasfia Nazreen Life Lessons from Explorers collects 20 of the most highly prized traits shared by those who have scaled mountains and traversed tundras proposing how these could be applied to your own life whether you are crossing Antarctica or battling a mental obstacle Compelling accounts of the life and times of celebrated explorers highlighting when they have displayed these traits are accompanied by remarkable images and documents from the Royal Geographical Society archives Proceedings ... ,1929
