building key developmental skills But with increasing time pressures for both kids and parents children are spending more time in front of screens and less time exploring and interacting with their environment The good news is that boosting your child s sensory development doesn t take enormous amounts of time or supplies or any special skills Here Ticktin discusses the eight sensory systems and how a child uses them and offers easy fun activities as well as advice on setting up a play area that will encourage their development so that your little one will be better able to respond to their emotions build friendships communicate their needs and thrive in school That s the power of sensory play     Sensory Integration and the Child A.
