Sentido De Educar El:

Pedagogía de los sentidos Consuelo Santamaría Repiso, 2018-01-29 Los sentidos son las ventanas por las que el ser humano sale de su yo interior y se relaciona con todo lo que le rodea Por medio de los sentidos captamos toda la información que recibimos a través de la vista del oído del gusto etc los sentidos nos llenan de sensaciones y estas nos pueden proporcionar bienestar o malestar Con frecuencia nuestros sentidos tienen interferencias voluntarias o involuntarias que elevan el termómetro emocional y pueden producir una alta fiebre interior capaz de generar una elevada dosis de sufrimiento Los sentidos son susceptibles de ser educados por ello el análisis de cada uno de los sentidos que proponemos lo vamos a construir desde el ámbito educativo ya que la reflexión sobre los sentidos forma parte de un contenido educativo y por tanto formador enseñable y en consecuencia objeto de aprendizaje teórico práctico y experiencial

discourse that reaches large audiences via television The classic rhetoric undergoes some changes given the explicit suasion and the absence of delusion provided by other means of communication The 21st century is defined by the flood of information and the overpowering presence of mass communication so much so that the technological impact is clear in all realms of life From the linguistic viewpoint the appearance of anglicisms and technicalities mirrors the impact of post modernity There is now a need to give coherence to a national discourse that both grasps the past and adapts itself to the new available resources with the purpose of conveying an effective and attractive message to a very large audience Discourse is swift since society does not seem to have time to think but instead seeks to maintain interest in a world filled with stimuli that in turn change constantly Emphasis has been switched to a search for historical images and moments that presumably explain present and future events It is also significant that all this restlessness is discussed and explained via new means such as the world wide web The change in communication habits e mail chats forums SMS and tools computers mobile phones that was initiated in the 20th century has had a net effect on the directness and swiftness of language
