Sentimental Memory Pieces:

Sentimental Memory Pieces Dorothy Radcliffe, Carolyn Cook, Anna Taccino, 1987-01-01 **Intelligent Virtual Agents** Catherine Pelachaud, Jean-Claude Martin, Elisabeth Andre, Gérard Chollet, Kostas Karpouzis, Danielle Pelé, 2007-09-06 This book constitutes the refereed proceedings of the 7th International Workshop on Intelligent Virtual Agents IVA 2007 held in Paris France September 2007 The 19 revised full papers and 12 revised short papers presented together with five invited talks and the abstracts of 32 poster papers are organized in topical sections on rendering and analysis culture and identity behavior models feedback models dialogues applications evaluation gaze models and emotions **Dreams and Visions** Patrick McNamara Ph.D., 2016-09-26 A standout resource on the emerging field of applying neuropsychology and the latest findings in sleep and dream research to religious experience this book investigates the proven biological links between REM dreams and religious ideas covering past and current schools of thought in both the science of dreams and the science of religion Across time and around the world billions of people with highly dissimilar backgrounds and cultures have felt spiritual or religious inspiration that shaped their lives and supplemented their mental strength and in many cases this inspiration came via a dream The how and why of this common phenomenon is one that science has largely failed to explain In this book nationally recognized behavioral neuroscientist Patrick McNamara taps the latest science in sleep and dreams as well as neuropsychology to investigate one facet of the answer from the inside out the human brain s role The first study of its kind in an emerging field Dreams and Visions How Religious Ideas Emerge in Sleep and Dreams provides a comprehensive summary of past theory and examines the latest science on dreams REM sleep cognitive approaches to religion and neuroscience approaches to religion Readers will come away with an in depth understanding of how and why god beliefs and spiritual convictions so often emerge in our dreams Dedicated sections address special dream types like visitation dreams nightmares precognitive dreams big dreams lucid dreams paralysis dreams twin dreams and more Fear Itself Rush W. Dozier, 2015-12-22 What are you afraid of In Fear Itself Pulitzer nominated science author Rush W Dozier Jr takes on such challenging questions as What is fear Where does it originate What purpose does it serve He reveals how our daily lives are shaped by fear and yet how it also pushes us to fulfill our greatest potential Succeeding in making complicated points of modern neuroscience both accessible and fascinating Dozier takes us on a thrilling journey through the science of the brain and the everyday reality of this most human emotion Music and Sentimentalism in the Nineteenth and Twentieth Centuries Stephen Downes, 2021-05-30 In a wide ranging study of sentimentalism s significance for styles practices and meanings of music in the nineteenth and twentieth centuries a series of interpretations scrutinizes musical expressions of sympathetic responses to suffering and the longing to belong The book challenges hierarchies of artistic value and the associated denigration of sentimental feeling in gendered discourses Fresh insights are thereby developed into sentimentalism s place in musical constructions of emotion taste genre gender desire and authenticity The contexts

encompass diverse musical communities performing spaces and listening practices including the nineteenth century salon and concert hall the cinema the intimate stage persona of the singer songwriter and the homely ambiguities of easy listening Interdisciplinary insights inform discussions of musical form affect appropriation nationalisms psychologies eco sentimentalism humanitarianism consumerism and subject positions with a particular emphasis on masculine sentimentalities Music is drawn from violin repertory associated with Joseph Joachim the piano music of Chopin Schumann and Liszt sentimental waltzes from Schubert to Ravel concert music by Bartok Szymanowski and Górecki the Merchant Ivory adaptation of *The Remains of the Day* Antonio Carlos Jobim's bossa nova and songs by Duke Ellington Burt Bacharach Carole King Barry Manilow and Jimmy Webb The book will attract readers interested in both the role of music in the history of emotion and the persistence and diversity of sentimental arts after their flowering in the eighteenth century age of sensibility

Emotional Understanding Donna M. Orange, 1995-10-13 With a unique blend of clinical compassion and philosophical reflection Donna M Orange illuminates the nature and process of psychoanalytic understanding within the intimate and healing human context of treatment Moving away from objectivist empiricism and its polar opposite constructivist relativism her work details a paradigm shift to a perspectival realism that does justice to the concerns of both Laying the groundwork for a fuller more encompassing view of psychoanalytic practice *Emotional Understanding* is enlightening reading for all mental health professionals interested in psychodynamic theory and treatment

With an eraser following me Malin Bohman, 2021-08-19 Having the ability to remember what you have previously experienced or at least the essential parts of it is something most people take for granted But that is not the case for everyone and some people lack access to their so called autobiographical memories A condition that is called Severely Deficient Autobiographical Memory or SDAM Malin is one of those with this condition In this book she tries to describe what it means to have SDAM how it affects

her and reflects on what the neurological causes may be and what might work a little differently in her brain She also muses about her long and painful journey in the world of psychiatry since it took almost 28 years before she finally received her diagnosis autism and memory disorder *WITH AN ERASER FOLLOWING ME* is thus a book for those of you who want to learn a little more about this unusual memory problem and what it can be like to live with it It is also a book for those who may want to get an insight into how wrong things can go when knowledge and understanding are lacking in healthcare and when a patient gets hurt despite the best intentions Here is a book that is both touching and full of valuable information that reads like a novel at times like a thriller at others and like a textbook too

How to Change a Memory Steve Ramirez,2025-11-04 A disarmingly personal account of the new science of memory manipulation by one of today s leading pioneers in the field As a graduate student at MIT Steve Ramirez successfully created false memories in the lab Now as a neuroscientist working at the frontiers of brain science he foresees a future where we can replace our negative memories with positive ones In How to Change a Memory Ramirez draws on his own memories of friendship family loss and recovery to reveal how memory can be turned on and off like a switch edited and even constructed from nothing A future in which we can change our memories of the past may seem improbable but in fact the everyday act of remembering is one of transformation Intentionally editing memory to improve our lives takes advantage of the brain s natural capacity for change In How to Change a Memory Ramirez explores how scientists discovered that memories are fluid they change over time can be erased reactivated and even falsely implanted in the lab Reflecting on his own path as a scientist he examines how memory manipulation shapes our imagination and sense of self If we can erase a deeply traumatic memory would it change who we are And what would that change mean anyway Throughout Ramirez carefully considers the ethics of artificially controlling memory exploring how we might use this tool responsibly for both personal healing and the greater good A masterful blend of memoir and cutting edge science How to Change a Memory explores how neuroscience has reached a critical juncture where scientists can see the potential of memory manipulation to help people suffering from the debilitating effects of PTSD anxiety Alzheimer s addiction and a host of other neurological and behavioral disorders
