Separate And Unequal Public School Campaigns And Racism In The Southern Seaboard States 1901 1915:

Separate and Unequal Louis R. Harlan, 2011-01-01 This is a revealing study of the crucial period in the educational development of the South as it involved the separate but equal doctrine It is based on extensive research in newspapers public documents official reports and manuscripts and it provides a detailed account of the struggle for equality **Separate and Unequal** Louis R. Harlan, 1955

Anti-Blackness and Public Schools in the Border South Claude Weathersby, Matthew D. Davis, 2019-09-01 This new book on Black public schooling in St Louis is the first to fully explore deep racialized antagonisms in St Louis Missouri It accomplishes this by addressing the white supremacist context and anti Black policies that resulted In addition this work attends directly to community agitation and protest against racist school policies The book begins with post Civil War schooling of Black children to the important Liddell case that declared unconstitutional the St Louis Public Schools The judicial wrangling in the Liddell case its aftermath and community reaction against it awaits a next book by the authors of *Anti blackness and public schools* **The Education of Blacks in the South, 1860-1935** James D. Anderson, 2010-01-27 James Anderson critically reinterprets the history of southern black education from Reconstruction to the Great Depression By placing black schooling within a political cultural and economic context he offers fresh insights into black commitment to education the peculiar significance of Tuskegee Institute and the conflicting goals of various philanthropic groups among other matters Initially ex slaves attempted to create an educational system that would support and extend their emancipation but their children were pushed into a system of industrial education that presupposed black political and economic subordination This conception of education and social order supported by northern industrial philanthropists some black educators and most southern school officials conflicted with the aspirations of ex slaves and their descendants resulting at the turn of the century in a bitter national debate over the purposes of black education Because blacks lacked economic and political power white elites were able to control the structure and content of black elementary secondary normal and college education during the first third of the twentieth century Nonetheless blacks persisted in their struggle to develop an educational system in accordance with their own needs and desires **To Right These Wrongs** Robert R. Korstad, James L. Leloudis, 2011-01-20 When Governor Terry Sanford established the North Carolina Fund in 1963 he saw it as a way to provide a better life for the tens of thousands whose family income is so low that daily subsistence is always in doubt Illustrated with evocative photographs by Billy Barnes *To Right These Wrongs* offers a lively account of this pioneering effort in America's War on Poverty Robert Korstad and James Leloudis describe how the Fund's initial successes grew out of its reliance on private philanthropy and federal dollars and its commitment to the democratic mobilization of the poor Both were calculated tactics designed to outflank conservative state lawmakers and entrenched local interests that nourished Jim Crow perpetuated one party politics and protected an economy built on cheap labor By late 1968 when the Fund closed its doors a resurgent politics of race had gained the advantage led by a Republican Party that had reorganized itself around opposition

to civil rights and aid to the poor The North Carolina Fund came up short in its battle against poverty but its story continues to be a source of inspiration and instruction for new generations of Americans

Black Tennesseans, 1900-1930 Lester C. Lamon, 2002-03 A study of racial relations in Tennessee during years of increasing migration of Blacks from the Deep South and of ideological competition between the followers of Booker T Washington and W E B Dubois An important contribution to Black history

The Abolitionist Legacy James M. McPherson, 1995 Tracing the activities of nearly 300 abolitionists and their descendants this title reveals that some played a crucial role in the establishment of schools and colleges for southern blacks while others formed the vanguard of liberals who founded the NAACP in 1910

The American South William J. Cooper Jr., Thomas E. Terrill, Christopher Childers, 2016-11-17 In *The American South A History* Fifth Edition William J Cooper Jr and Thomas E Terrill demonstrate their belief that it is impossible to divorce the history of the South from the history of the United States The authors analysis underscores the complex interaction between the South as a distinct region and the South as an inescapable part of America Cooper and Terrill show how the resulting tension has often propelled section and nation toward collision In supporting their thesis the authors draw on the tremendous amount of profoundly new scholarship in Southern history Each volume includes a substantial bibliographical essay completely updated for this edition which provides the reader with a guide to literature on the history of the South This volume contains updated chapters and tables

[Jim Crow Laws](#) Leslie V. Tischauser, 2012-04-06 This disquieting yet important book describes the injustices humiliations and brutalities inflicted on African Americans in a racist culture that was created and protected by the forces of law and order Jim Crow Laws presents the history of the discriminatory laws that segregated people by race in the American South from the end of the Civil War through passage of the 1965 Civil Rights Act To paint a true picture of these deplorable restrictions this book provides a detailed analysis of the creation defense justification and fight against the Jim Crow system Among the subjects covered here are the origins of legal inequality for African Americans in the aftermath of the Civil War the role of the U S Supreme Court in weakening constitutional protections against discrimination established in the 13th 14th and 15th Amendments the white justification of segregation and the extreme brutality of Jim Crow s defenders Equally important readers will learn about the psychological political social and economic costs endured by the victims of Jim Crow inequality as well as about the motivations rejections and successes faced by those who stood against these abominations

The Perils and Prospects of Southern Black Leadership Raymond Gavins, 1977

Black Scholar Wayne J. Urban, 2008-07-01 In *Black Scholar* Wayne J Urban chronicles the distinguished life and career of the historian teacher and university administrator Horace Mann Bond Urban illuminates not only the man and his accomplishments but also the many issues that confronted him and his colleagues in black education during the middle decades of the twentieth century After covering the major events of Bond s youth Urban follows him from his student years at Lincoln University and the University of Chicago through his work for the Julius Rosenwald Fund to his subsequent administrative leadership at several black

institutions including Fort Valley State College Lincoln University and Atlanta University Among the many details Urban discusses are Bond s prodigious early output of scholarly books and articles his enduring concern about the biases of intelligence testing his work on preparing the NAACP s court brief for the Brown v Board of Educationi case and his career long interest in what he felt were the affinities between modern day Africans and African Americans the one struggling to break free from colonialism the other from segregation **Appalachia on Our Mind** Henry D. Shapiro,2014-03-30

Appalachia on Our Mind is not a history of Appalachia It is rather a history of the American idea of Appalachia The author argues that the emergence of this idea has little to do with the realities of mountain life but was the result of a need to reconcile the otherness of Appalachia as decribed by local color writers tourists and home missionaries with assumptions about the nature of America and American civilization Between 1870 and 1900 it became clear that the existence of the strange land and peculiar people of the southern mountains challenged dominant notions about the basic homogeneity of the American people and the progress of the United States toward achiving a uniform national civilization Some people attempted to explain Appalachian otherness as normal and natural no exception to the rule of progress Others attempted the practical integration of Appalachia into America through philanthropic work In the twentieth century however still other people began questioning their assumptions about the characteristics of American civilization itself ultimately defining Appalachia as a region in a nation of regions and the mountaineers as a people in a nation of peoples In his skillful examination of the invention of the idea of Appalachia and its impact on American thought and action during the early twentieth century Mr Shapiro analyzes the following the discovery of Appalachia as a field for fiction by the local color writers and as a field for benevolent work by the home missionaries of the northern Protestant churches the emergence of the problem of Appalachia and attempts to solve it through explanation and social action the articulation of a regionalist definition of Appalachia and the establishment of instituions that reinforced that definition the impact of that regionalistic definition of Appalachia on the conduct of systematic benevolence expecially in the context of the debate over child labor restriction and the transformation of philanthropy into community work and the attempt to discover the bases for an

indigenous mountain culture in handicrafts folksong and folkdance Education for Liberation Joe M. Richardson,Maxine D. Jones,2015-09-30 Education for Liberation completes the study Dr Richardson published in 1986 as Christian Reconstruction The American Missionary Association and Southern Blacks 1861 1890 by continuing the account of the American Missionary Association AMA from the end of Reconstruction to the post World War II era Even after the optimism of Reconstruction was shattered by violence fraud and intimidation and the white South relegated African Americans to segregated and disfranchised second class citizenship the AMA never abandoned its claim that blacks were equal in God s sight that any backwardness was the result of circumstance rather than inherent inferiority and that blacks could and should become equal citizens with other Americans The organization went farther in recognition of black ability humanity and aspirations than

much of 19th and 20th century white America by publicly and consistently opposing lynching segregation disfranchisement and discrimination The AMA regarded education as the means to full citizenship for African Americans and supported scores of elementary and secondary schools and several colleges at a time when private schooling offered almost the only chance for black youth to advance beyond the elementary grades Such AMA schools with their interracial faculties and advocacy for basic civil rights for black citizens were a constant challenge to southern racial norms and trained thousands of leaders in all areas of black life

Self-Taught Heather Andrea Williams, 2009-11-20 In this previously untold story of African American self education Heather Andrea Williams moves across time to examine African Americans relationship to literacy during slavery during the Civil War and in the first decades of freedom Self Taught traces the historical antecedents to freedpeople s intense desire to become literate and demonstrates how the visions of enslaved African Americans emerged into plans and action once slavery ended Enslaved people Williams contends placed great value in the practical power of literacy whether it was to enable them to read the Bible for themselves or to keep informed of the abolition movement and later the progress of the Civil War Some slaves devised creative and subversive means to acquire literacy and when slavery ended they became the first teachers of other freedpeople Soon overwhelmed by the demands for education they called on northern missionaries to come to their aid Williams argues that by teaching building schools supporting teachers resisting violence and claiming education as a civil right African Americans transformed the face of education in the South to the great benefit of both black and white southerners

The Laurinburg Institute Elizabeth Munroe Jones, 2024-08-27 For the white race it is almost impossible to comprehend what it took to lift blacks from the state of brutal slavery to their rightful place in society Indeed we are still grappling with that problem today Starting from scratch has new meaning when you look at the beginnings of Booker T Washington and Emmanuel and Tinny McDuffie the founders of the Laurinburg Normal and Industrial Institute in 1904 How far they came has to be measured against where they began Emmanuel McDuffie the son of none became the symbolic father of many He did not flee to the relative safety of the North after the war but plunged deeper into the divided and often dangerous South He was determined to build a place where he his family and his race could stand and thrive This 119 year history of the oldest private black prep school in the United States comes alive through extensive interviews and records now uncovered for the first time Accounts of Jazz musician Dizzy Gillespie and NBA Hall of Famers Sam Jones and Charlie Scott among many distinguished graduates and faculty members paint a vivid picture Ranked sixth nationwide among high schools in producing the most NBA players Laurinburg Institute also sent more than 60 players to Division I college basketball teams all across the country At least 50 000 students built a new world based on the firm foundation of Laurinburg Institute and four generations of the McDuffie family

Dangerous Donations Eric Anderson, Alfred A. Moss, 1999 Dangerous Donations explores the important limitations on the power of these foundations and their agents The northern philanthropies had to move cautiously and conservatively seeking the cooperation of southern whites whenever

possible They believed African Americans could not be excluded from education and must be prepared for productive participation in the South whatever its social system for the safety of the region and the nation as a whole Copyright Libri GmbH All rights reserved

The Negro's Image in the South Claude H. Nolen, 2021-10-21 Symbolic of the historic conflict between North and South has been the South's attitude toward African Americans This historical study presents a thorough analysis derived from books periodicals speeches sermons lectures and other documents of the doctrine of white supremacy

Alabama in Africa Andrew Zimmerman, 2012-05-27 This work recounts an expedition sent by Tuskegee Institute to transform the German colony of Togo West Africa into a cotton economy like the American South This book reveals a transnational politics of labour sexuality and race invisible to earlier national imperial and comparative historical perspectives
