Political Identity and Social Change Jamie Frueh, 2012-02-01 Political Identity and Social Change builds upon the constructivist theory of political identity to explore the social changes that accompanied the end of apartheid in South Africa To gain a better understanding of how structures of identity changed along with the rest of South Africa s institutions Frueh analyzes three social and political conflicts the Soweto uprisings of 1976 the reformist constitutional debates of 1983 1984 and post apartheid crime Analyzing these conflicts demonstrates how identity labels function as structures of social discourse how social activity is organized through these structures and how both the labels and their power have changed during the course of South Africa s transition In this way the book contributes not only to the study of South African society but also provides lessons about the relationship between identity and social change **Monthly Energy Review** , Australian Family Law Act 1975 with Regulations and Rules, 30th ed , Brunei Tax Guide Volume 1 Strategic Information and Regulations IBP USA, 2013-08 2011 Updated Reprint Updated Annually Brunei Tax Guide **Earthquake Engineering for Structural Design** Victor Gioncu, Federico Mazzolani, 2010-10-04 Developments in Earthquake Engineering have focussed on the capacity and response of structures They often overlook the importance of seismological knowledge to earthquake proofing of design It is not enough only to understand the anatomy of the structure you must also appreciate the nature of the likely earthquake Seismic design as detailed in this book is the bringing together of Earthquake Engineering and Engineering Seismology It focuses on the seismological aspects of design analyzing various types of earthquake and how they affect structures differently Understanding the distinction between these earthquake types and their different impacts on buildings can make the difference between whether a building stands or falls or at least to how much it costs to repair Covering the basis and basics of the major international codes this is the essential guide for professionals working on structures in earthquake zones around the world **The Asian Financial Crisis** Eddy Lee, 1998 This study examines the social impact of the Asian financial crisis which began in July 1997 Several countries experienced an economic shock of unprecedented severity after decades of uninterrupted growth The severe rise in unemployment and its repercussions in the worst affected countries Thailand Republic of Korea and Indonesia overwhelmed the underdeveloped systems of social protection Higher unemployment and inflation combined to push many people into poverty A central policy message is that current programmes of policy and institutional reform following the crisis should include a basic rethinking of the social dimension of the future model of development The author also argues for the introduction of unemployment insurance the expansion of social assistance and the strengthening of active labour market policies Bob Carr Marilyn Dodkin, 2003 Chronicles Bob Carr s years of leadership and opposition steering New South Wales through good and bad times including the most successful Olympic Games ever It is an honest frank account of a politician s career with all its ups and downs spiced with Carr s own humour opinions and frank discourse with his State and Federal **Temporary Assistance for**

New Barbarism Boris Kagarlitsky,1999-09-20 In this radical and controversial overview of the post communist world Boris Kagarlitsky argues that the very success of neoliberal capitalism has made traditional socialism all the more necessary and feasible Kagarlitsky argues that leftists exaggerate the importance of the objective aspects of the new reality globalisation and the weakening of the state while underestimating the importance of the hegemony of neoliberalism As long as neoliberalism retains its ideological hegemony despite its economic failure the consequence is a new barbarism already a reality in Eastern Europe and now also emerging in the West Kagarlitsky challenges the political neurosis of the left and prevailing assumptions of Marxism to argue that Marx s theories are now more timely than they were in the mid twentieth century He analyses theories of the end of the proletariat and the end of work and assesses the potential of the new technologies such as the Internet which create fresh challenges for capitalism and new arenas for struggle Shuttle-Mir Clay Morgan,2001
