Serpent The Atlan Cycle:

The Return of the Serpents of Wisdom Mark Amaru Pinkham, 2011-03-10 According to ancient records the patriarchs and founders of the early civilizations in Egypt India China Peru Mesopotamia Britain and the Americas were colonized by the Serpents of Wisdom spiritual masters associated with the serpent who arrived in these lands after abandoning their beloved homelands and crossing great seas While bearing names denoting snake or dragon such as Naga Lung Djedhi Amaru Quetzalcoatl Adder etc these Serpents of Wisdom oversaw the construction of magnificent civilizations within which they and their descendants served as the priest kings and as the enlightened heads of mystery school traditions The Return of the Serpents of Wisdom recounts the history of these Serpents where they came from why they came the secret wisdom they disseminated and why they are returning now Space Travelers and the Genesis of the Human Form Joan D'Arc, 2000 Can Darwinian evolution actually prove that we are alone in the Universe This book illustrates that Darwinian evolution is not an empirically predictable or testable scientific paradigm Also shows that ancient artifacts on Mars and the Moon are evidence of Game Wardens in our own solar system Could the Earth be a controlled DNA repository for the ongoing creation and dissemination of life forms including humans The author puts forth compelling evidence in this well researched work

Challenging the Black Atlantic John T. Maddox IV, John Thomas Maddox (IV), 2021 The historical novels of Manuel Zapata Olivella and Ana Maria Gonçalves map black journeys from Africa to the Americas in a way that challenges the Black Atlantic paradigm that has become synonymous with cosmopolitan African diaspora studies Unlike Paul Gilroy who coined the term and based it on W E B DuBois's double consciousness Zapata in *Chang el gran putas* 1983 creates an empowering mythology that reframes black resistance in Colombia Haiti Mexico Brazil and the United States In *Um defeito de cor* 2006 Gonçalves imagines the survival strategies of a legendary woman said to be the mother of black abolitionist poet Luís Gama and a conspirator in an African Muslim led revolt in Brazil's Black Rome These novels show differing visions of revolution black community femininity sexuality and captivity They skillfully reveal how events preceding the UNESCO Decade of Afro Descent 2015 2024 alter our understanding of Afro Latin America as it gains increased visibility Published by Bucknell University Press Distributed worldwide by Rutgers University Press **Papers Read at Memphis, Atlanta and Chicago**

The Serpent's Promise Steve Jones, 2014-06-15 In *The Serpent's Promise* Steve Jones retells many of the Biblical tales in the light of modern science Are we all descended from a real life Adam and Eve Are some or all of us marked with the molecular equivalent of original sin and if so what can we do about it Was the Bible's great flood a memory of the end of the Ice Age And what can science tell us of the mystical experiences reported by the faithful or of the origin of faith itself Some people deny the power of religious belief others the findings of science In this groundbreaking work from one of our great science writers Steve Jones explores how these mysteries often overlap He steps aside from the noisy debate between believers and non believers to show how the questions that preoccupy us today are those of biblical times and that science offers many of the answers At once brilliantly erudite and highly readable *The Serpent's Promise* is a witty and thoughtful account of the greatest scientific story ever told

Apocalypse and Millennium in English Romantic Poetry Morton D. Paley, 1999-10-07 The interrelationship of the ideas of apocalypse and millennium is a dominant concern of British Romanticism The Book of Revelation provides a model of history in which apocalypse is followed by millennium but in their various ways the major Romantic poets Blake Wordsworth Coleridge Byron Keats and Shelley question and even at times undermine the possibility of a successful secularization of this model No matter how confidently the sequence of apocalypse and millennium seems to be affirmed in some of the major works of the period the issue is always in doubt the fear that millennium may not ensue emerges as a significant if often repressed theme in the great works of the period Related to it is the tension in Romantic poetry between conflicting models of history itself history as teleology developing towards end time and millennium and history as purposeless cycle This subject matter is traced through a selection of works by the major poets partly through an exposition of their underlying intellectual traditions and partly through a close examination of the poems themselves
