The Origin of Civilization and the Primitive Condition of Man Sir John Lubbock,1882 The Origin of Civilisation and the Primitive Condition of Man. Mental and Social Condition of Savages, Etc Sir John Lubbock,1882 **The Origin of Civilisation and the Primitieve Condition of Man, Mental and Social Condition of Savages** John Lubbock,1882 *Atlantis* Emmet John Sweeney,2010 Historian Emmet Sweeney persuasively intertwines history and literary references with hard science from archaeology and anthropology to genetics and geology to prove the existence of an ancient trans Atlantic link between the

Old World and the New Sweeney examines the geological certainty of a sunken island in the Azores and the Human Genome Project's startling revelation that 3% of Native American DNA is characteristic of people of south west Europe and the Atlas Mountains whose inhabitants as late as Roman times called themselves Atlanteans and archaeological and cultural proof of a relationship between the Stone Age and Early Bronze Age civilizations of North America and South West Europe. The occurrence of cocaine and tobacco two American narcotics in many Egyptian mummies. Piece by piece Sweeney constructs a compelling case for not just the probability but the necessity of an Atlantic stepping stone the missing link that transmitted both the culture and biology of Europe to America millennia before Columbus. Atlantis: The Evidence of Science argues as never before that Atlantis should rise to take its place in history not myth.

The Prehistories of Baseball

Seelochan Beharry, 2016-03-24 Baseball's roots lie deep in our ancestral past. The ancient arts of throwing distance warfare hitting close quarters combat and running attack and retreat were woven into the earliest forms of baseball. Early humans recognized the importance of the sun and sought to placate it with sacrificial offerings imitating its movements and deifying it. Myths and relics of these foundational practices and beliefs were carried westward across the Old World by Indo-European peoples. Games for the early British and Continental Europeans notably the Celts and Druids served military religious social and educational needs. As the Celts and Druids came under the control of the Roman Empire and later the Christian Church their customs and practices including games fell out of favor. Despite persecution some folk games survived the millennia under such names as stool ball tut ball and base ball. Descendants of these peoples brought their variant games to the New World where the standardization of various informal rules led to their rapid spread. Baseball with its underlying beliefs superstitions and practices still brings us together with familiar and comforting rituals as we assemble under the sun.

Women's Experience of Modernity, 1875-1945 Ann L. Ardis, Leslie W. Lewis, 2003-05-22 A collection of essays on women's history and literary production at the turn of the twentieth century that centers the feminine phenomena. Analyzing such cultural practices as selling and shopping political and social activism urban field work and rural labor radical discourses on feminine sexuality and literary and artistic experimentation this volume contributes to the rich vein of current feminist scholarship on the gender of modernism and challenges the assumption that modernism rose naturally or inevitably to the forefront of the cultural landscape at the turn of the twentieth century. During this period women's experience was a rallying cry for feminists a unifying cause that allowed women to work together to effect social change and make claims for women's rights. However it also proved to be a source of great divisiveness among women for claims about its universality quickly unraveled to reveal the classism racism and Eurocentrism of various feminist activities and organizations. The essays in this volume examine both literary and non literary writings of Jane Addams Djuna Barnes Toru Dutt Radclyffe Hall H. D. Pauline Hopkins Emma Dunham Kelley Amy Levy Alice Meynell Bram Stoker Ida B. Wells Rebecca West and others. Instead of focusing exclusively or even centrally on modernism and literature these essays address a broad array of textual materials.

from political pamphlets to gynecology textbooks as they investigate women's responses to the rise of commodity capitalism, middle class women's entrance into the labor force, the welfare state's invasion of the working class home and the intensified eroticization of racial and class differences. **On Serpent-worship and on the Venomous Snakes of India** Sir Joseph Fayrer, 1892 *The American Antiquarian and Oriental Journal*, 1889
