## **Servant Problem Domestic Workers In North America:**

**The Servant Problem** Linda Martin, Kerry Segrave, 1985      **Maid in the USA** Mary Romero, 2016-05-13 This is a classic work in the fields of Women's Studies and Sociology. On its 10th Anniversary it is still a vital and moving study of the lives of immigrant domestic workers and is constantly cited in the research. Romero's new introduction will offer a fresh look at the material including more recent events proving that the issues discussed in the book are still very relevant to today's world.

**The Servant Problem** Rosie Cox, 2006-01-27 There are now more servants in Britain than in Victorian times. This explosion in paid domestic employment is part of a global trend. Women from countries such as the Philippines take on domestic jobs in order to support families at home whilst students from Eastern Europe, the EU and Brazil work as au pairs in order to study English and improve their employment prospects. Rosie Cox's timely new work examines the reality of paid domestic labour in Britain today and explores the global trends that sustain this growth of domestic employment. She shows how the economy depends on women working outside the home, how it is the employment of domestic workers that helps make this possible and examines the experiences of both employers and employees who have joined this new global labour market.

**Mapping the Social Landscape** Susan J. Ferguson, 2020-08-27 The author is a proud sponsor of the 2020 SAGE Keith Roberts Teaching Innovations Award, enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. Mapping The Social Landscape is one of the most established and widely used readers for Introductory Sociology. The organization follows that of a typical introductory sociology course and provides coverage of key concepts including culture, socialization, deviance, social structure, social inequality, social institutions, and social change. Susan J. Ferguson selects and introduces 58 readings representing a plurality of voices and views within sociology. The selections include classic statements from great thinkers like C. Wright Mills, Karl Marx, and Max Weber, as well as the works of contemporary scholars who address current social issues. Throughout this collection, there are many opportunities to discuss individual, interactional, and structural levels of society, the roles of race, ethnicity, class, gender, and sexuality in shaping social life, and the intersection of statuses and identities. Included with this title is the password-protected Instructor Resource Site, formally known as SAGE Edge, which offers access to all text-specific resources, including a test bank and editable chapter-specific PowerPoint slides.

**Bringing Law Home** Katherine Eva Maich, 2025-08-05 The personal nature of domestic labor and its location in the privacy of the employer's home means that domestic workers have long struggled for equitable and consistent labor rights. The dominant discourse regards the home as separate from work, so envisioning what its legal regulation would look like is remarkably challenging. In *Bringing Law Home*, Katherine Eva Maich offers a uniquely comparative and historical study of labor struggles for domestic workers in New York City and Lima, Peru. She argues that if the home is to be a place of work, then it must also be captured in the legal infrastructures that regulate work. Yet even progressive labor laws for domestic workers in each city are stifled by historically entrenched patterns of gendered

racialization and labor informality Peruvian law extends to household workers only half of the labor protections afforded to other occupations In New York City the law grants negligible protections and deliberately eschews language around immigration Maich finds that coloniality is deeply embedded in contemporary relations of service revealing important distinctions in how we understand power domination and inequality in the home and the workplace **Caliban and the Yankees** , **Feminisms in the Academy** Domna C. Stanton, Abigail J. Stewart, 1995 Brings together essays by leading scholars to explore the profound impact of feminist scholarship on the major academic disciplines **Caliban and the Yankees** Harvey R. Neptune, 2009-09 In a compelling story of the installation and operation of U S bases in the Caribbean colony of Trinidad during World War II Harvey Neptune examines how the people of this British island contended with the colossal force of American empire building at a critical time in the island s history The U S military occupation between 1941 and 1947 came at the same time that Trinidadian nationalist politics sought to project an image of a distinct independent and particularly un British cultural landscape The American intervention Neptune shows contributed to a tempestuous scene as Trinidadians deliberately engaged Yankee personnel paychecks and practices flooding the island He explores the military based economy relationships between U S servicemen and Trinidadian women and the influence of American culture on local music especially calypso fashion labor practices and everyday racial politics Tracing the debates about change among ordinary and privileged Trinidadians he argues that it was the poor the women and the youth who found the most utility in and moved most avidly to make something new out of the American presence Neptune also places this history of Trinidad s modern times into a wider Caribbean and Latin American perspective highlighting how Caribbean peoples sometimes wield America and American ways as part of their localized struggles Household Workers Unite Premilla Nadasen, 2016-09-06 Telling the stories of African American domestic workers this book resurrects a little known history of domestic worker activism in the 1960s and 1970s offering new perspectives on race labor feminism and organizing In this groundbreaking history of African American domestic worker organizing scholar and activist Premilla Nadasen shatters countless myths and misconceptions about an historically misunderstood workforce Resurrecting a little known history of domestic worker activism from the 1950s to the 1970s Nadasen shows how these women were a far cry from the stereotyped passive and powerless victims they were innovative labor organizers who tirelessly organized on buses and streets across the United States to bring dignity and legal recognition to their occupation Dismissed by mainstream labor as unorganizable African American household workers developed unique strategies for social change and formed unprecedented alliances with activists in both the women s rights and the black freedom movements Using storytelling as a form of activism and as means of establishing a collective identity as workers these women proudly declared We refuse to be your mammies nannies aunties uncles girls handmaidens any longer With compelling personal stories of the leaders and participants on the front lines Household Workers Unite gives voice to the poor women of color whose dedicated struggle for higher wages better working

conditions and respect on the job created a sustained political movement that endures today Winner of the 2016 Sara A Whaley Book Prize Care Premilla Nadasen, 2023-10-10 An eye opening reckoning with the care economy from its roots in racial capitalism to its exponential growth as a new site of profit and extraction Since the earliest days of the pandemic care work has been thrust into the national spotlight The notion of care seems simple enough Care is about nurturing feeding nursing assisting and loving human beings It is the work that makes all other work possible But as historian Premilla Nadasen argues we have only begun to understand the massive role it plays in our lives and our economy Nadasen traces the rise of the care economy from its roots in slavery where there was no clear division between production and social reproduction to the present care crisis experienced acutely by more and more Americans Today s care economy Nadasen shows is an institutionalized hierarchical system in which some people s pain translates into other people s profit Yet this is also a story of resistance Low wage workers immigrants and women of color in movements from Wages for Housework and Welfare Rights to the Movement for Black Lives have continued to fight for and practice collective care These groups help us envision how given the challenges before us we can create a caring world as part of a radical future **Feminism and the Servant Problem** Laura Schwartz, 2019-07-18 Reveals a hidden history of women s suffrage from the perspectives of working class women employed as domestic servants Colonization and Domestic Service Victoria K. Haskins, Claire Lowrie, 2014-12-05 This book brings together two key themes that have not been addressed together previously in any sustained way domestic service and colonization Existing studies of domestic service rarely make mention of colonization but colonization offers a rich and exciting new paradigm for analysing the phenomenon of domestic labour by non family workers paid and otherwise Scholars in diverse fields and disciplines here share new and stimulating insights on the various connections between domestic employment and the processes of colonization both past and present in a range of original essays *Journal of Women's History Guide to Periodical Literature* , 1992 Gayle V Fischer has produced a terrifically useful volume that no research library should be without The Journal of American History an indispensable resource to finding material on women s history throughout the world Journal of World History the work is recommended for its currency depth of coverage and scope Ethnic Forum As part of its mission to disseminate feminist scholarship and serve as the journal of record for the new area of women s history the Journal of Women s History began a compilation of periodical literature dealing with women s history This volume is drawn from more than 750 journals and includes material published from 1980 through 1990 There are forty subject categories and numerous subcategories The guide lists more than 5 500 articles all are extensively cross listed **Work in America [2 Volumes]** Carl E. Doing the Dirty Work? Bridget Anderson, 2000-02 There has been a tendency amongst feminists to see domestic work as the great leveller a common burden imposed on all women equally by patriarchy This unique study of migrant domestic workers in the North uncovers some

uncomfortable facts about the race and class aspects of domestic oppression Based on original research it looks at the racialisation of paid domestic labour in the North a phenomenon which challenges feminism and political theory at a fundamental level The book opens with an exploration of the public private divide and an overview of the debates on women and power The author goes on to provide a map of employment patterns of migrant women in domestic work in the North she describes the work they perform their living and working conditions and their employment relations A chapter on the US explores the connections between slavery and contemporary domestic service while a section on commodification examines the extent to which migrant domestic workers are not selling their labour but their whole personhood The book also looks at the role of the Other in managing dirt death and pollution and the effects of the feminisation of the labour market as middle class white women have greater presence in the public sphere they are more likely to push responsibility for domestic work onto other women In its depiction of the treatment of women from the South by women in the North the book asks some difficult questions about the common bond of womanhood Packed with information on the numbers of migrant women working as domestics the racism immigration or employment legislation that constrains their lives and testimonies from the workers themselves this is the most comprehensive study of migrant domestic workers available *People in Transit* Dirk Hoerder, Jürg Nagler, 2002-08-22 The demographic shockwaves of the nineteenth and early twentieth centuries in Europe produced tremendous change in the national economies and affected the political social and cultural development of these societies Migration historians have begun to connect the various European migratory streams during this period with transcontinental migration to North America This volume contains empirical studies on German internal migration and transatlantic emigration from the 1820s to the 1930s placed in a comparative perspective of Polish Swedish and Irish migration to North America Special emphasis is placed on the role of women in the process of migration By looking specifically at postwar Germany Klaus J Bade underscores the relevance of this history in a concluding essay **Daily Life of Women** Colleen Boyett, H.
