*Costuming the Shakespearean Stage* Robert I. Lublin, 2016-05-13 Although scholars have long considered the material conditions surrounding the production of early modern drama until now no book length examination has sought to explain what was worn on the period's stages and more importantly how articles of apparel were understood when seen by contemporary audiences Robert Lublin's new study considers royal proclamations religious writings paintings woodcuts plays historical accounts sermons and legal documents to investigate what Shakespearean actors actually wore in production and what cultural information those costumes conveyed Four of the chapters of *Costuming the Shakespearean Stage* address categories of seeing visually based semiotic systems according to which costumes constructed and conveyed information on the early modern stage The four categories include gender social station nationality and religion The fifth chapter examines one play Thomas Middleton's *A Game at Chess* to show how costumes signified across the categories of seeing to establish a play's distinctive semiotics and visual aesthetic *The Orders of Knighthood and the Formation of the British Honours System, 1660-1760* Antti Matikkala, 2008 Sheds considerable new light on the nature development and functions of the orders in a key phase of their history and goes a long way to explaining how such archaic institutions could flourish in a

culture that is commonly thought anti traditional and especially hostile to the middle ages Professor JONATHAN BOULTON University of Notre Dame This is the first comprehensive study to set the British orders of knighthood properly into the context of the honours system by analysing their political social and cultural functions from the Restoration of the monarchy to the end of George II s reign It examines the revival of the Order of the Garter and the proposals to establish the Orders of the Royal Oak and the Esquires of the Martyred King at the Restoration the foundation 1687 and the revival 1703 4 of the Order of the Thistle as well as the foundation of the Order of the Bath 1725 It establishes just how central a part the orders played in the British high political life and its comprehensive and multidimensional approach carefully contrasts the idealistic discourse of virtue and honour to the real workings of the honours system it also makes the case for the Chivalric Enlightenment The orders over the water the Garter and the Thistle conferred by the Jacobite claimants are discussed for the first time in the context of the established British honours system Overall the comparison between the socially very restricted British and the increasingly meritocratic Continental orders highlights the isolation of the British honours system from the European tendencies
